

Build the Campus Center

A practical ground-floor LEGO model from the architectural plan

662 pieces | 6 baseplates

96 x 64 studs

76.8 x 51.2 cm display footprint

Approximately 1:125 in plan

Four wall courses; open top

29 simplified door openings

This is a buildable interpretation with standard bricks. Wall thickness, window bays and stairs are simplified to the stud grid.

- Walls / lintels
- Glazing representation
- Counters / tables
- Seats / equipment

Before you build

Read this page, then use the baseplate maps for each wall course

1. Prepare a flat board

Arrange six 32 x 32 baseplates as three columns by two rows. The whole assembly is large: support all six on a flat board when moving it. Do not lift it by the building walls.

2. Follow the coordinates

The southwest corner is (0,0). X increases right; Y increases up on every plan. Coordinates refer to the southwest occupied stud of a brick. Baseplates A/B/C are the bottom row; D/E/F are the top row.

3. Build four wall courses

Start with course 1 on all six baseplates, then course 2, 3 and 4. Each outlined rectangle is one brick. Count studs to identify its length. The maps are top views, not full-size print templates.

4. Preserve door gaps

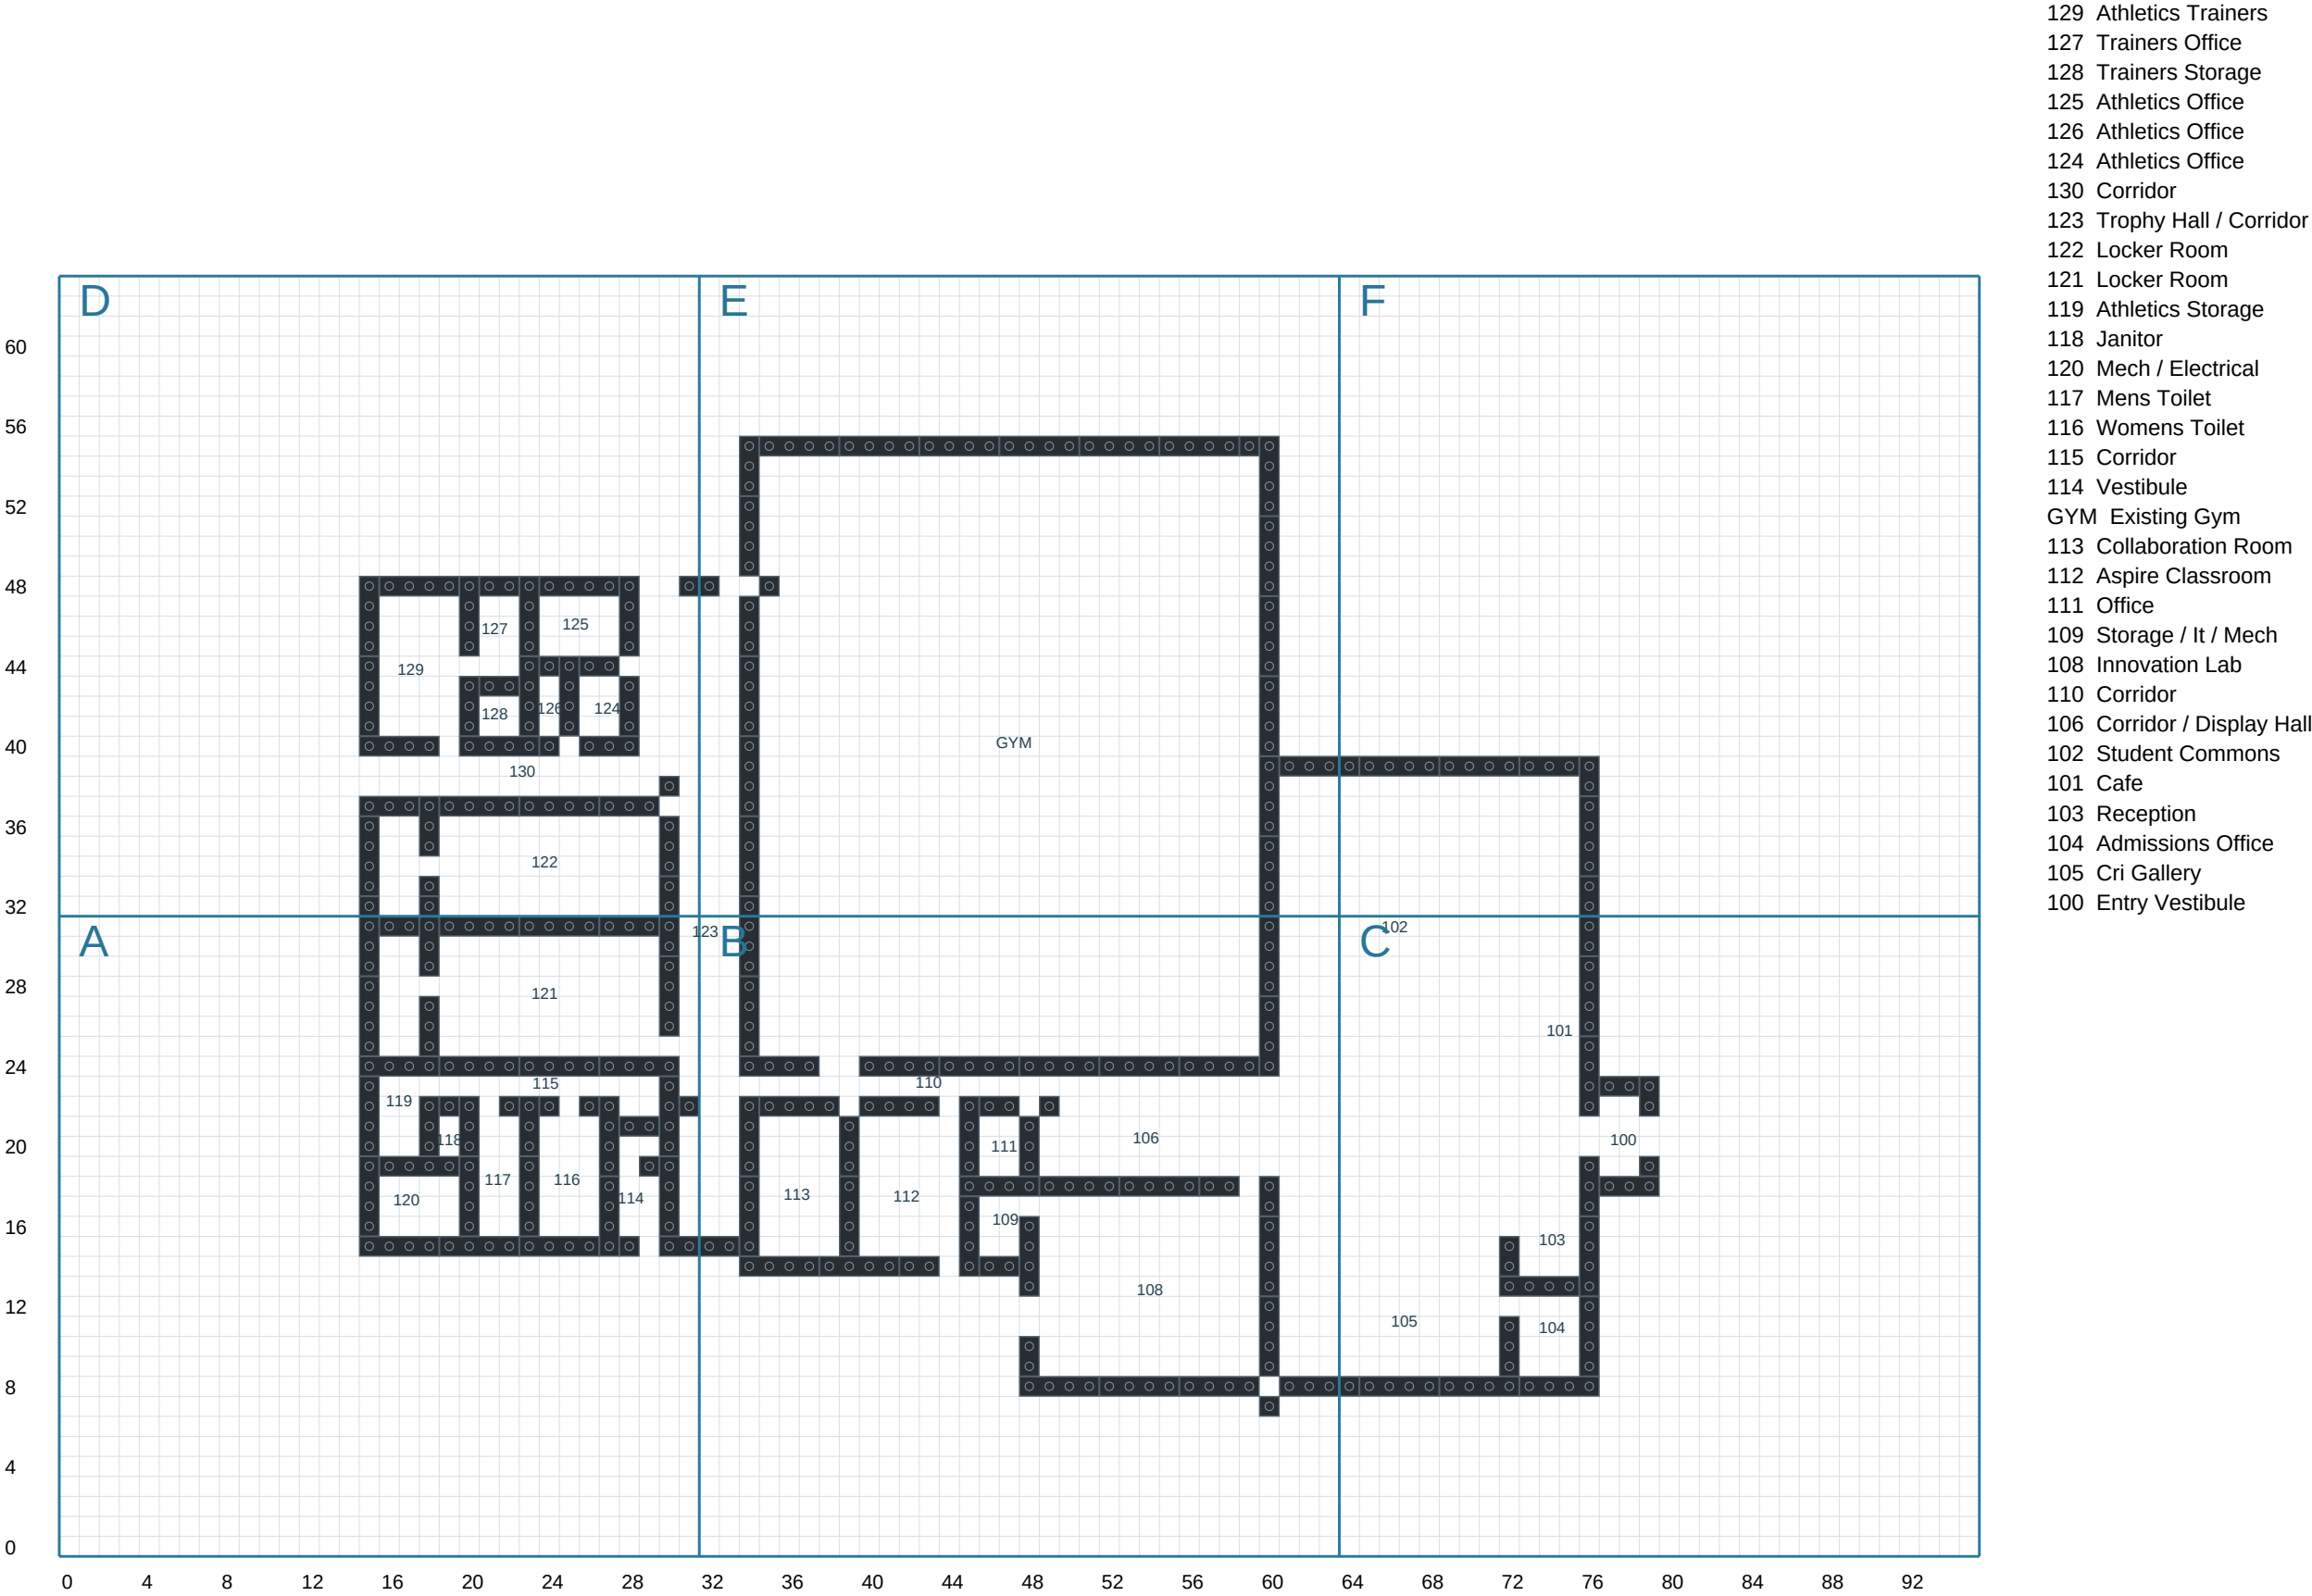

Leave the indicated gaps empty on courses 1 and 2. Course 3 bridges them with a single 1 x 3 or 1 x 4 lintel attached to both jambs. Course 4 caps the walls. Do not substitute loose 1 x 1 bricks over a doorway.

5. Add the interior blocks

The furniture pages give exact positions. Furniture uses common blocks and is schematic. White bricks represent glass; transparent alternatives are optional and are not assumed in the bill of materials.

Baseplate layout and room key

Use the blue 32-stud boundaries to match the six detailed maps

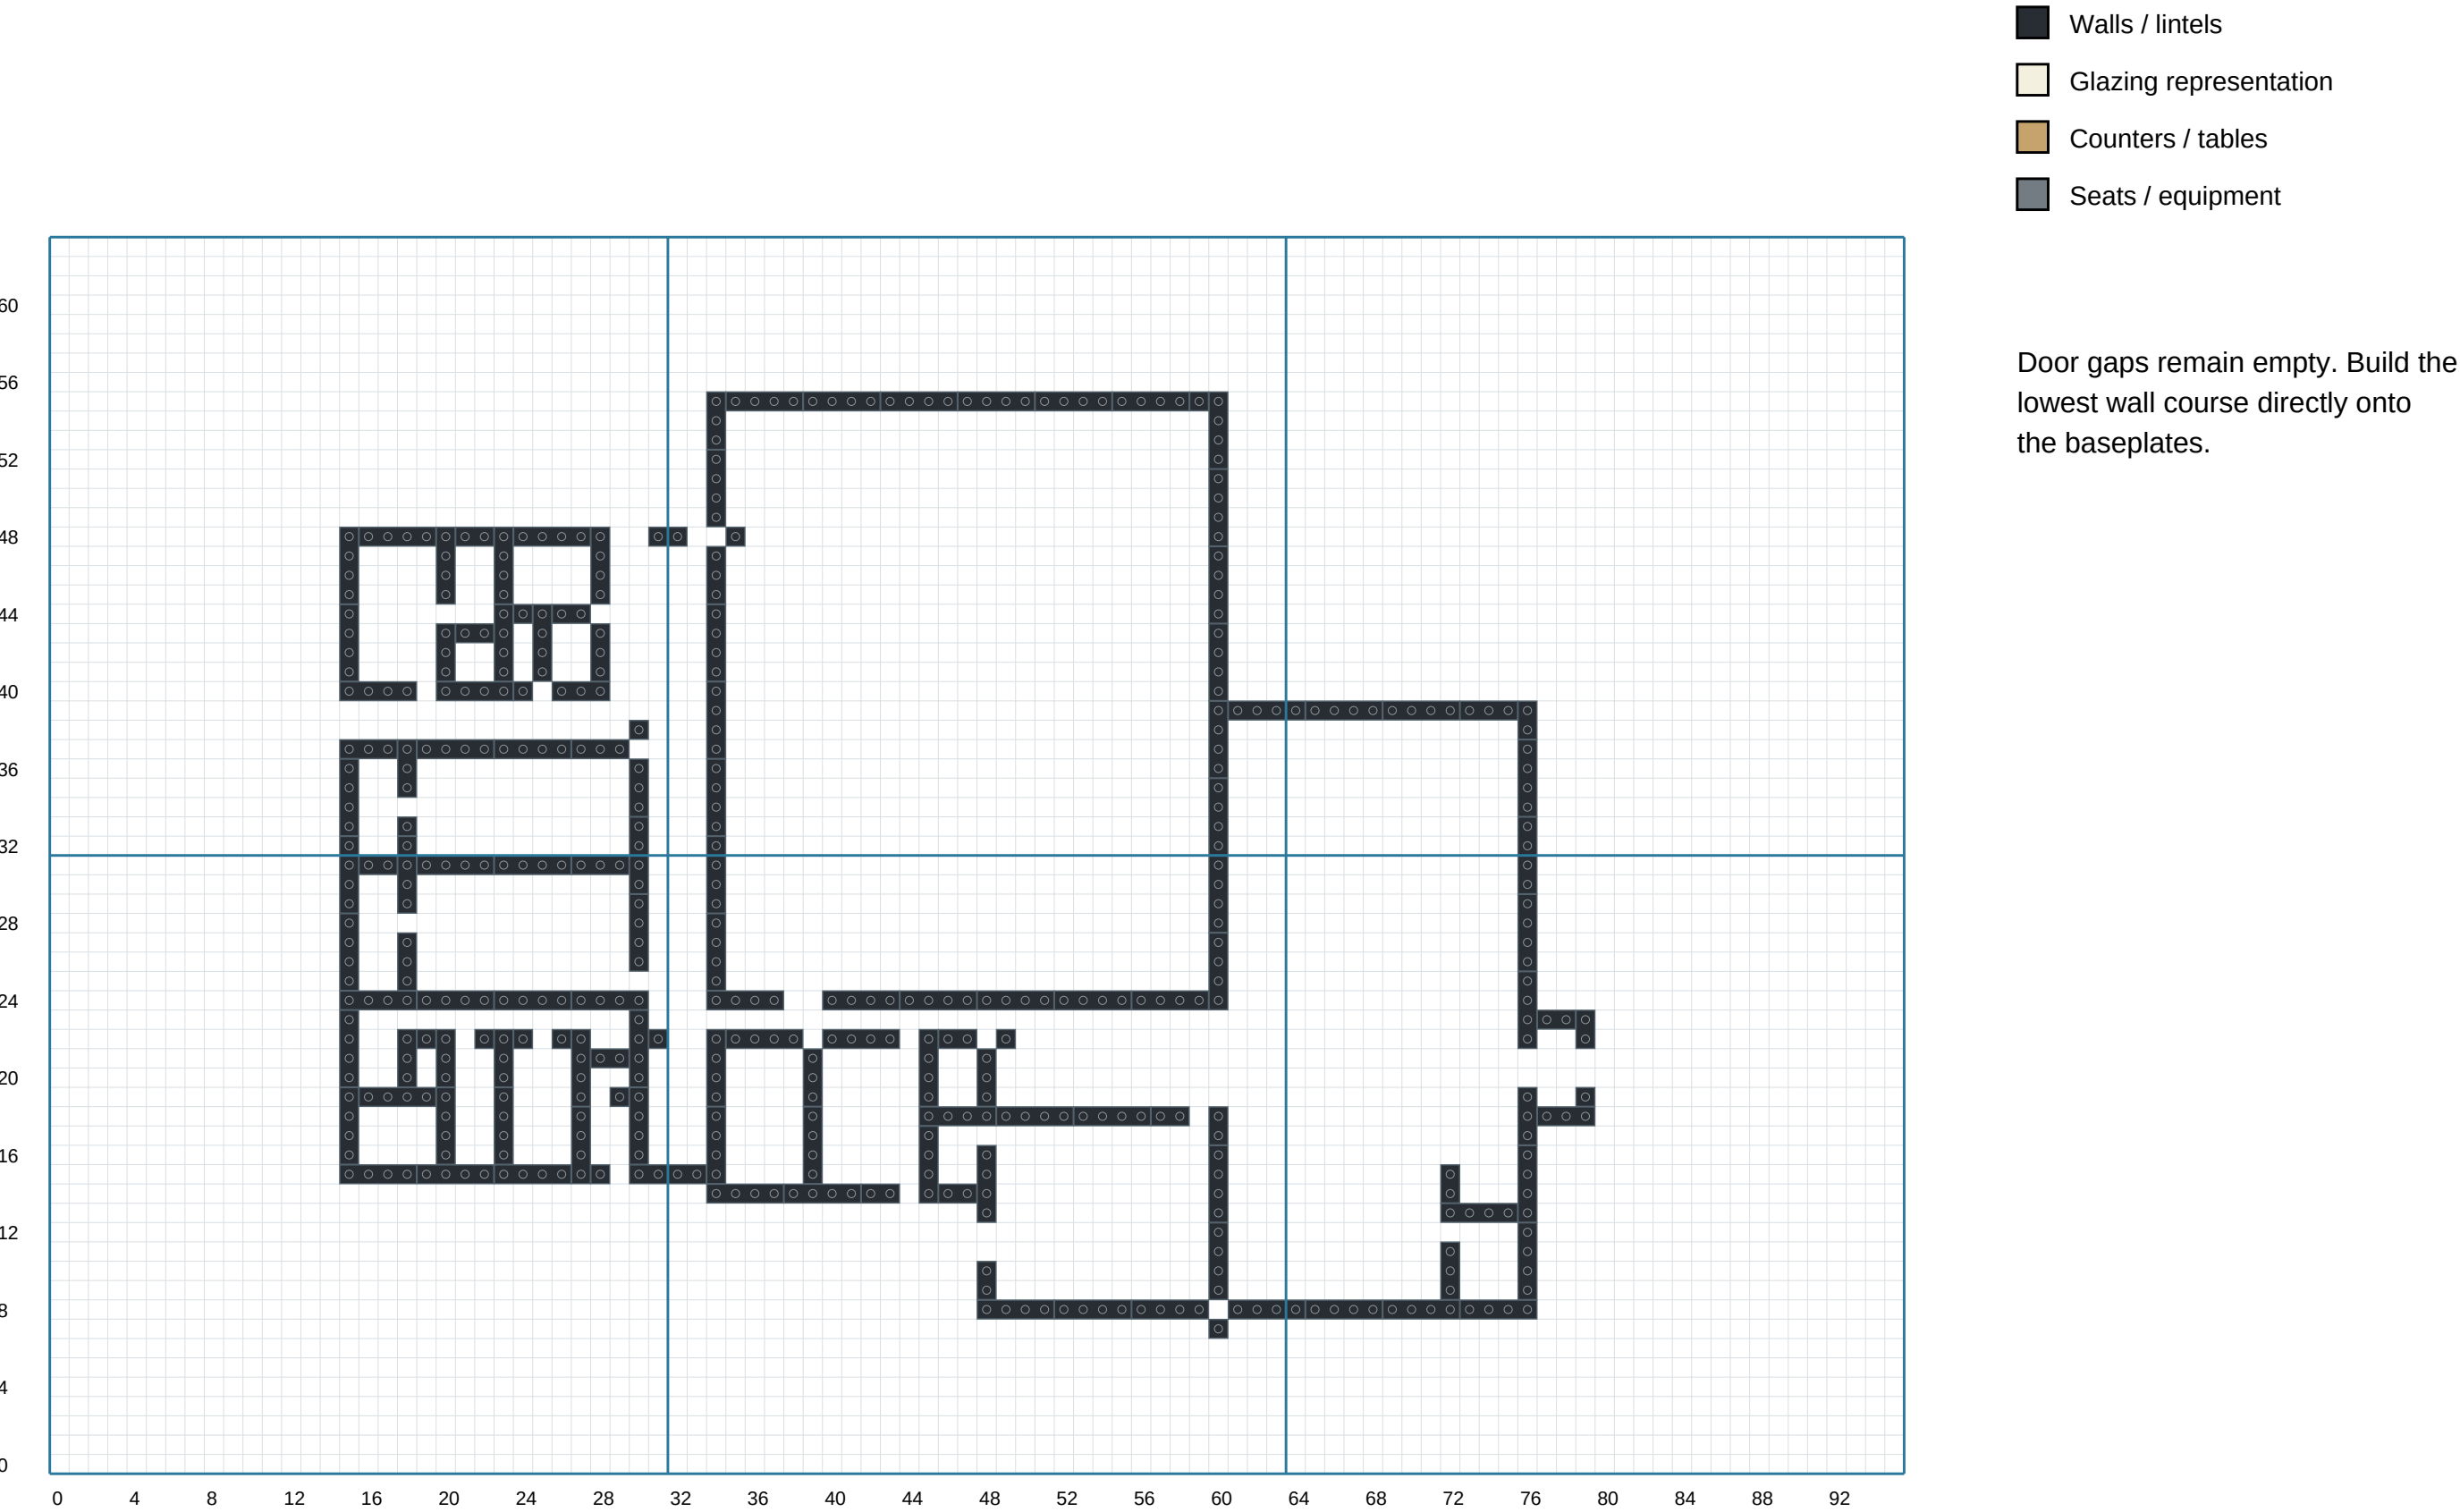

Parts to gather

Counts match the complete digital model, including baseplates and interior blocks

PART	DESCRIPTION	COLOR	COUNT	
3001	Brick 2 x 4	Tan	4	Use the supplied parts_list.csv as the exact shopping or sorting list. Color is a suggested visual scheme, not a claim of current store stock.
3003	Brick 2 x 2	Dark bluish gray	8	
3003	Brick 2 x 2	Light bluish gray	9	
3003	Brick 2 x 2	Tan	2	
3004	Brick 1 x 2	Black	72	The LDraw file uses these standard part identifiers. Open it in a compatible brick editor with an installed LDraw parts library. No proprietary brick meshes are bundled.
3004	Brick 1 x 2	White	10	
3005	Brick 1 x 1	Black	59	
3005	Brick 1 x 1	White	9	
3010	Brick 1 x 4	Black	339	The model uses black walls and white glazing for easy reading. The white pieces can be replaced with equivalent transparent bricks where available.
3010	Brick 1 x 4	White	22	
3622	Brick 1 x 3	Black	106	
3622	Brick 1 x 3	White	16	
3811	Baseplate 32 x 32	Light bluish gray	6	

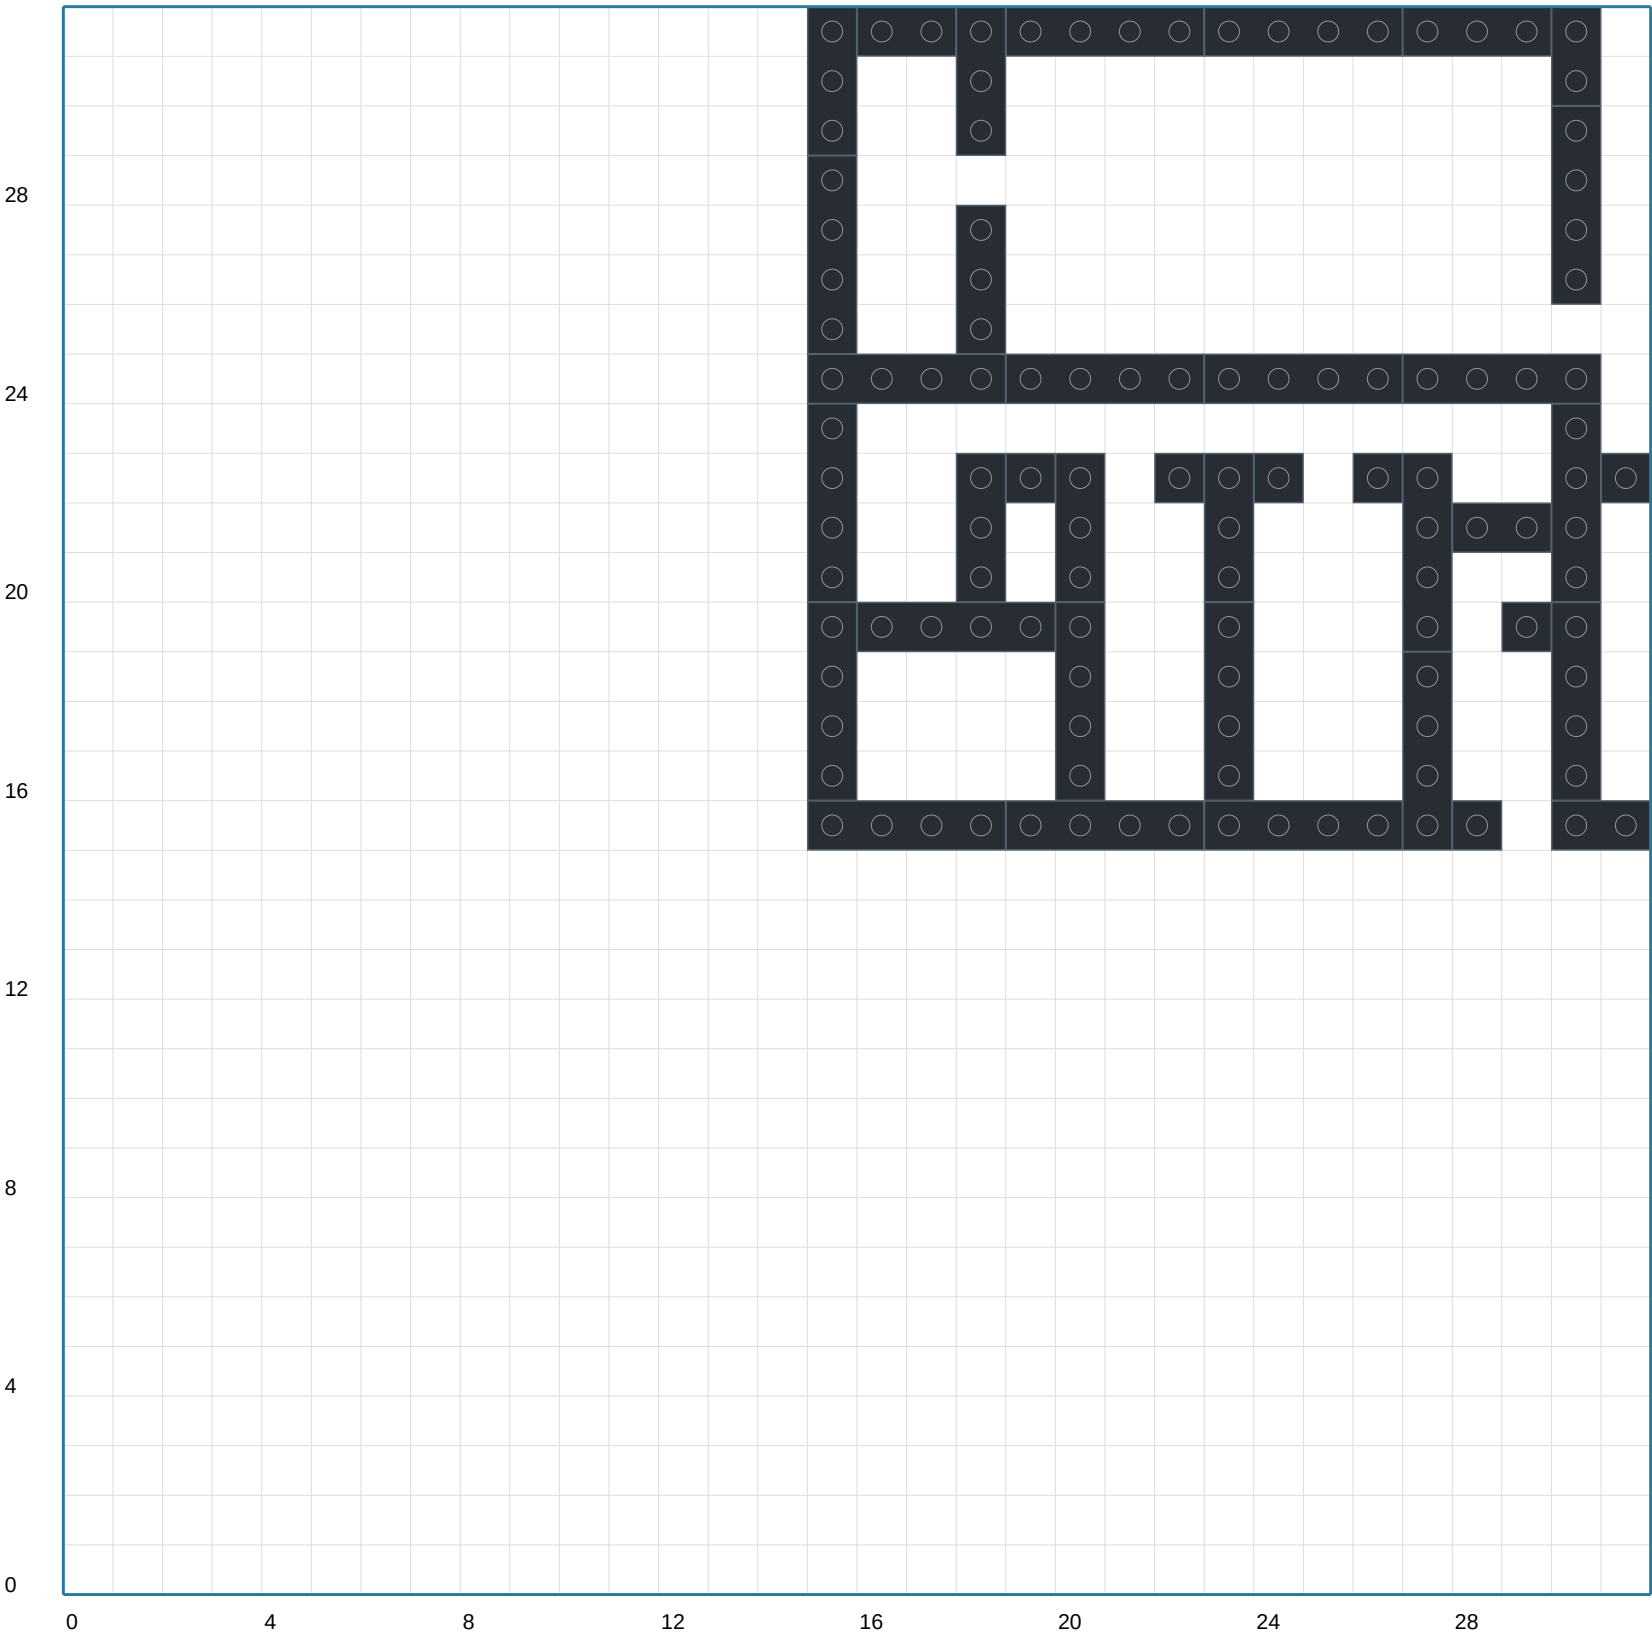

Wall course 1 - overview

148 bricks in this wall course | build across all baseplates before proceeding

Course 1 - baseplate A

X 0 to 31 | Y 0 to 31 | north is up

- Walls / lintels
- Glazing representation
- Counters / tables
- Seats / equipment

Each brick has its own outline; the small circles are studs. A brick crossing a blue baseplate edge is one complete brick, not two pieces.

The same boundary brick is shown clipped on the adjacent page. Place it only once. Keep baseplates touching on the supporting board.

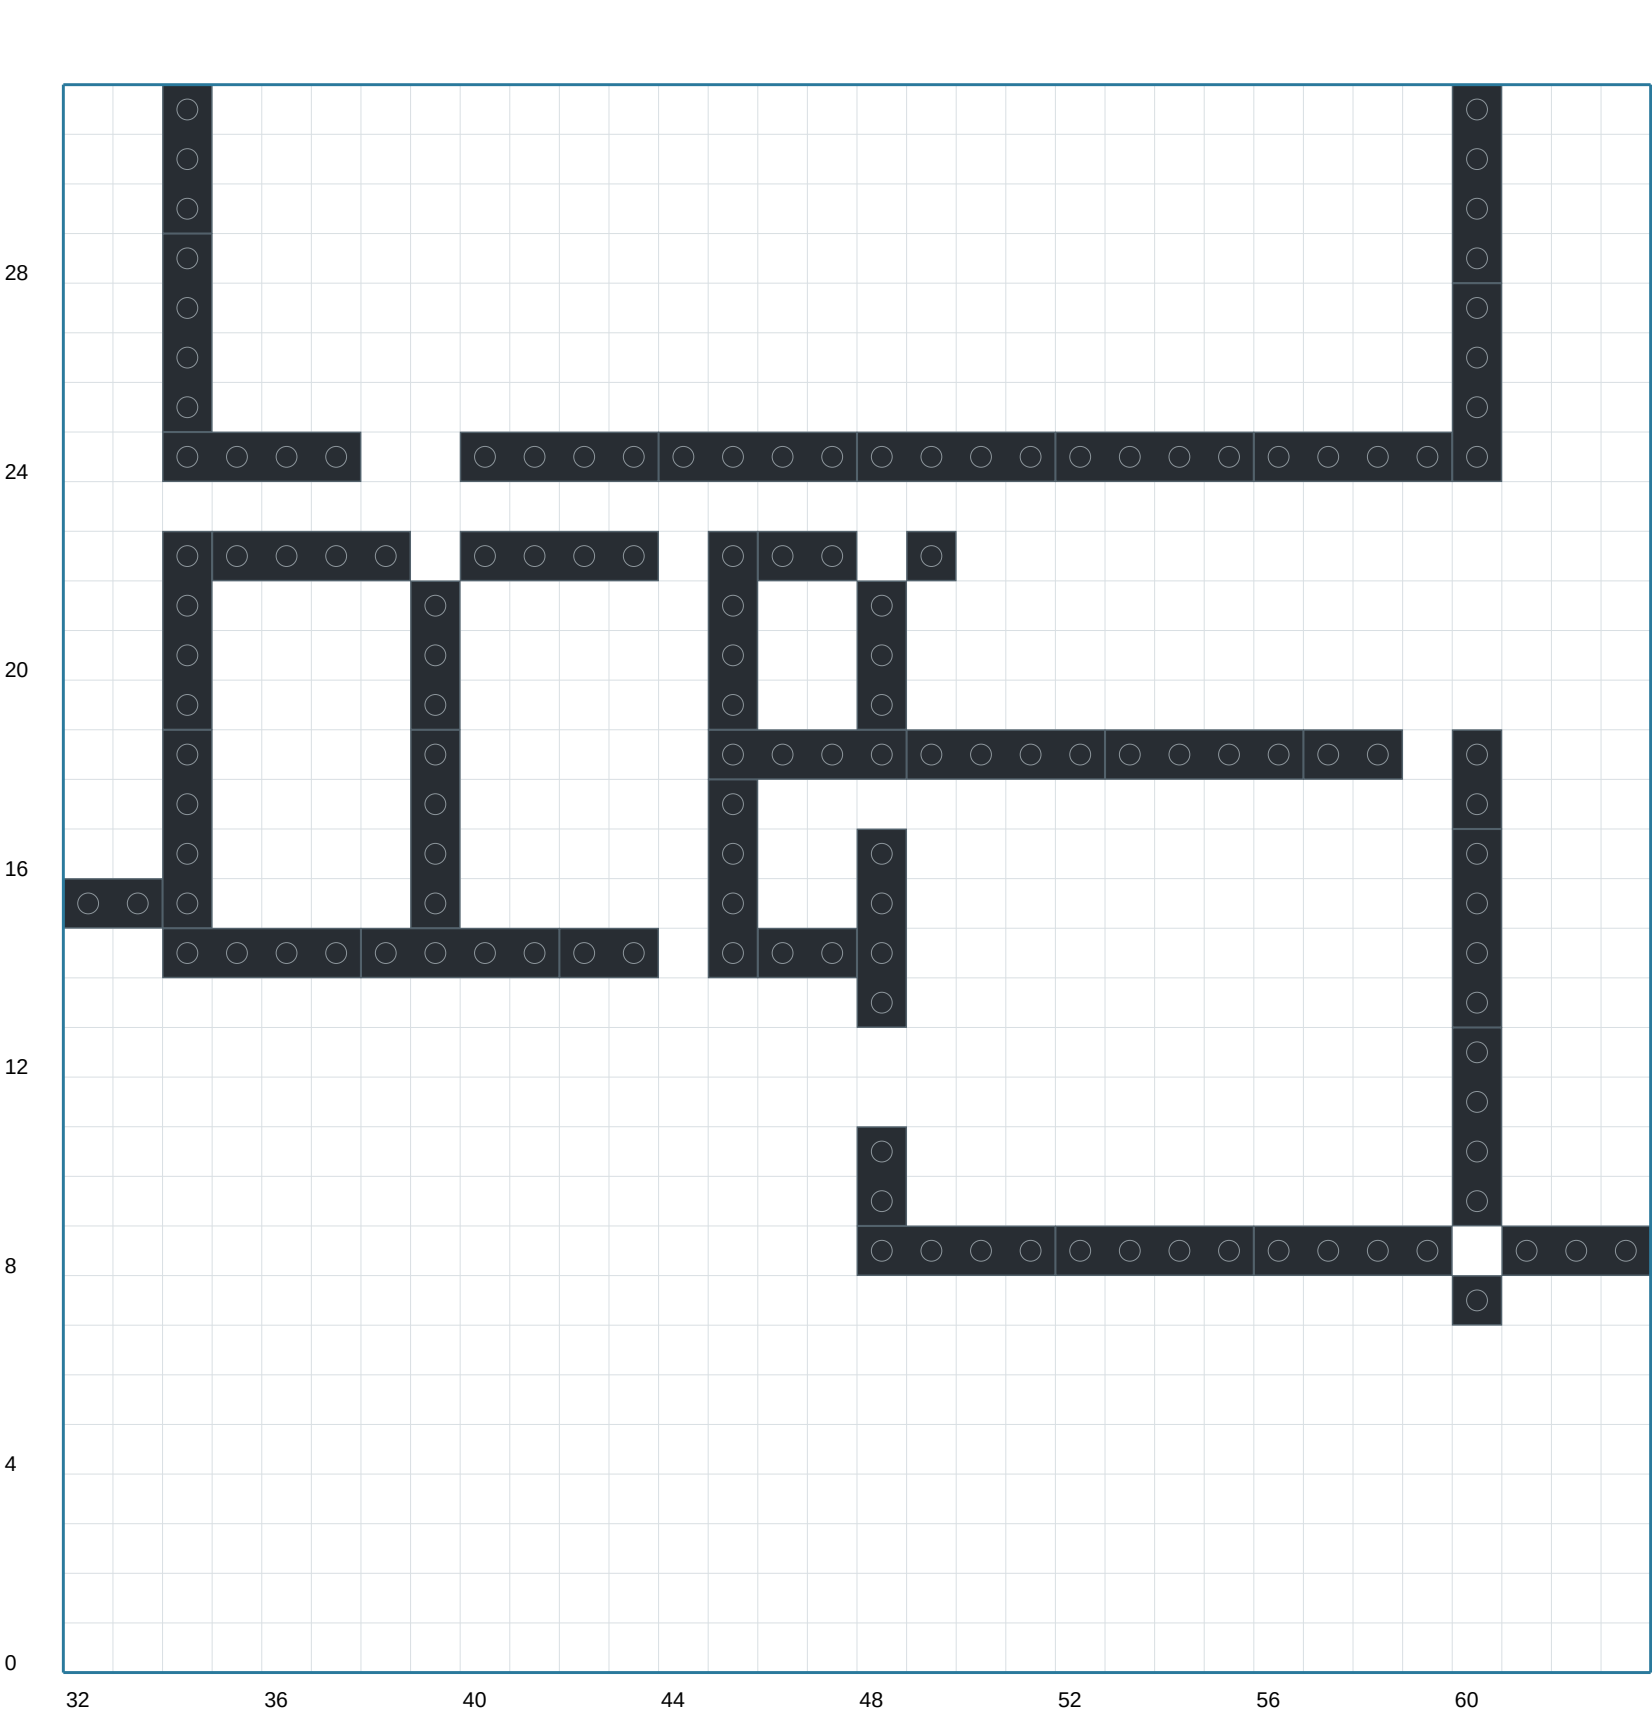

Bricks starting on this baseplate:

- 2 Brick 1 x 2 Black
- 7 Brick 1 x 1 Black
- 24 Brick 1 x 4 Black
- 5 Brick 1 x 3 Black

If a placement is unclear, brick_placements.csv gives its exact X, Y, width, depth, color and course.

Course 1 - baseplate B

X 32 to 63 | Y 0 to 31 | north is up

- Walls / lintels
- Glazing representation
- Counters / tables
- Seats / equipment

Each brick has its own outline; the small circles are studs. A brick crossing a blue baseplate edge is one complete brick, not two pieces.

The same boundary brick is shown clipped on the adjacent page. Place it only once. Keep baseplates touching on the supporting board.

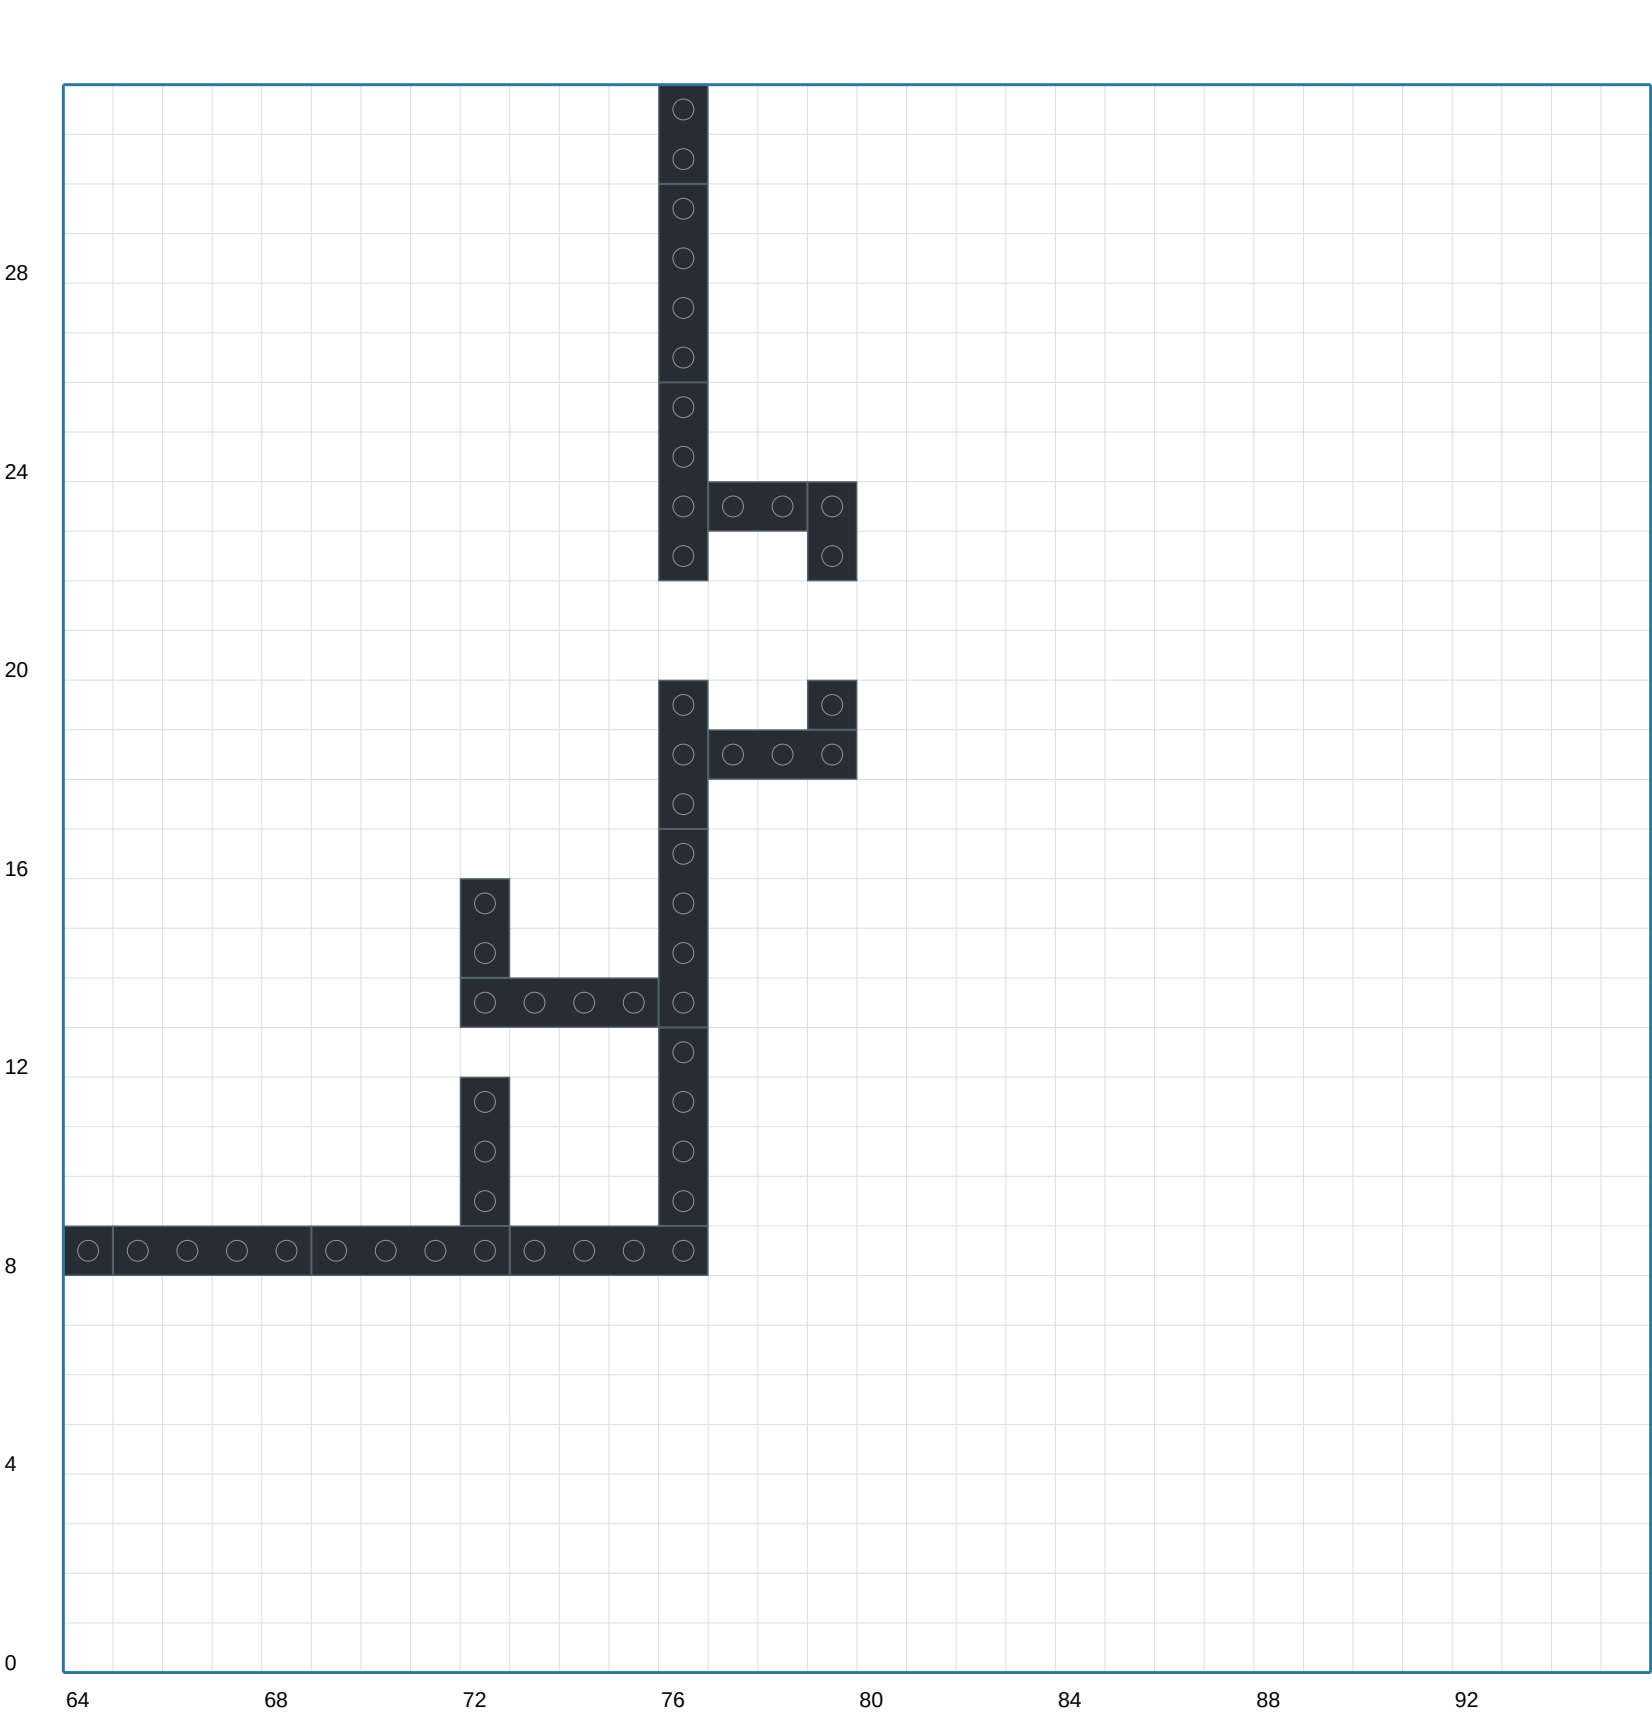

Bricks starting on this baseplate:

- 6 Brick 1 x 2 Black
- 2 Brick 1 x 1 Black
- 29 Brick 1 x 4 Black
- 2 Brick 1 x 3 Black

If a placement is unclear, brick_placements.csv gives its exact X, Y, width, depth, color and course.

Course 1 - baseplate C

X 64 to 95 | Y 0 to 31 | north is up

- Walls / lintels
- Glazing representation
- Counters / tables
- Seats / equipment

Each brick has its own outline; the small circles are studs. A brick crossing a blue baseplate edge is one complete brick, not two pieces.

The same boundary brick is shown clipped on the adjacent page. Place it only once. Keep baseplates touching on the supporting board.

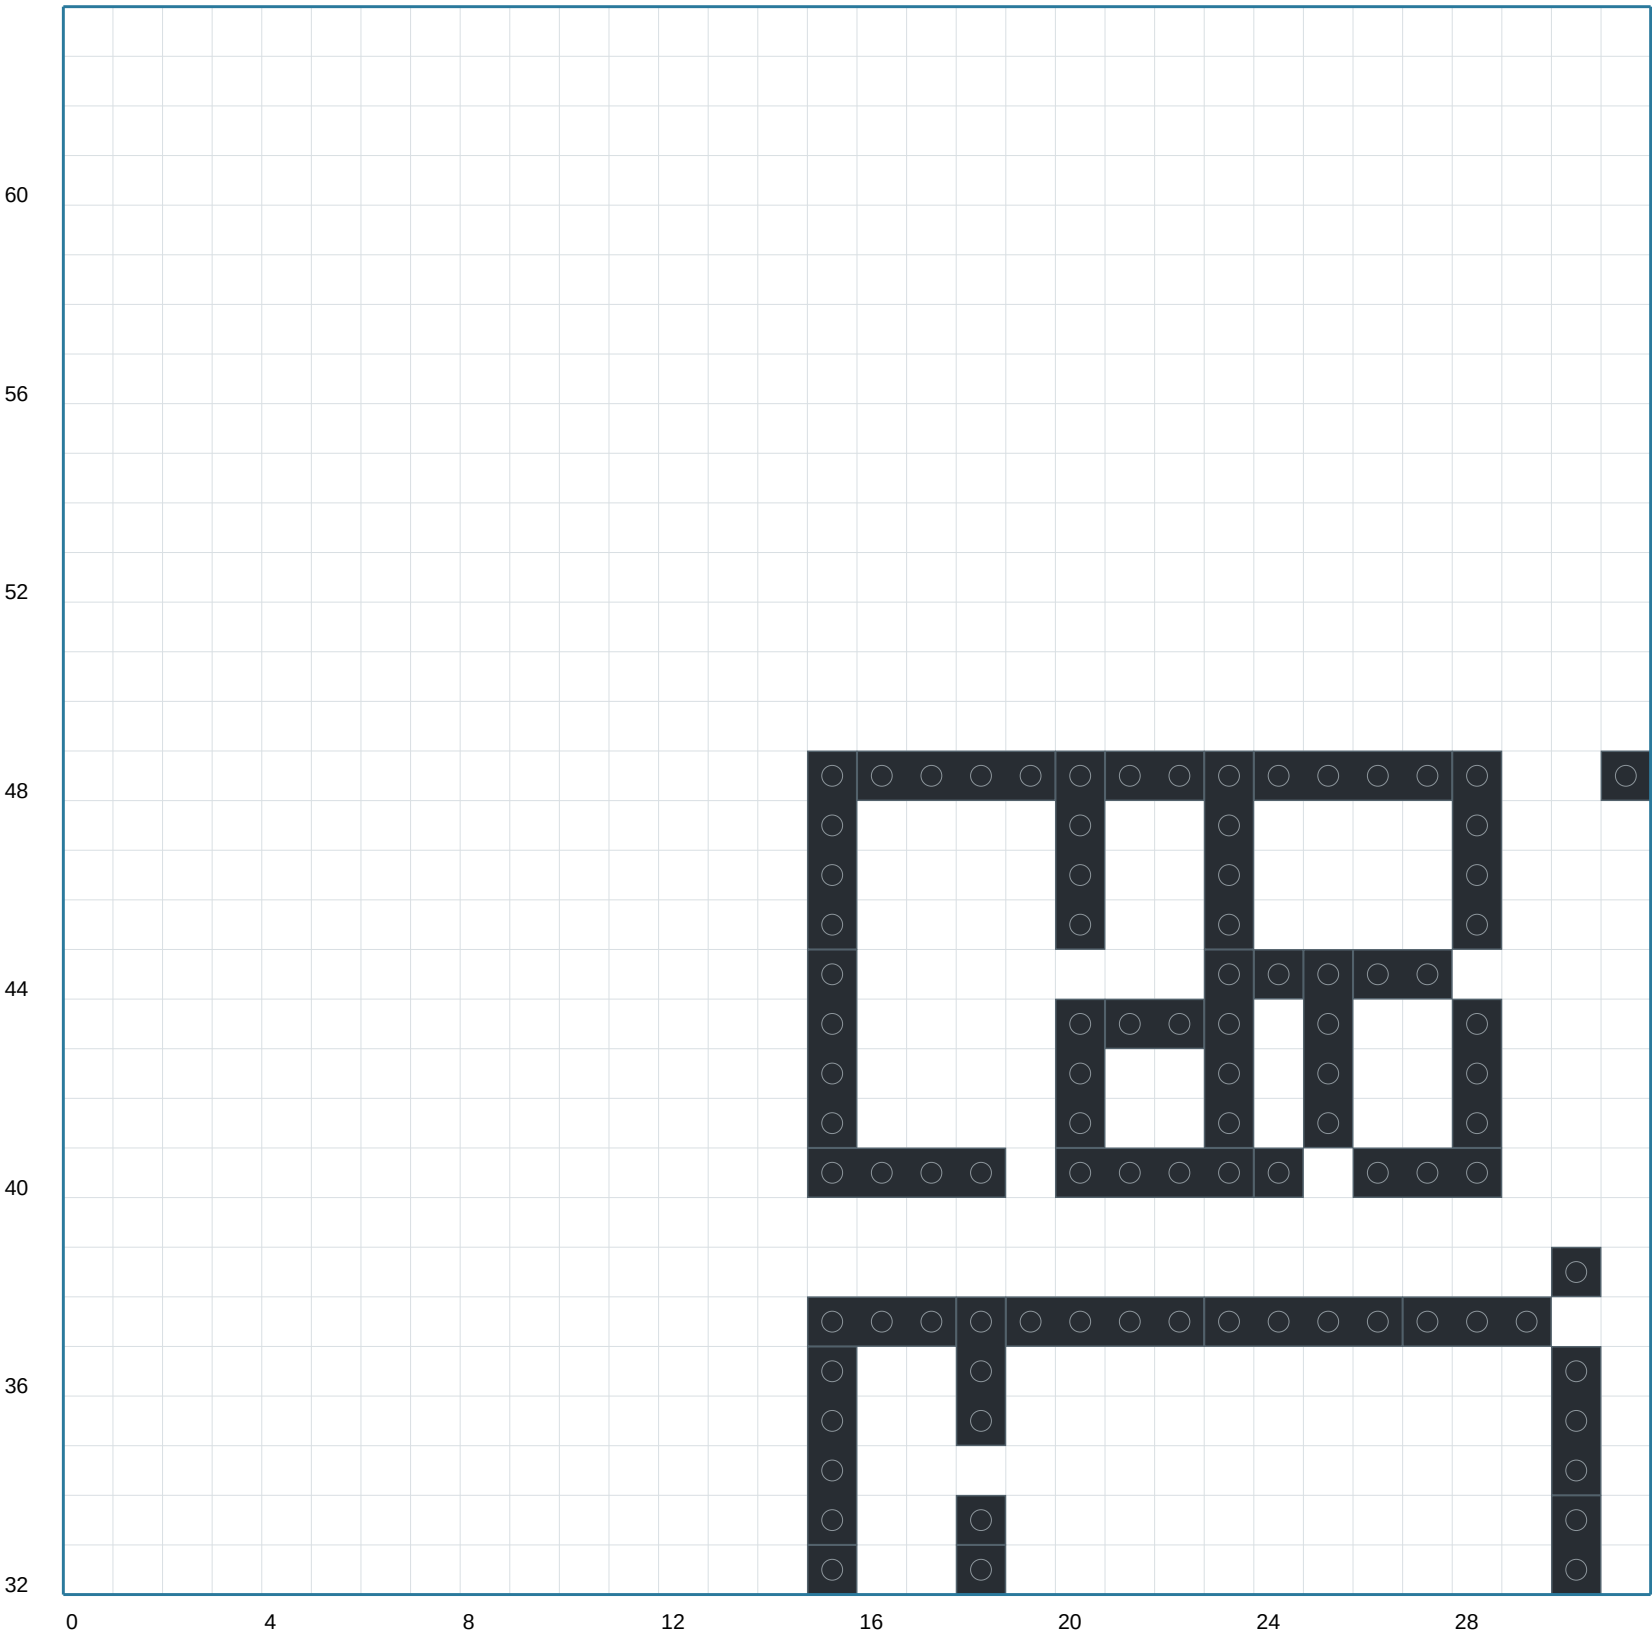

Bricks starting on this baseplate:

- 3 Brick 1 x 2 Black
- 1 Brick 1 x 1 Black
- 9 Brick 1 x 4 Black
- 3 Brick 1 x 3 Black

If a placement is unclear, brick_placements.csv gives its exact X, Y, width, depth, color and course.

Course 1 - baseplate D

X 0 to 31 | Y 32 to 63 | north is up

- Walls / lintels
- Glazing representation
- Counters / tables
- Seats / equipment

Each brick has its own outline; the small circles are studs. A brick crossing a blue baseplate edge is one complete brick, not two pieces.

The same boundary brick is shown clipped on the adjacent page. Place it only once. Keep baseplates touching on the supporting board.

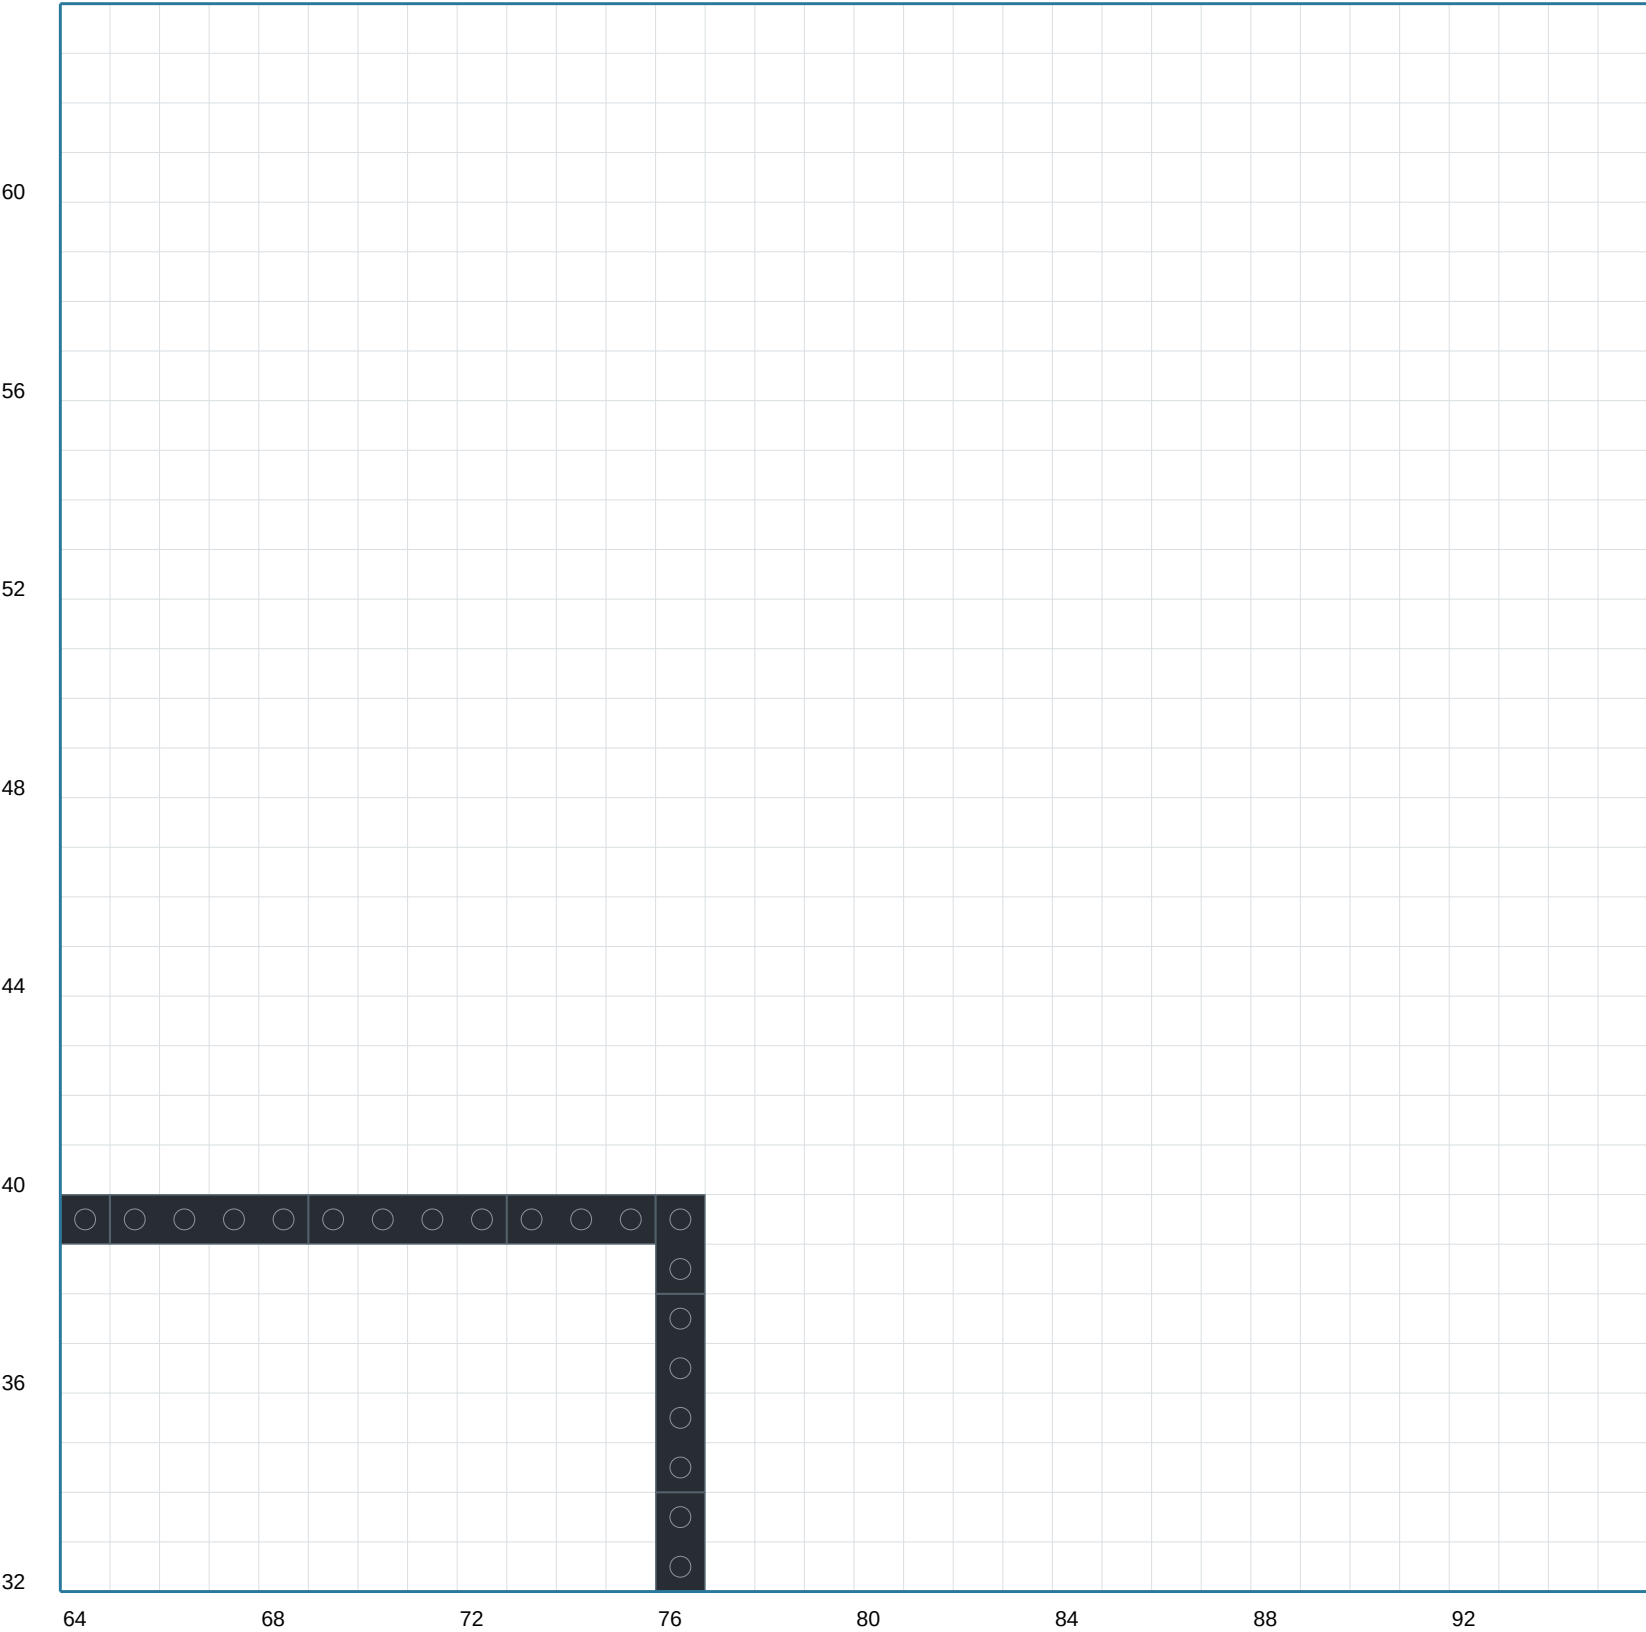

Bricks starting on this baseplate:

- 4 Brick 1 x 2 Black
- 4 Brick 1 x 1 Black
- 14 Brick 1 x 4 Black
- 7 Brick 1 x 3 Black

If a placement is unclear, brick_placements.csv gives its exact X, Y, width, depth, color and course.

Course 1 - baseplate F

X 64 to 95 | Y 32 to 63 | north is up

- Walls / lintels
- Glazing representation
- Counters / tables
- Seats / equipment

Each brick has its own outline; the small circles are studs. A brick crossing a blue baseplate edge is one complete brick, not two pieces.

The same boundary brick is shown clipped on the adjacent page. Place it only once. Keep baseplates touching on the supporting board.

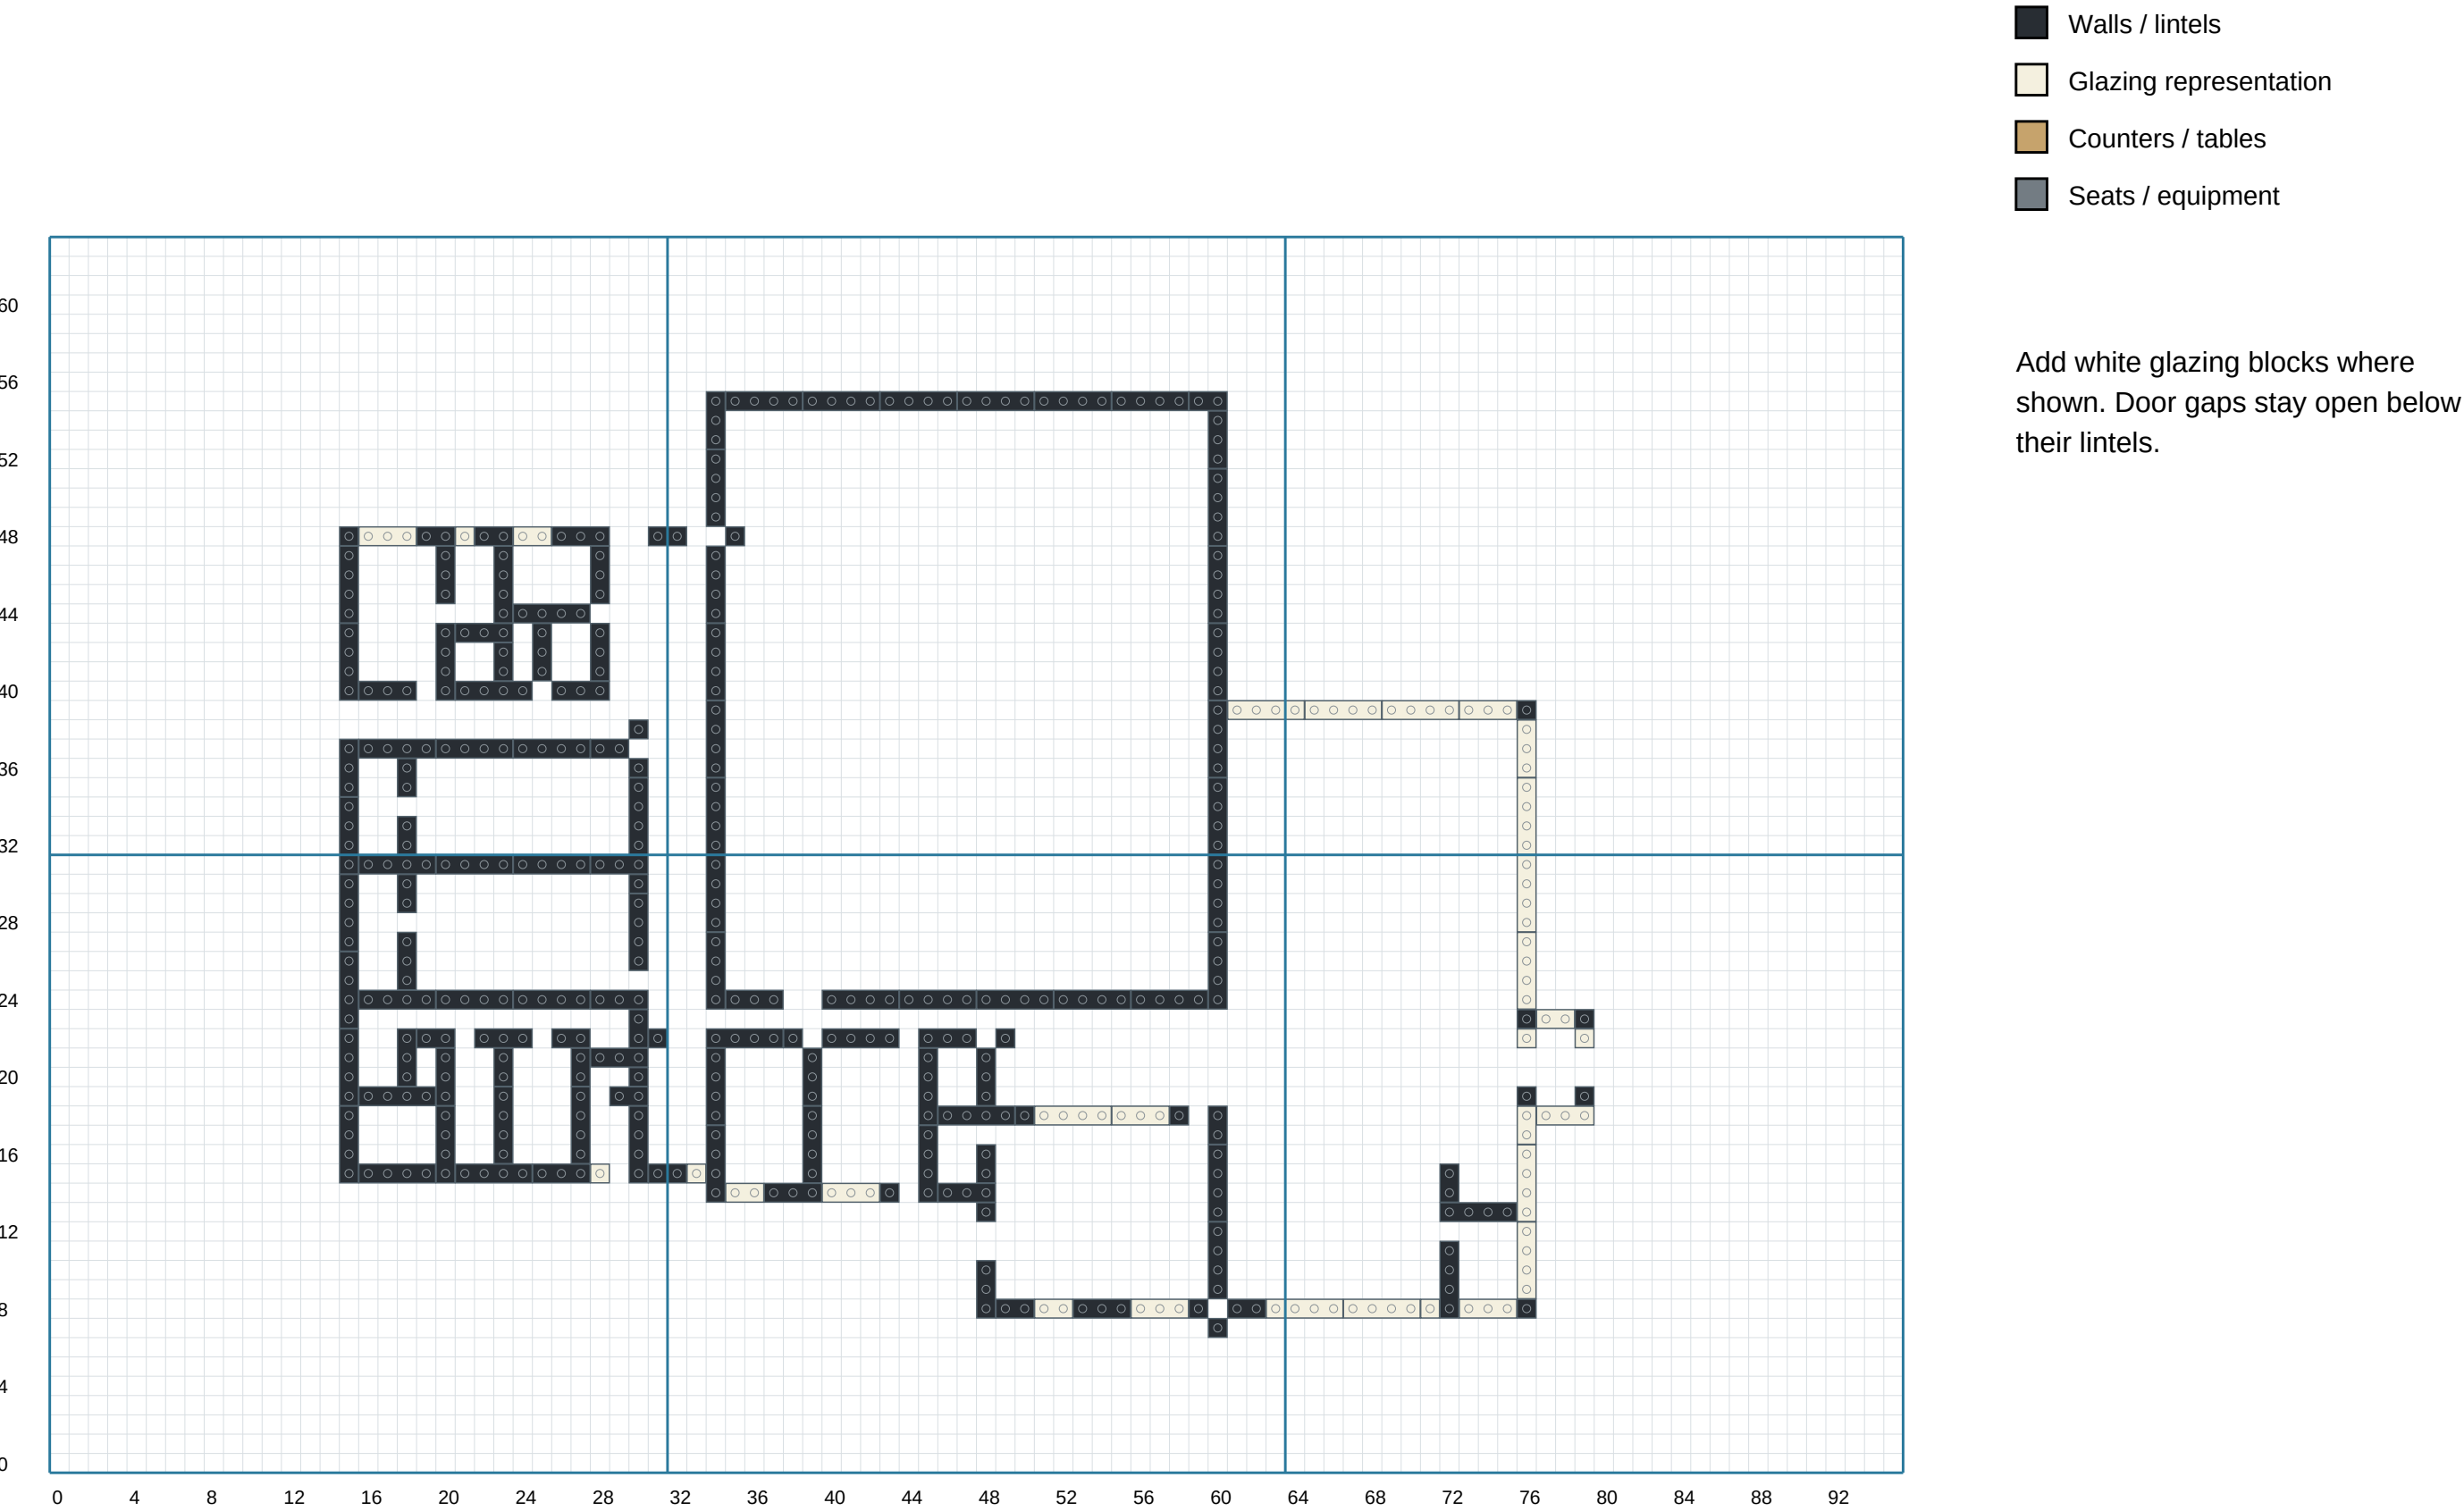

Bricks starting on this baseplate:

- 1 Brick 1 x 2 Black
- 3 Brick 1 x 4 Black
- 1 Brick 1 x 3 Black

If a placement is unclear, brick_placements.csv gives its exact X, Y, width, depth, color and course.

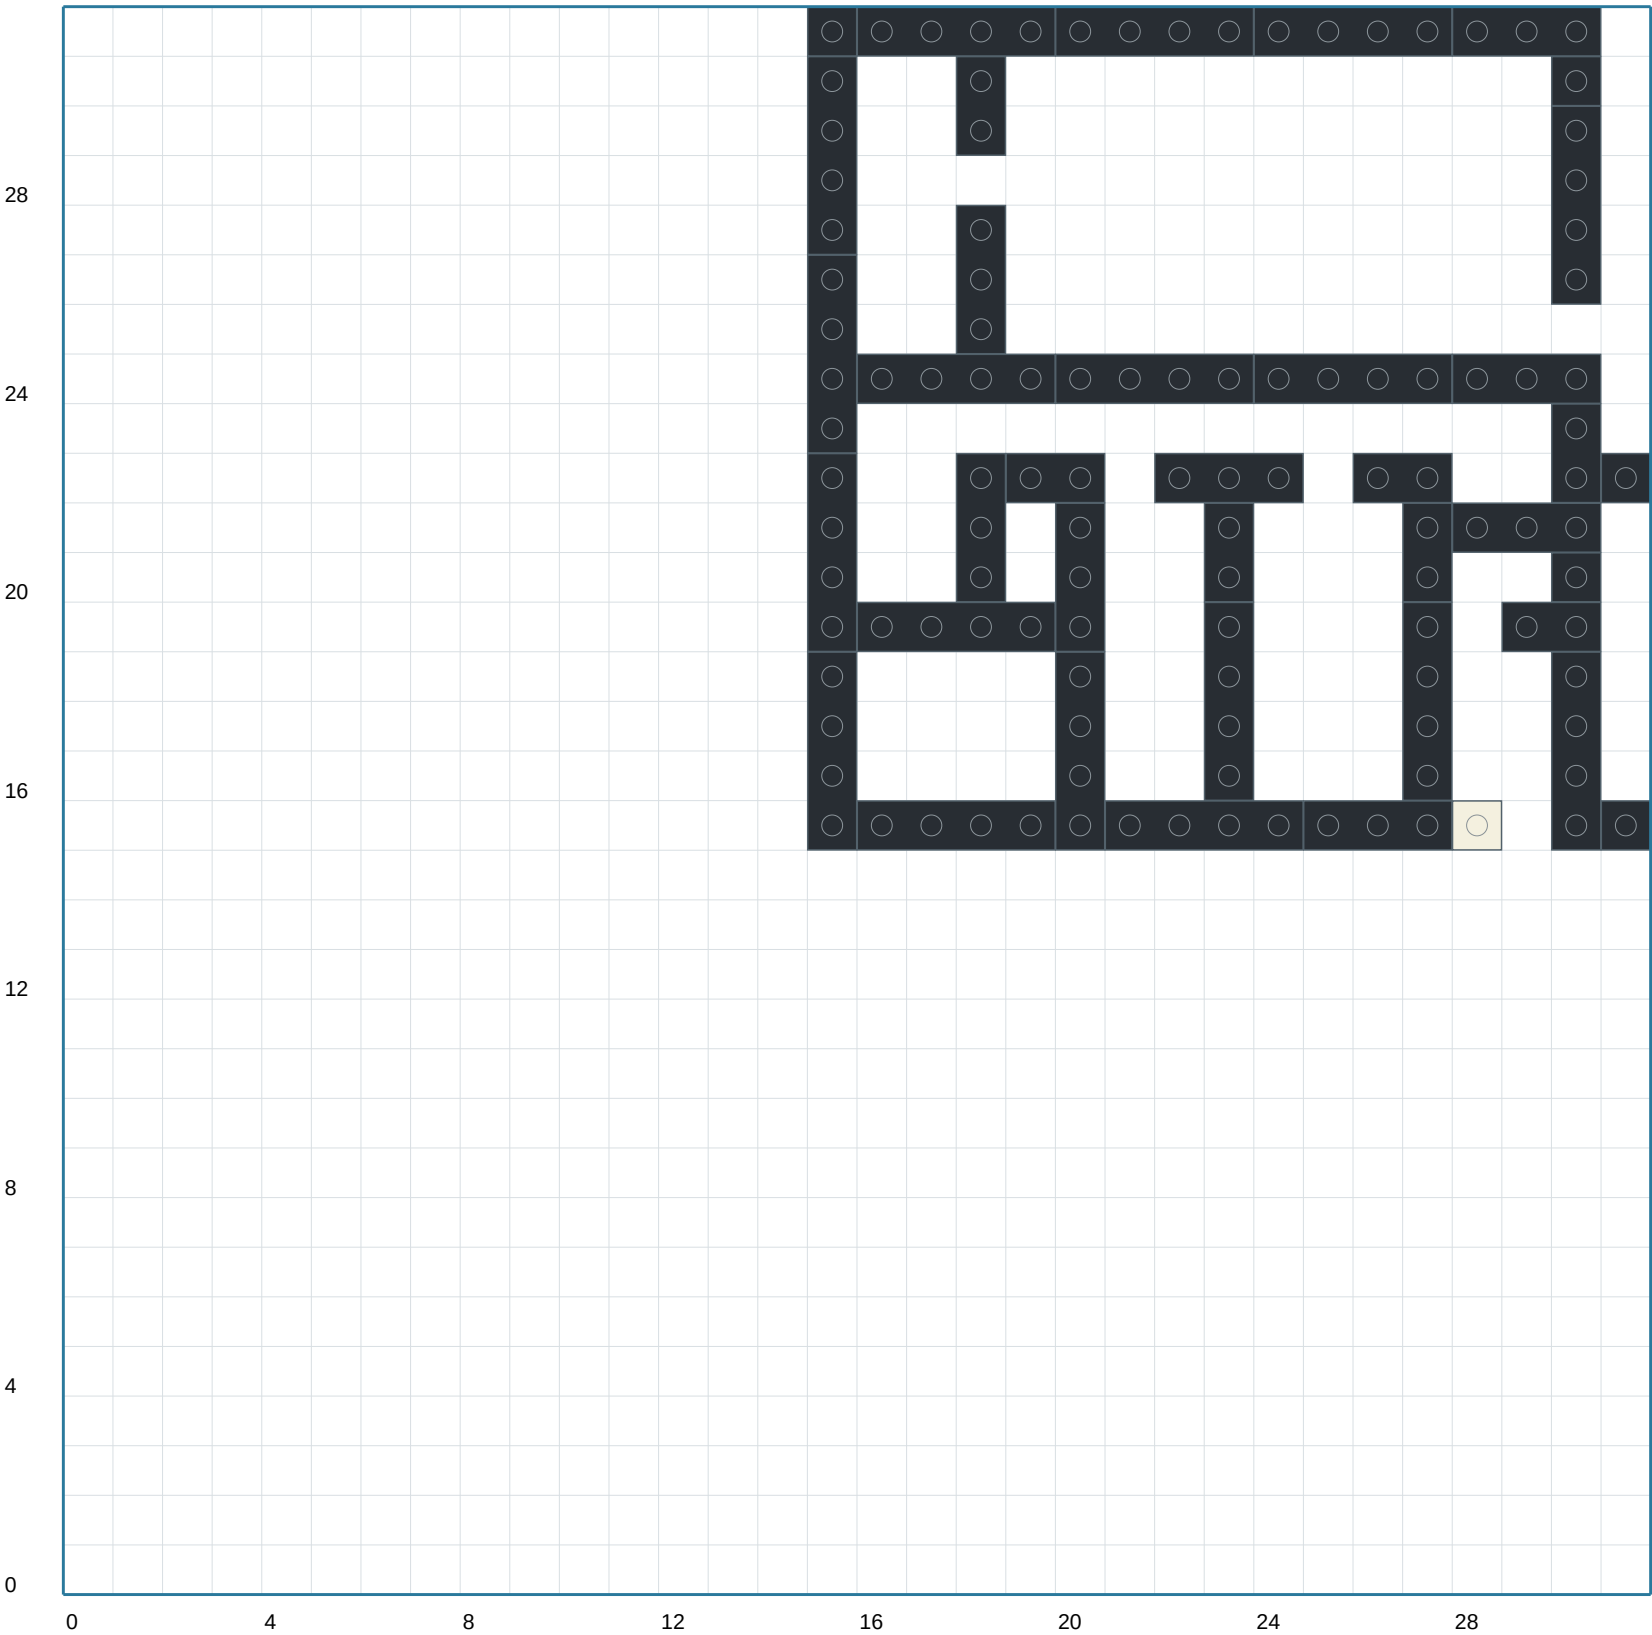

Wall course 2 - overview

165 bricks in this wall course | build across all baseplates before proceeding

Course 2 - baseplate A

X 0 to 31 | Y 0 to 31 | north is up

- Walls / lintels
- Glazing representation
- Counters / tables
- Seats / equipment

Each brick has its own outline; the small circles are studs. A brick crossing a blue baseplate edge is one complete brick, not two pieces.

The same boundary brick is shown clipped on the adjacent page. Place it only once. Keep baseplates touching on the supporting board.

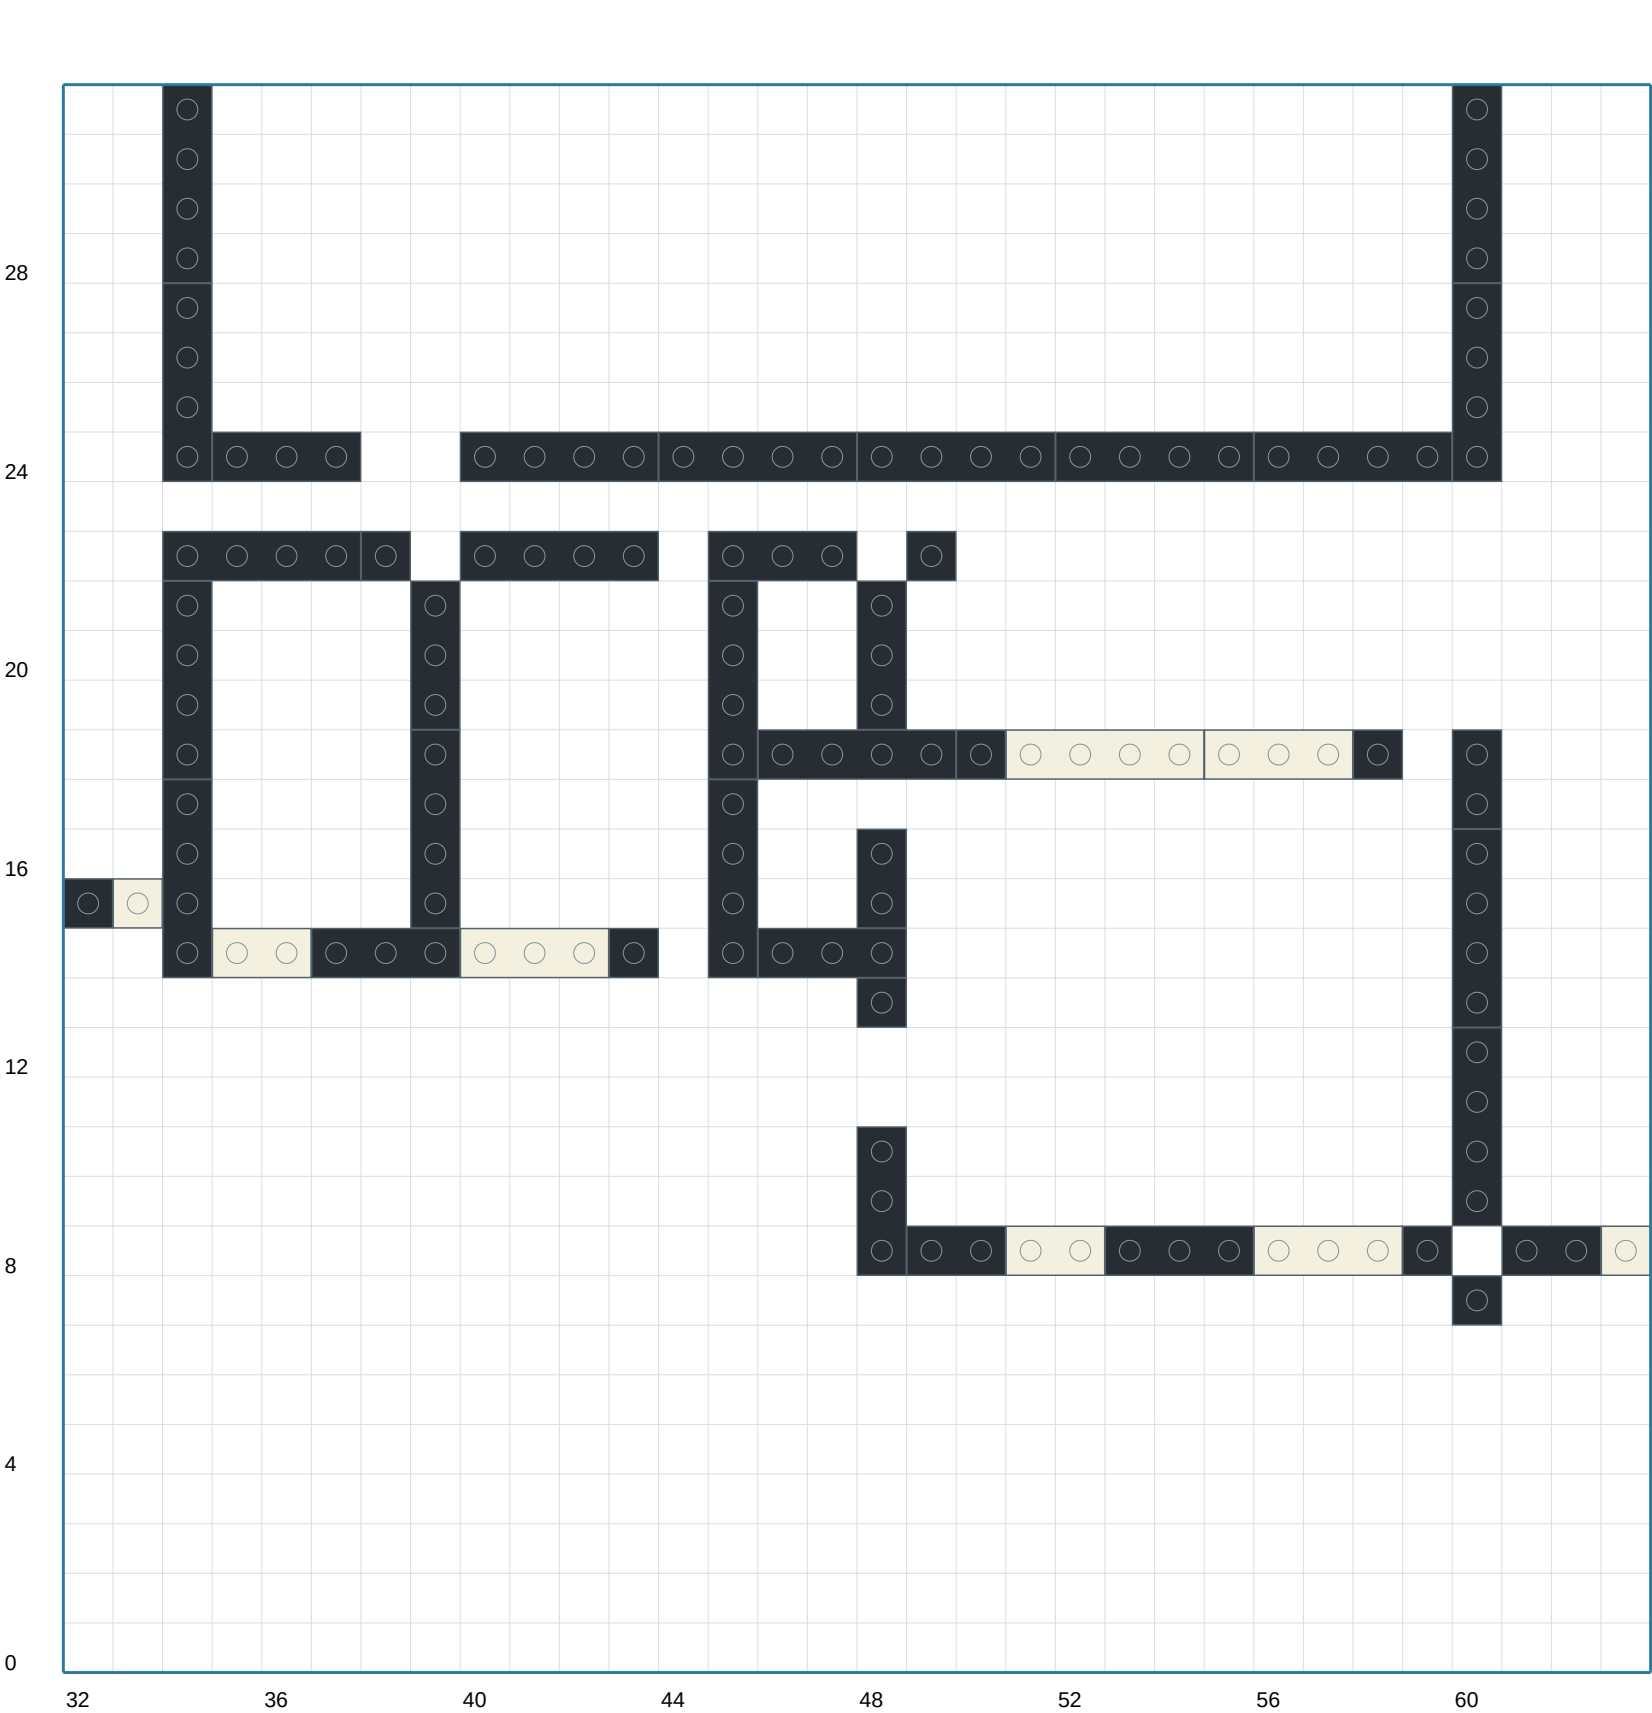

Bricks starting on this baseplate:

- 8 Brick 1 x 2 Black
- 3 Brick 1 x 1 Black
- 1 Brick 1 x 1 White
- 19 Brick 1 x 4 Black
- 8 Brick 1 x 3 Black

If a placement is unclear, brick_placements.csv gives its exact X, Y, width, depth, color and course.

Course 2 - baseplate B

X 32 to 63 | Y 0 to 31 | north is up

- Walls / lintels
- Glazing representation
- Counters / tables
- Seats / equipment

Each brick has its own outline; the small circles are studs. A brick crossing a blue baseplate edge is one complete brick, not two pieces.

The same boundary brick is shown clipped on the adjacent page. Place it only once. Keep baseplates touching on the supporting board.

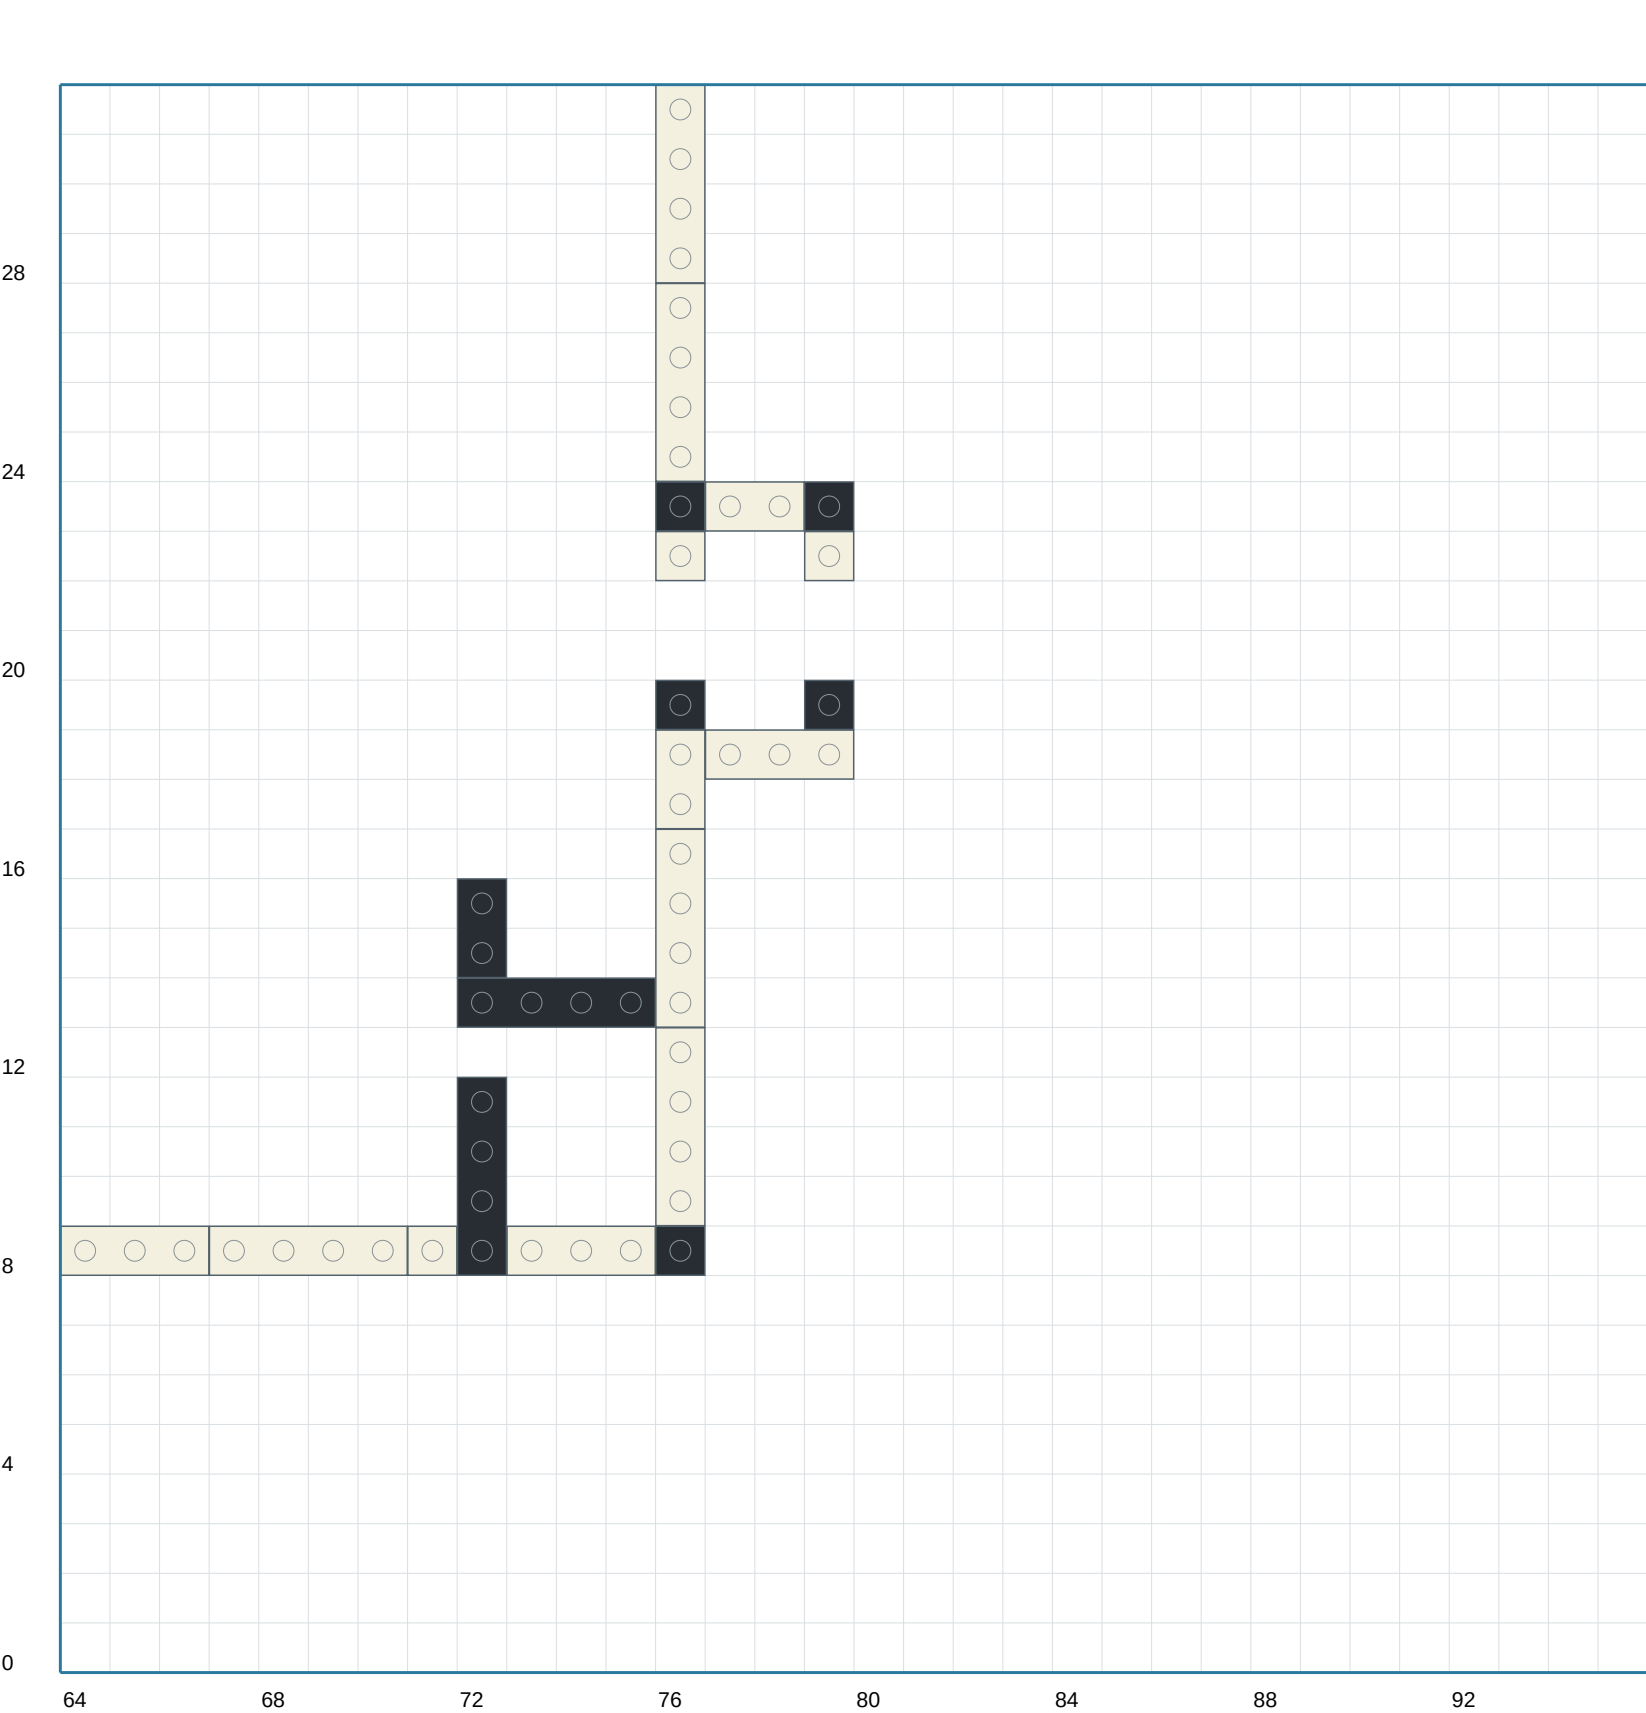

Bricks starting on this baseplate:

- 4 Brick 1 x 2 Black
- 2 Brick 1 x 2 White
- 8 Brick 1 x 1 Black
- 1 Brick 1 x 1 White
- 19 Brick 1 x 4 Black
- 2 Brick 1 x 4 White
- 8 Brick 1 x 3 Black
- 3 Brick 1 x 3 White

If a placement is unclear, brick_placements.csv gives its exact X, Y, width, depth, color and course.

Course 2 - baseplate C

X 64 to 95 | Y 0 to 31 | north is up

- Walls / lintels
- Glazing representation
- Counters / tables
- Seats / equipment

Each brick has its own outline; the small circles are studs. A brick crossing a blue baseplate edge is one complete brick, not two pieces.

The same boundary brick is shown clipped on the adjacent page. Place it only once. Keep baseplates touching on the supporting board.

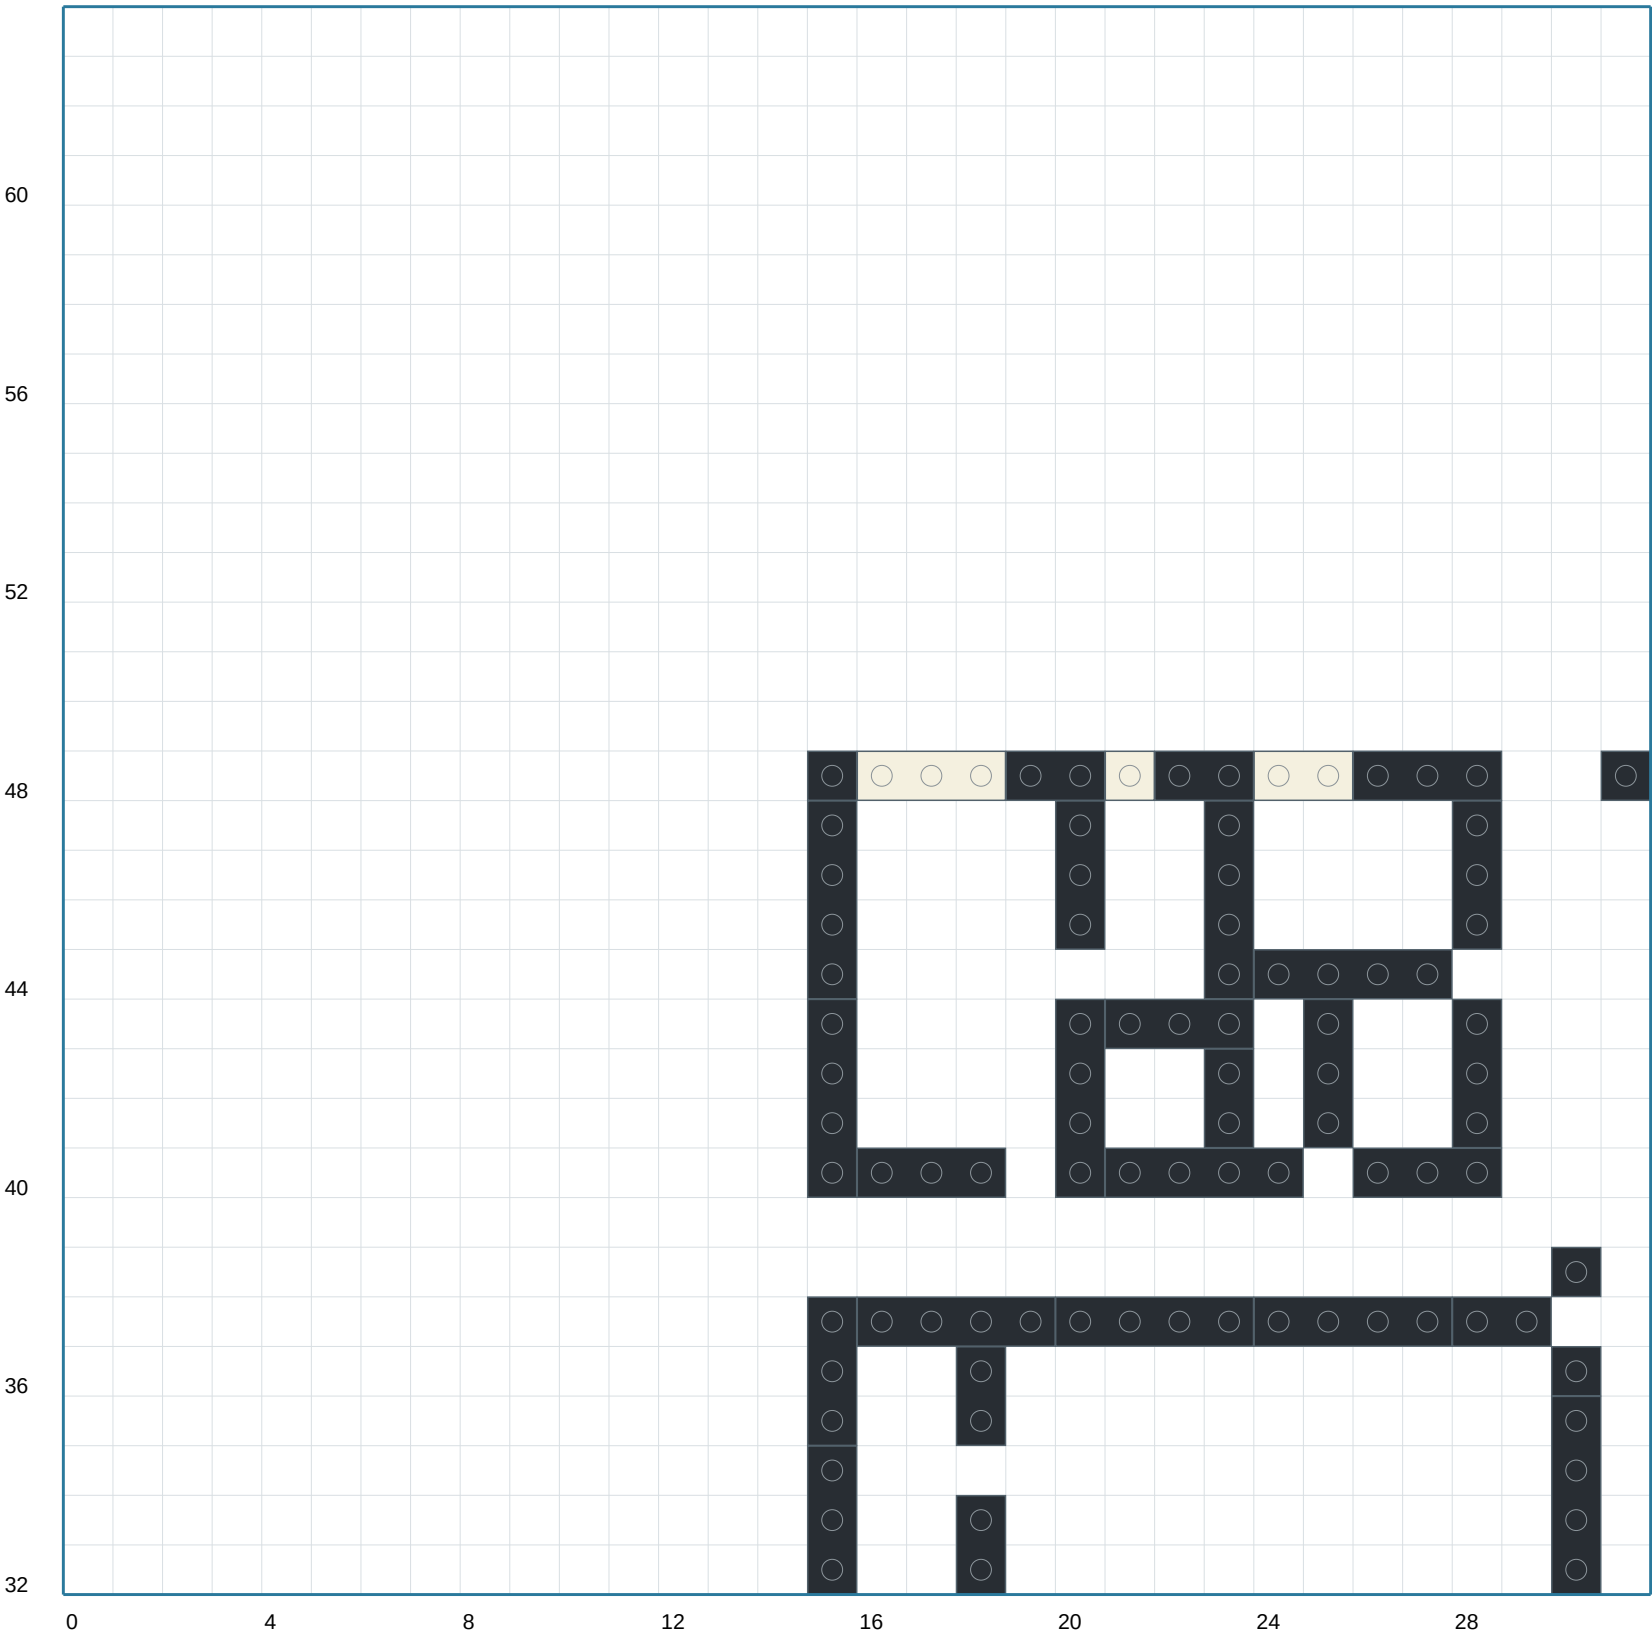

Bricks starting on this baseplate:

- 1 Brick 1 x 2 Black
- 2 Brick 1 x 2 White
- 5 Brick 1 x 1 Black
- 3 Brick 1 x 1 White
- 2 Brick 1 x 4 Black
- 5 Brick 1 x 4 White
- 2 Brick 1 x 3 White

If a placement is unclear, brick_placements.csv gives its exact X, Y, width, depth, color and course.

Course 2 - baseplate D

X 0 to 31 | Y 32 to 63 | north is up

- Walls / lintels
- Glazing representation
- Counters / tables
- Seats / equipment

Each brick has its own outline; the small circles are studs. A brick crossing a blue baseplate edge is one complete brick, not two pieces.

The same boundary brick is shown clipped on the adjacent page. Place it only once. Keep baseplates touching on the supporting board.

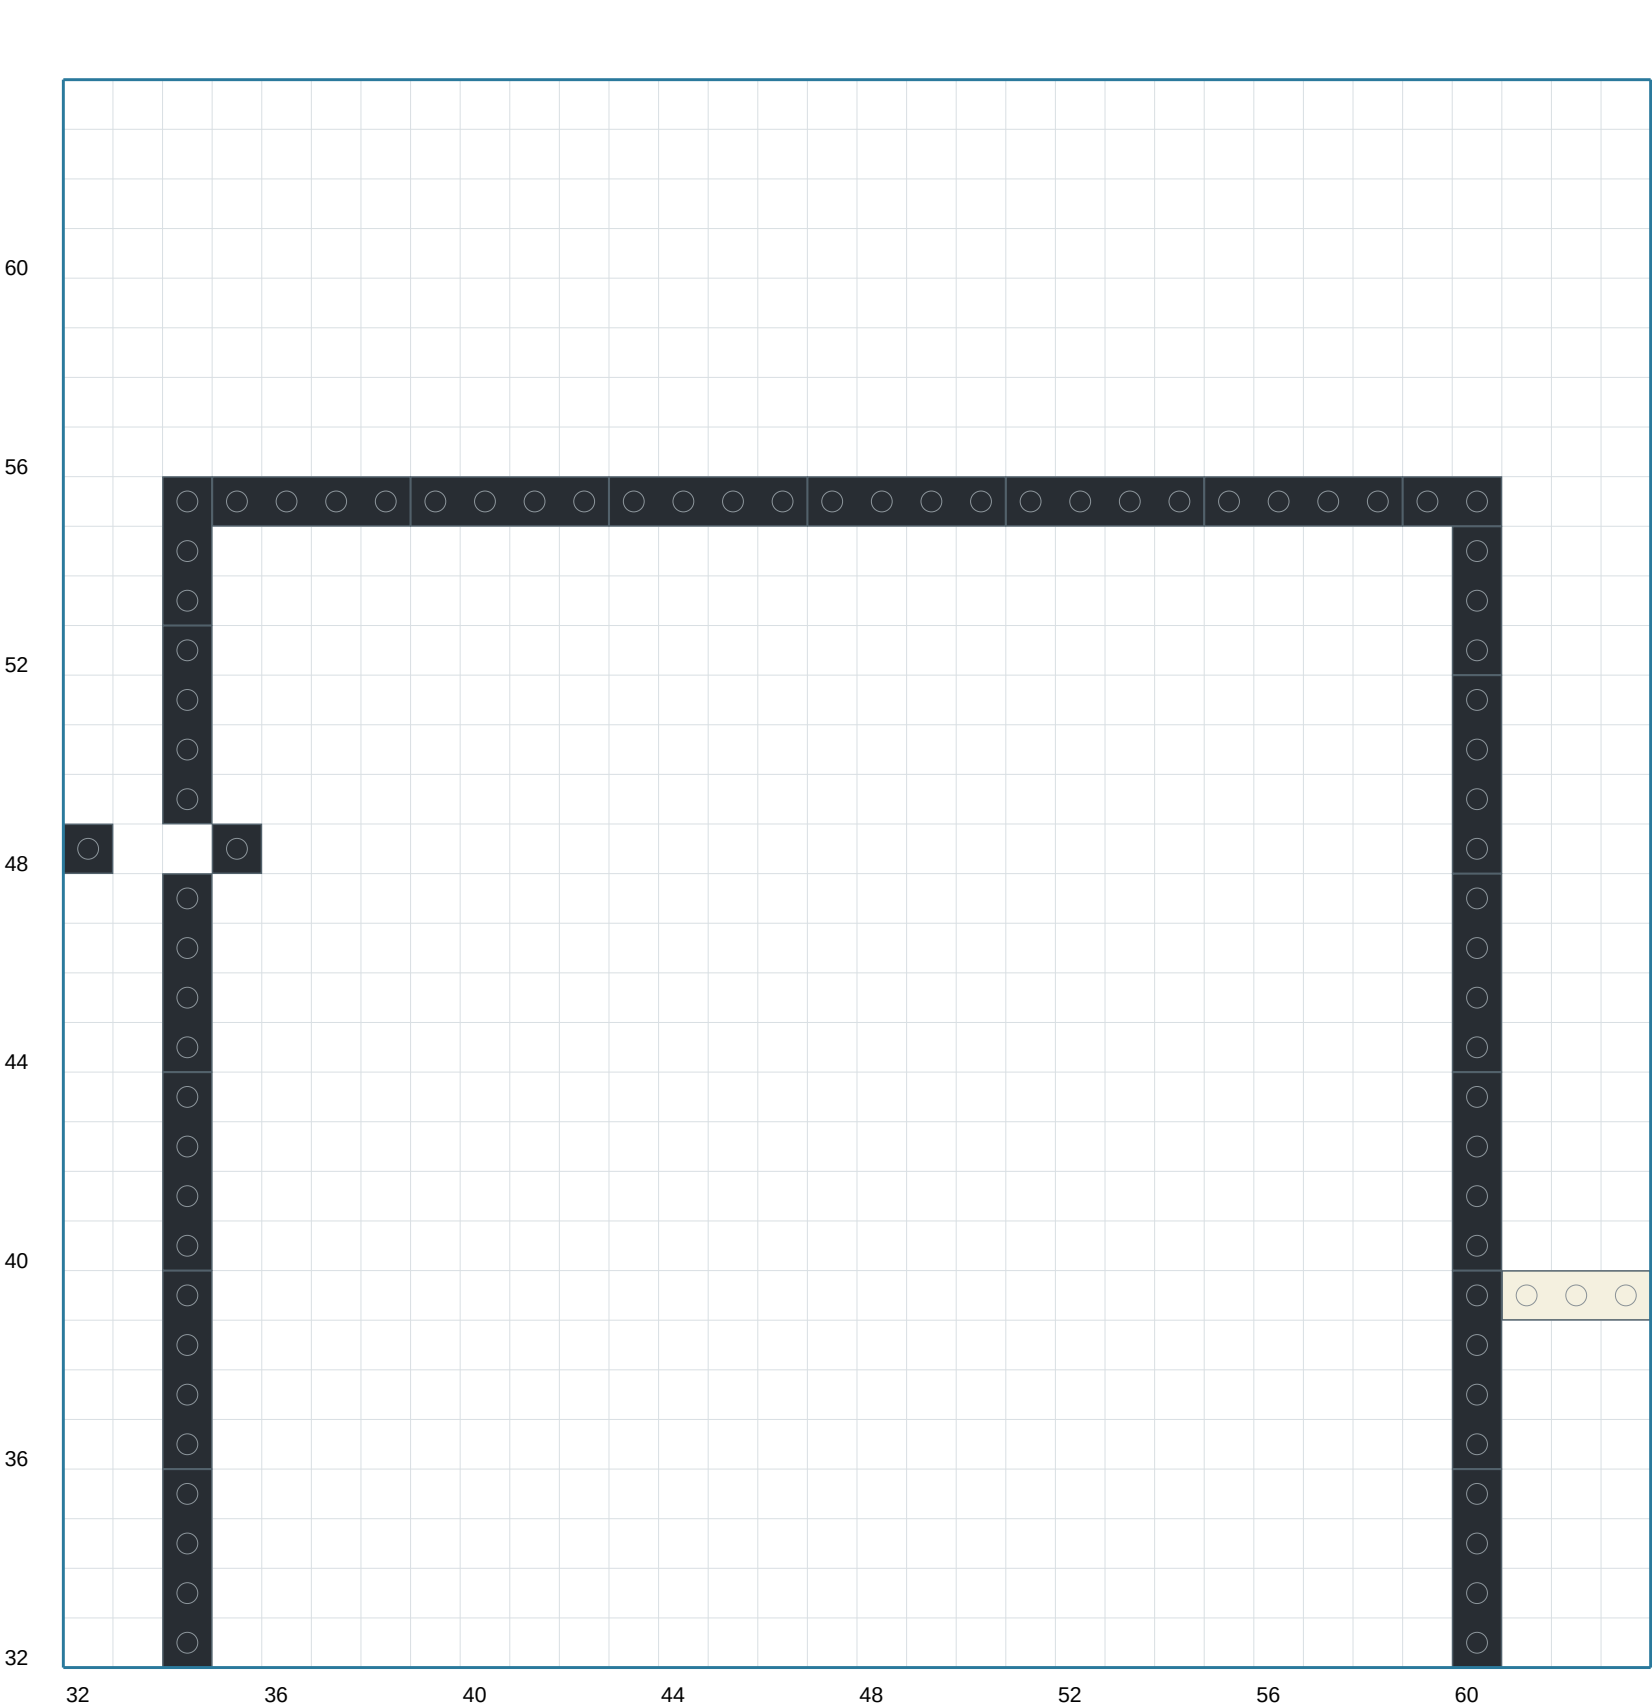

Bricks starting on this baseplate:

- 7 Brick 1 x 2 Black
- 1 Brick 1 x 2 White
- 3 Brick 1 x 1 Black
- 1 Brick 1 x 1 White
- 10 Brick 1 x 4 Black
- 9 Brick 1 x 3 Black
- 1 Brick 1 x 3 White

If a placement is unclear, brick_placements.csv gives its exact X, Y, width, depth, color and course.

Course 2 - baseplate E

X 32 to 63 | Y 32 to 63 | north is up

- Walls / lintels
- Glazing representation
- Counters / tables
- Seats / equipment

Each brick has its own outline; the small circles are studs. A brick crossing a blue baseplate edge is one complete brick, not two pieces.

The same boundary brick is shown clipped on the adjacent page. Place it only once. Keep baseplates touching on the supporting board.

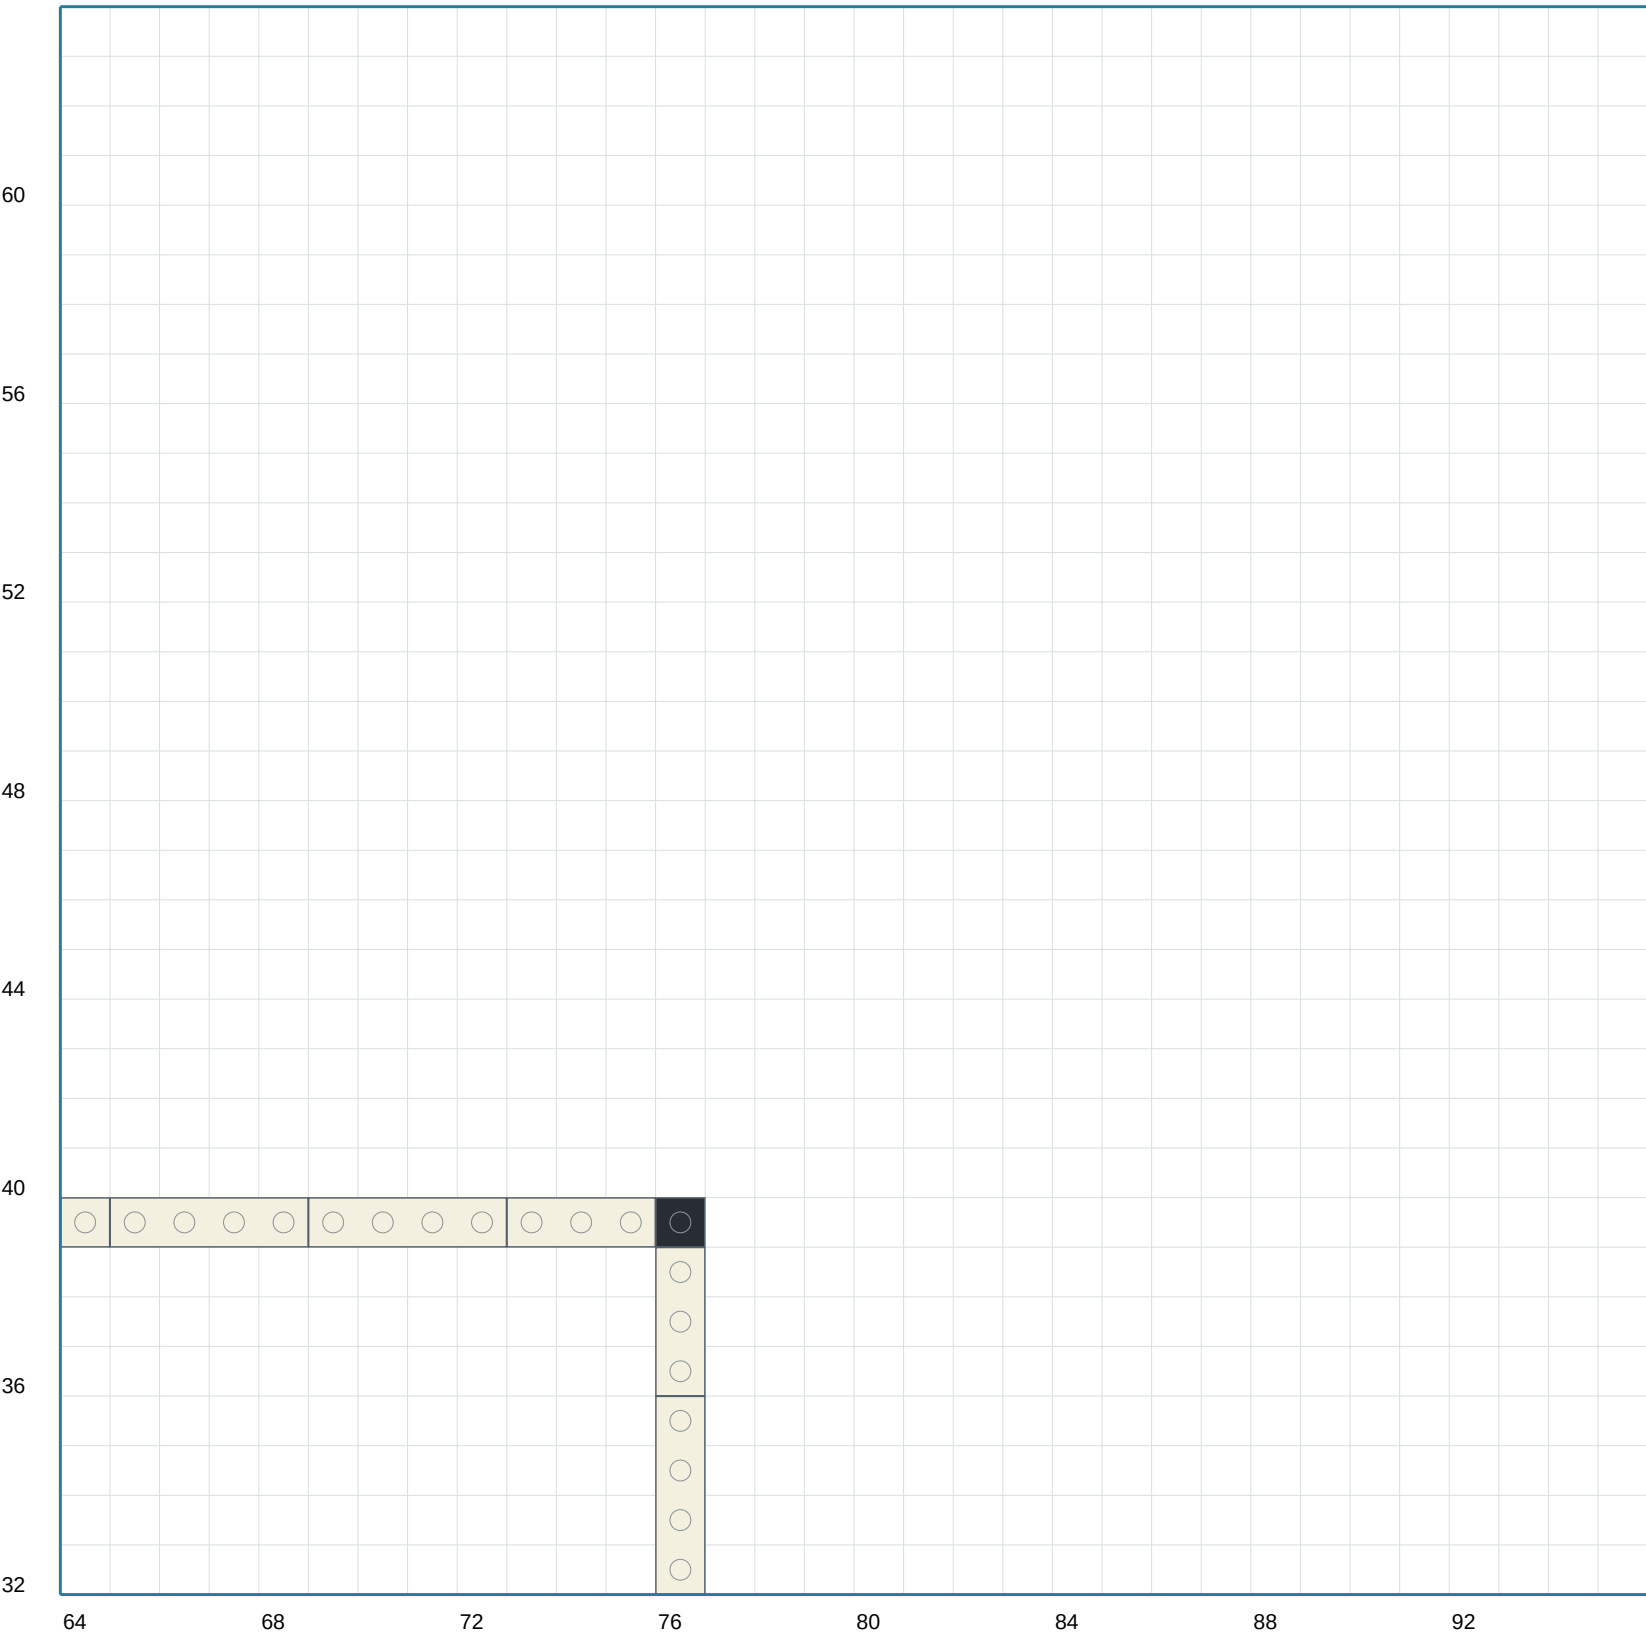

Bricks starting on this baseplate:

- 1 Brick 1 x 2 Black
- 1 Brick 1 x 1 Black
- 16 Brick 1 x 4 Black
- 1 Brick 1 x 4 White
- 2 Brick 1 x 3 Black

If a placement is unclear, brick_placements.csv gives its exact X, Y, width, depth, color and course.

Course 2 - baseplate F

X 64 to 95 | Y 32 to 63 | north is up

- Walls / lintels
- Glazing representation
- Counters / tables
- Seats / equipment

Each brick has its own outline; the small circles are studs. A brick crossing a blue baseplate edge is one complete brick, not two pieces.

The same boundary brick is shown clipped on the adjacent page. Place it only once. Keep baseplates touching on the supporting board.

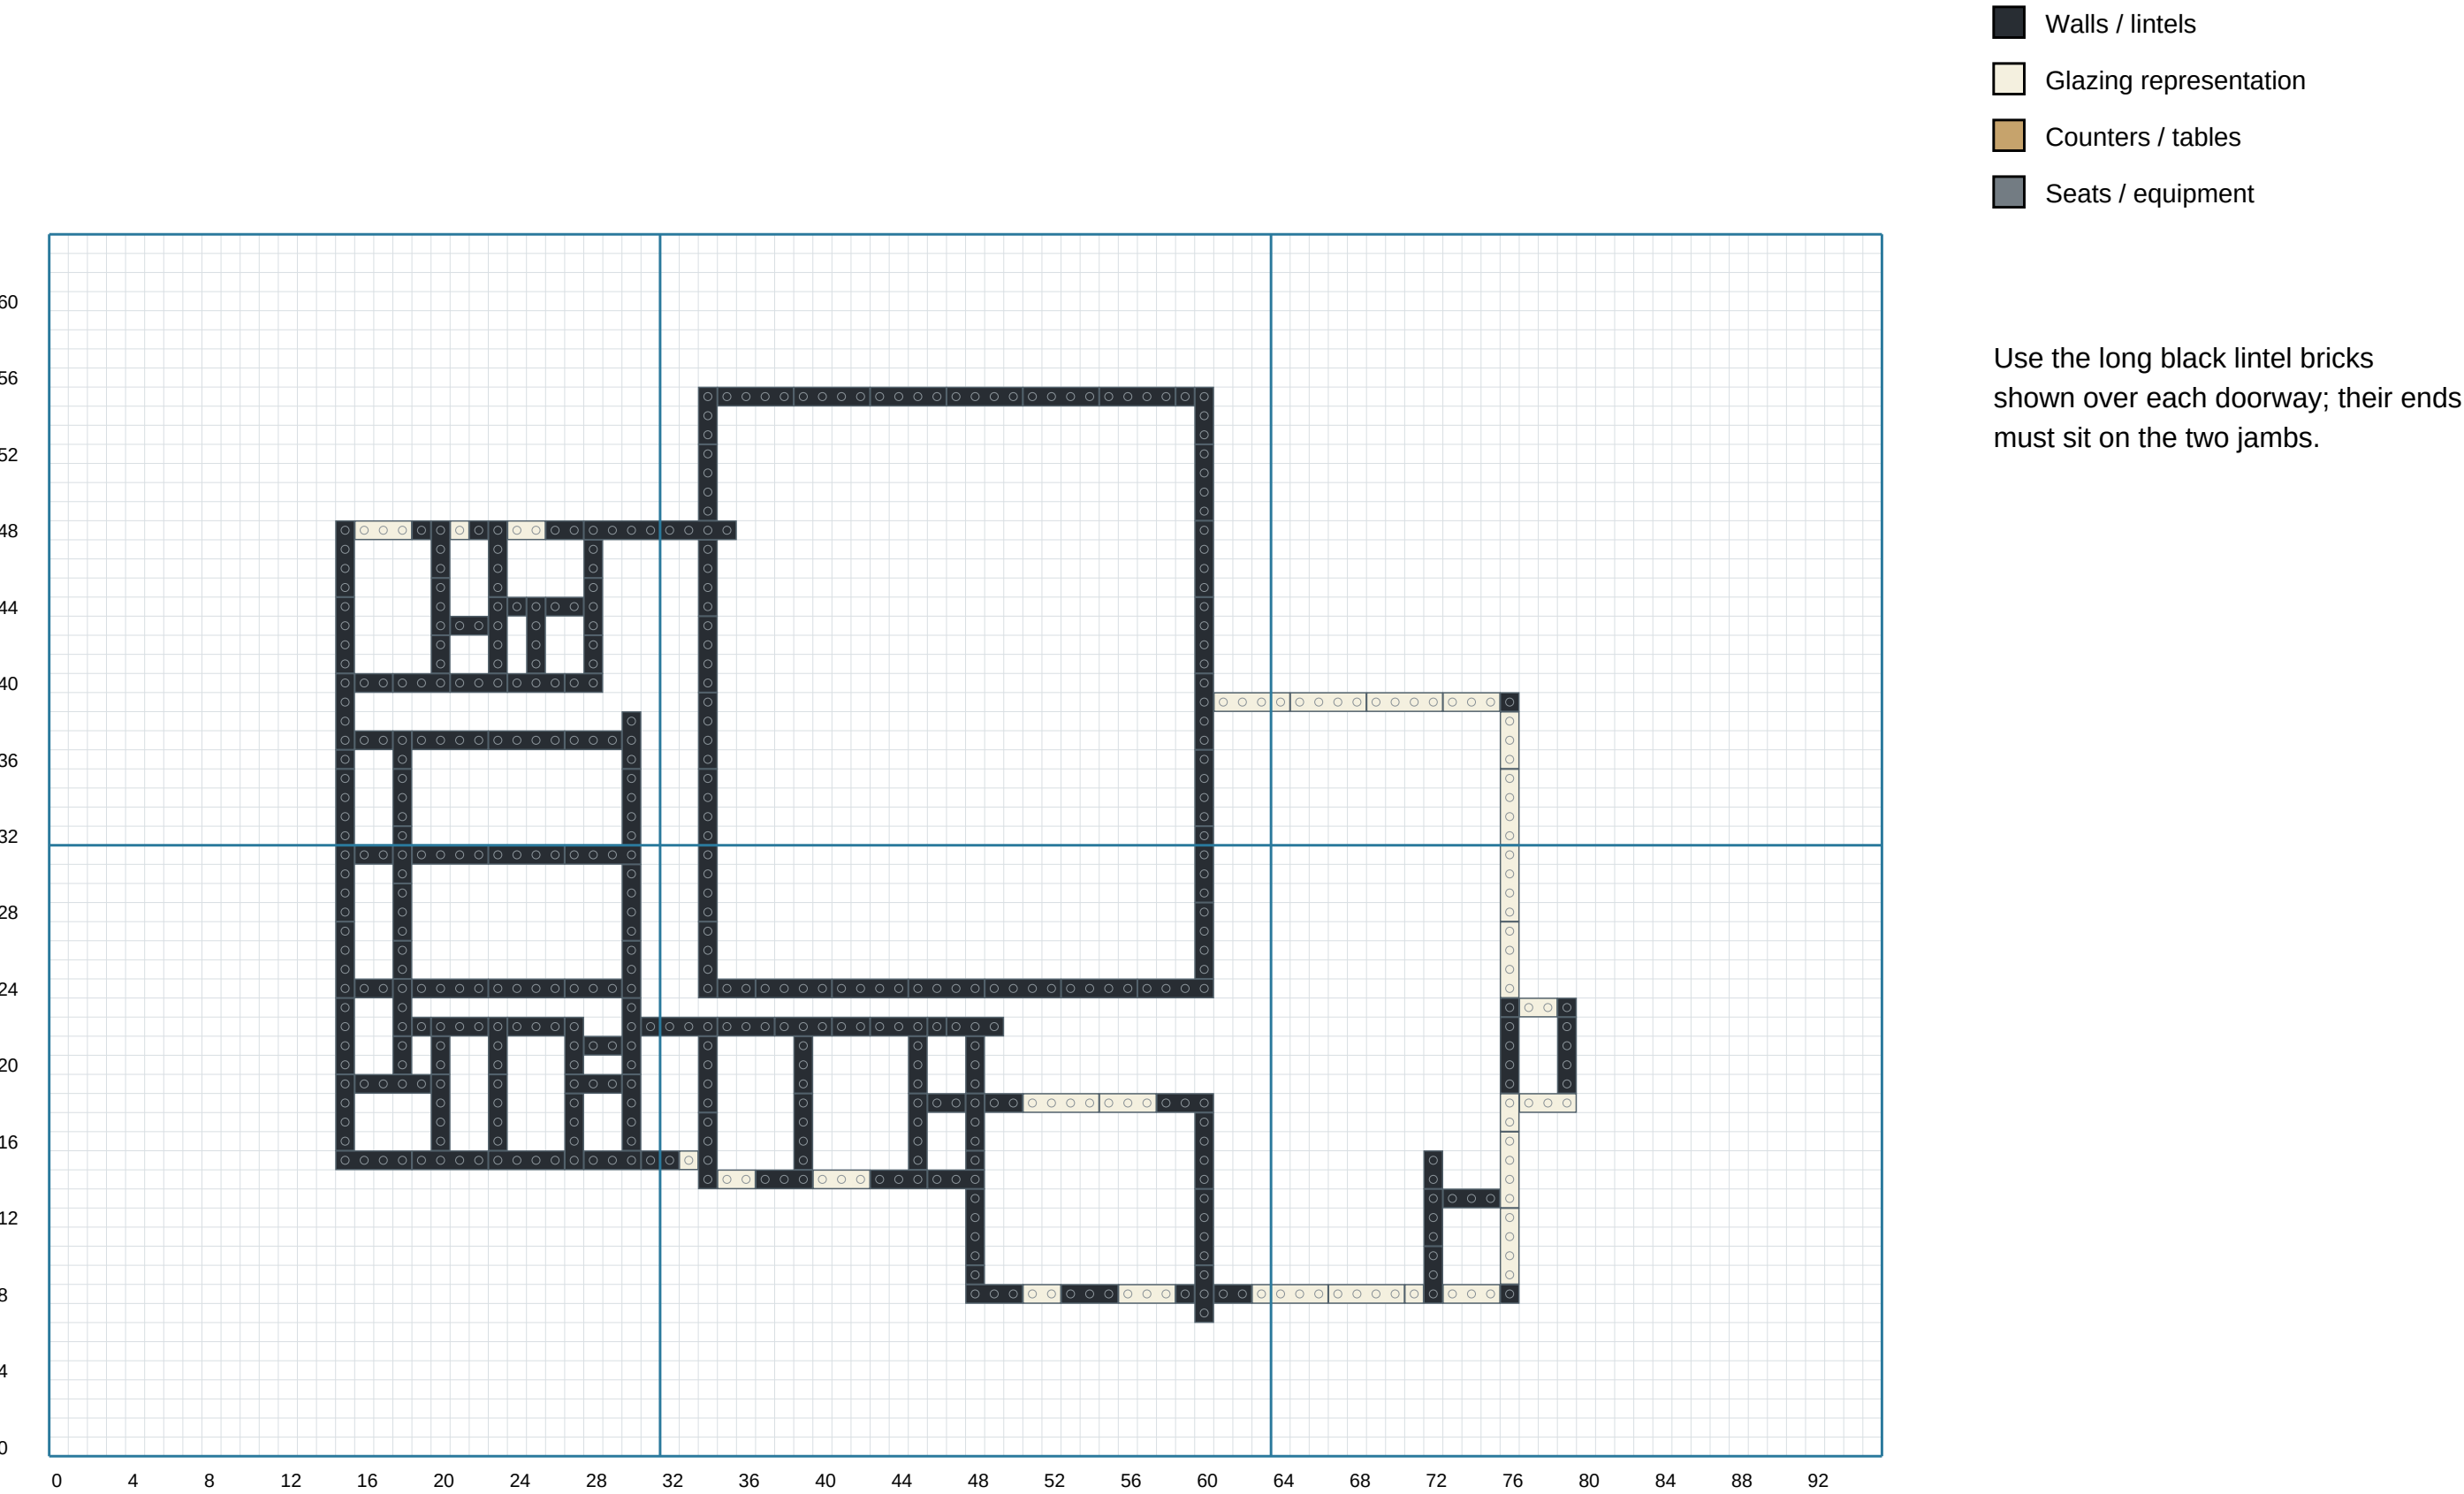

Bricks starting on this baseplate:

- 1 Brick 1 x 1 Black
- 3 Brick 1 x 4 White
- 2 Brick 1 x 3 White

If a placement is unclear, brick_placements.csv gives its exact X, Y, width, depth, color and course.

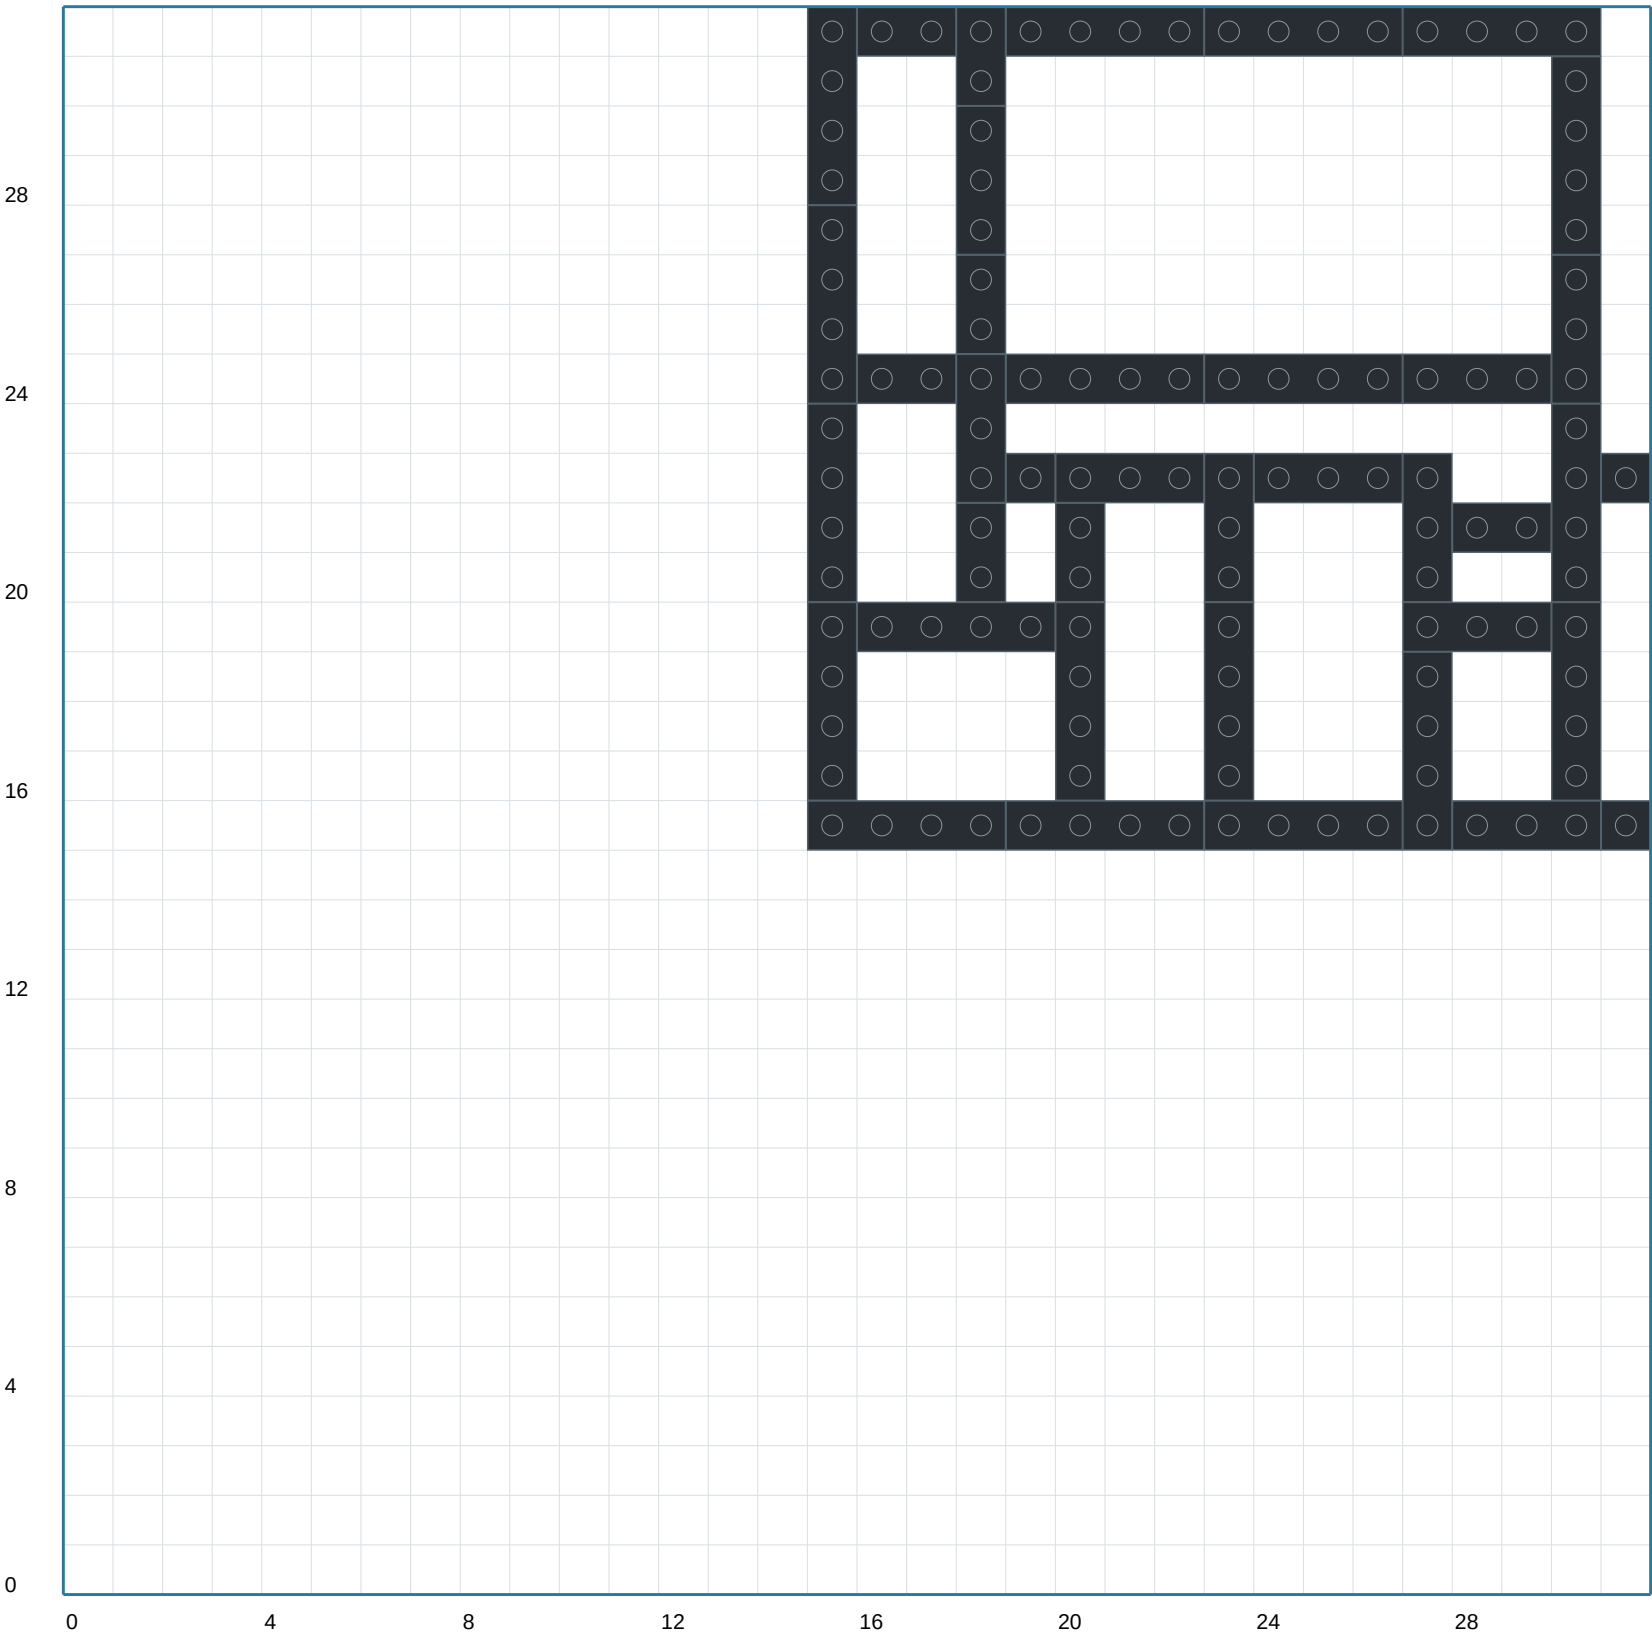

Wall course 3 - overview

171 bricks in this wall course | build across all baseplates before proceeding

Course 3 - baseplate A

X 0 to 31 | Y 0 to 31 | north is up

- Walls / lintels
- Glazing representation
- Counters / tables
- Seats / equipment

Each brick has its own outline; the small circles are studs. A brick crossing a blue baseplate edge is one complete brick, not two pieces.

The same boundary brick is shown clipped on the adjacent page. Place it only once. Keep baseplates touching on the supporting board.

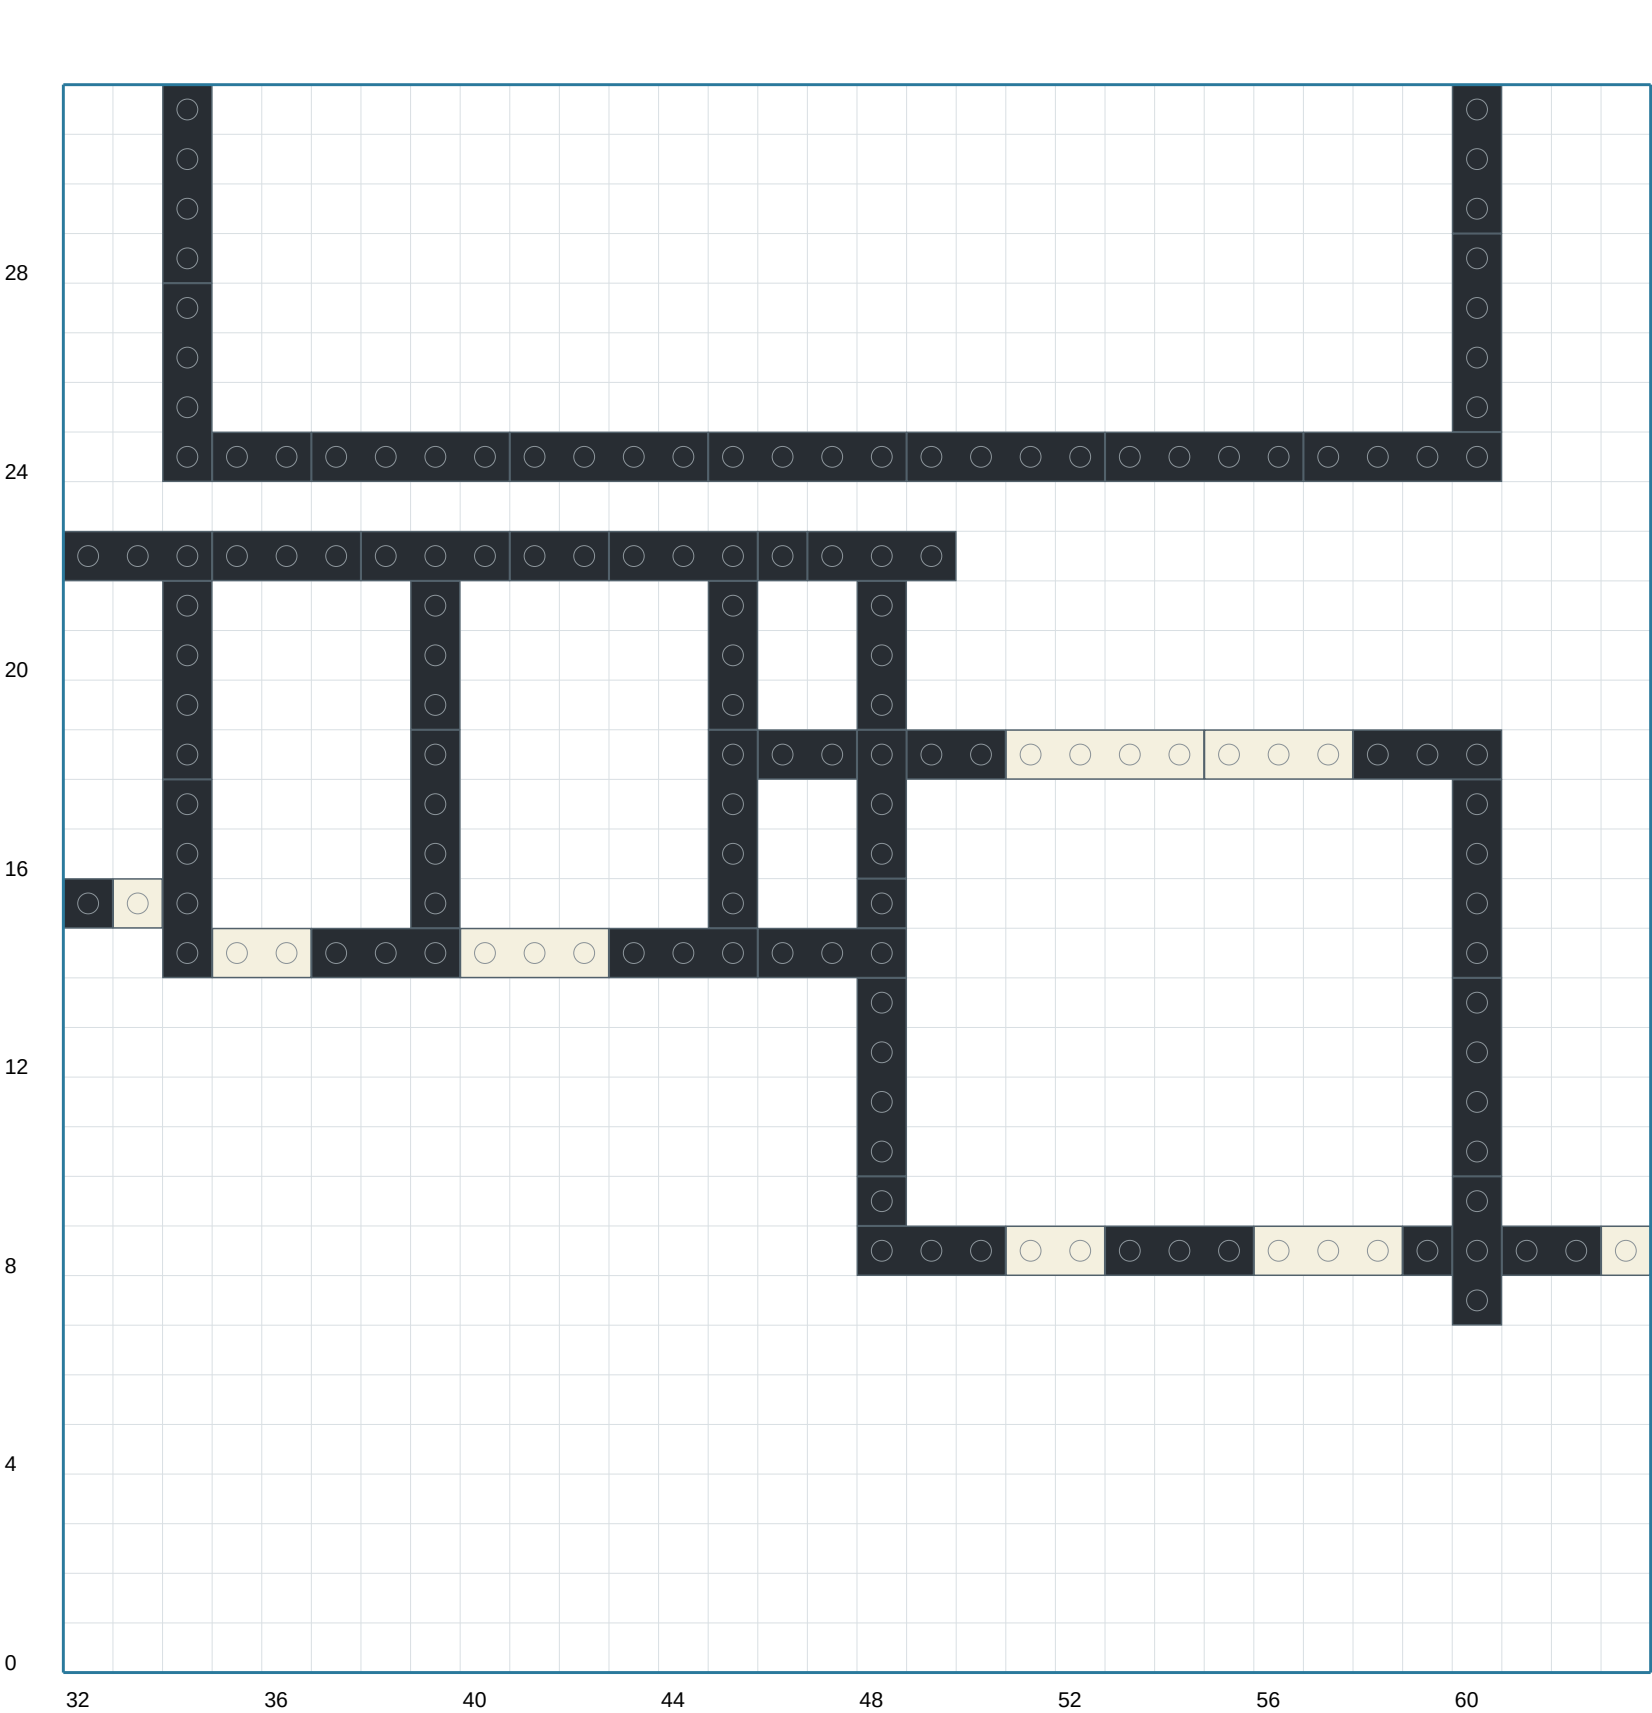

Bricks starting on this baseplate:

- 7 Brick 1 x 2 Black
- 1 Brick 1 x 1 Black
- 20 Brick 1 x 4 Black
- 11 Brick 1 x 3 Black

If a placement is unclear, brick_placements.csv gives its exact X, Y, width, depth, color and course.

Course 3 - baseplate B

X 32 to 63 | Y 0 to 31 | north is up

- Walls / lintels
- Glazing representation
- Counters / tables
- Seats / equipment

Each brick has its own outline; the small circles are studs. A brick crossing a blue baseplate edge is one complete brick, not two pieces.

The same boundary brick is shown clipped on the adjacent page. Place it only once. Keep baseplates touching on the supporting board.

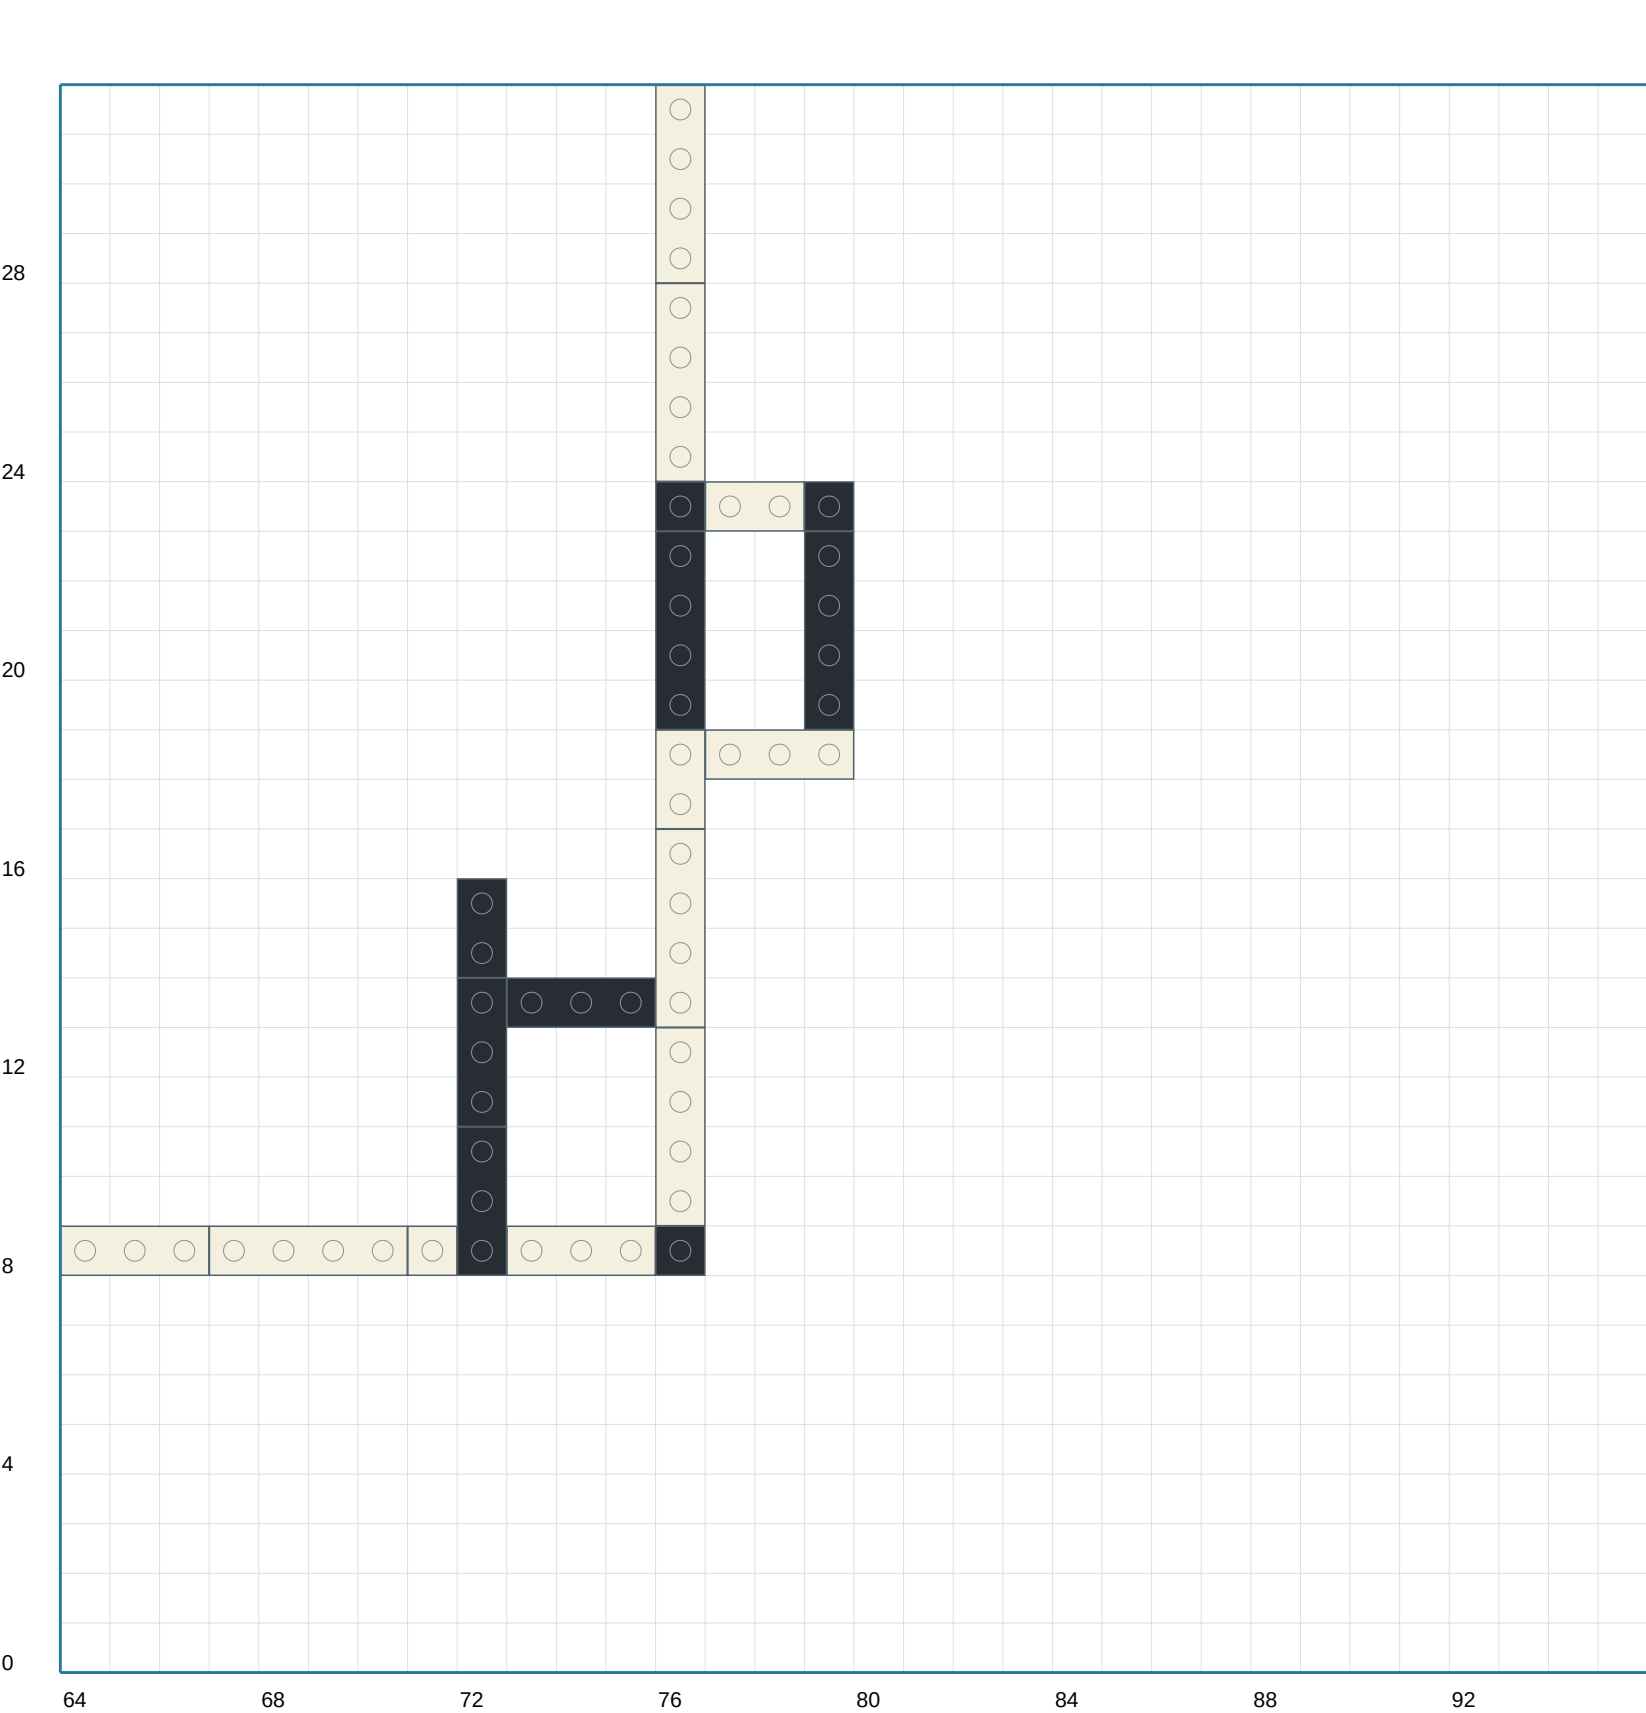

Bricks starting on this baseplate:

- 5 Brick 1 x 2 Black
- 2 Brick 1 x 2 White
- 4 Brick 1 x 1 Black
- 1 Brick 1 x 1 White
- 17 Brick 1 x 4 Black
- 2 Brick 1 x 4 White
- 15 Brick 1 x 3 Black
- 3 Brick 1 x 3 White

If a placement is unclear, brick_placements.csv gives its exact X, Y, width, depth, color and course.

Course 3 - baseplate C

X 64 to 95 | Y 0 to 31 | north is up

- Walls / lintels
- Glazing representation
- Counters / tables
- Seats / equipment

Each brick has its own outline; the small circles are studs. A brick crossing a blue baseplate edge is one complete brick, not two pieces.

The same boundary brick is shown clipped on the adjacent page. Place it only once. Keep baseplates touching on the supporting board.

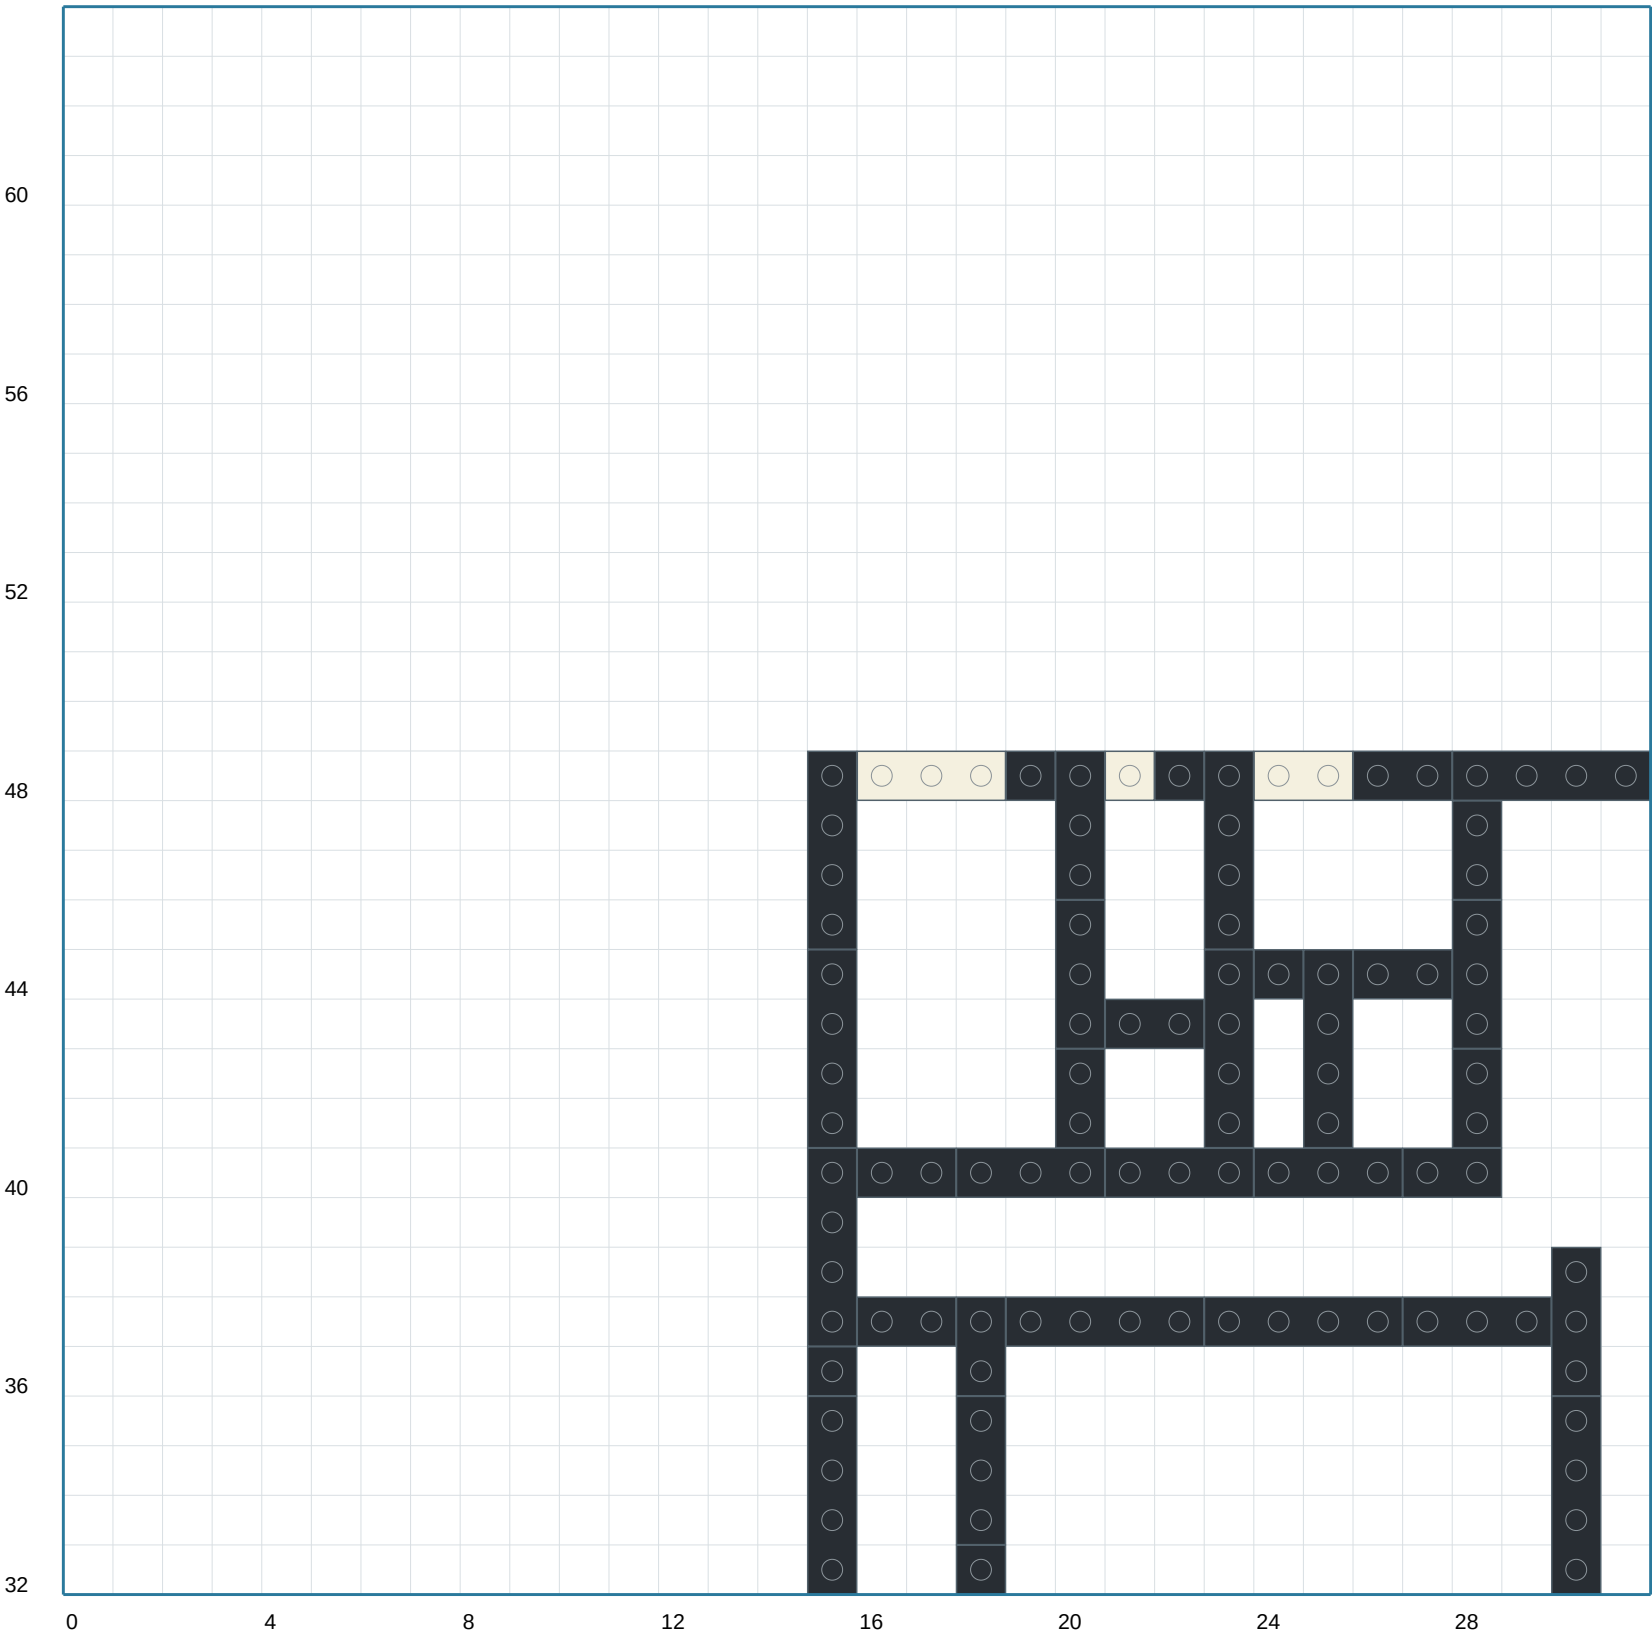

Bricks starting on this baseplate:

- 1 Brick 1 x 2 Black
- 2 Brick 1 x 2 White
- 3 Brick 1 x 1 Black
- 1 Brick 1 x 1 White
- 2 Brick 1 x 4 Black
- 5 Brick 1 x 4 White
- 3 Brick 1 x 3 Black
- 2 Brick 1 x 3 White

If a placement is unclear, brick_placements.csv gives its exact X, Y, width, depth, color and course.

Course 3 - baseplate D

X 0 to 31 | Y 32 to 63 | north is up

- Walls / lintels
- Glazing representation
- Counters / tables
- Seats / equipment

Each brick has its own outline; the small circles are studs. A brick crossing a blue baseplate edge is one complete brick, not two pieces.

The same boundary brick is shown clipped on the adjacent page. Place it only once. Keep baseplates touching on the supporting board.

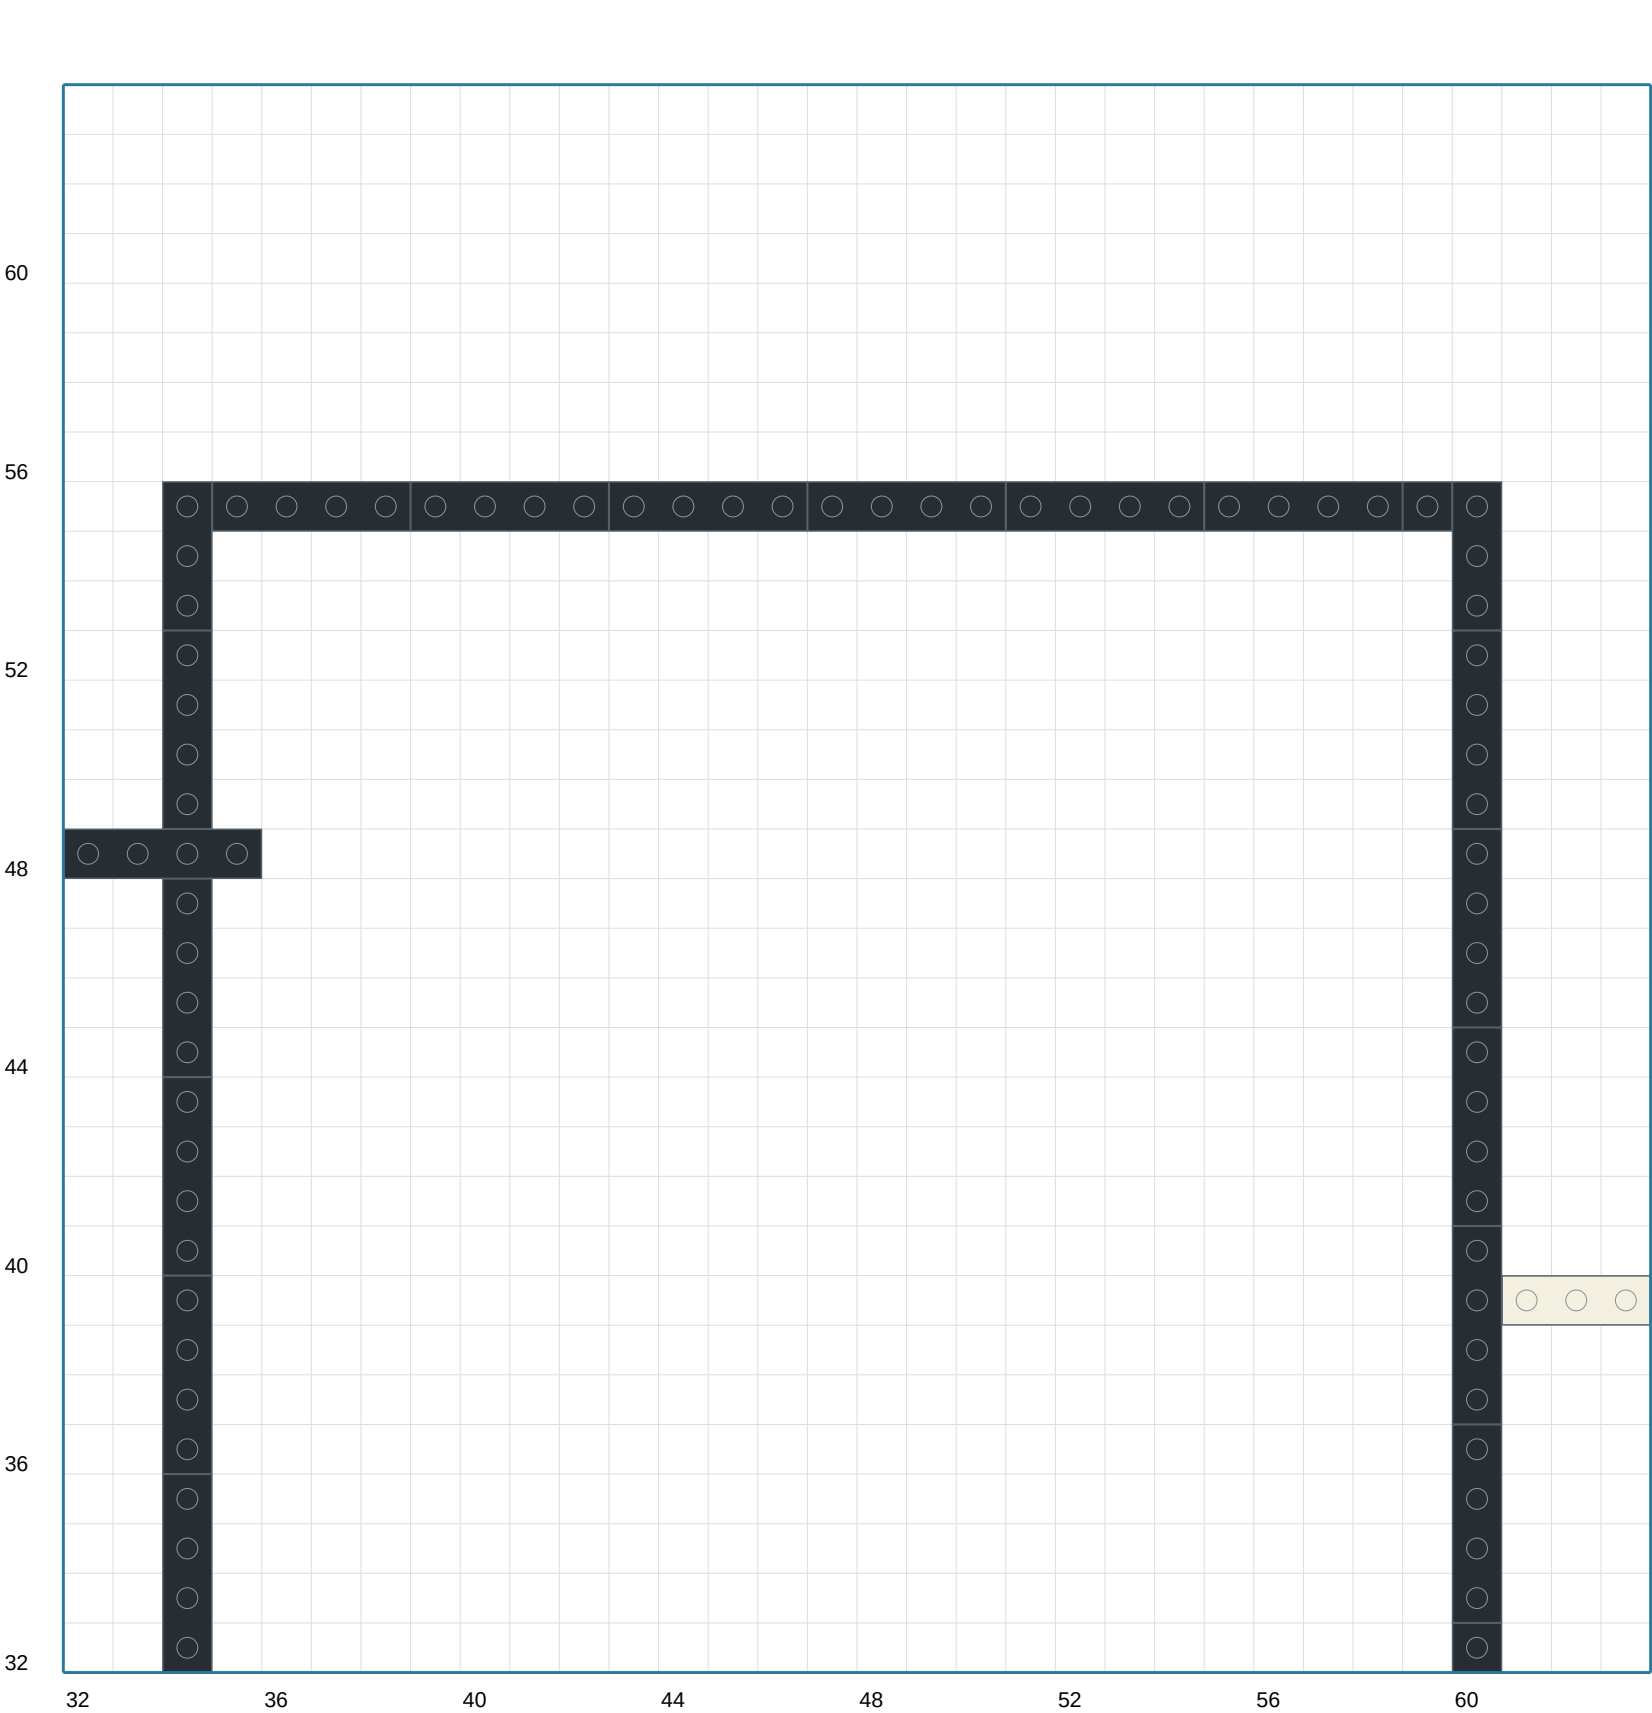

Bricks starting on this baseplate:

- 10 Brick 1 x 2 Black
- 1 Brick 1 x 2 White
- 4 Brick 1 x 1 Black
- 1 Brick 1 x 1 White
- 11 Brick 1 x 4 Black
- 9 Brick 1 x 3 Black
- 1 Brick 1 x 3 White

If a placement is unclear, brick_placements.csv gives its exact X, Y, width, depth, color and course.

Course 3 - baseplate E

X 32 to 63 | Y 32 to 63 | north is up

- Walls / lintels
- Glazing representation
- Counters / tables
- Seats / equipment

Each brick has its own outline; the small circles are studs. A brick crossing a blue baseplate edge is one complete brick, not two pieces.

The same boundary brick is shown clipped on the adjacent page. Place it only once. Keep baseplates touching on the supporting board.

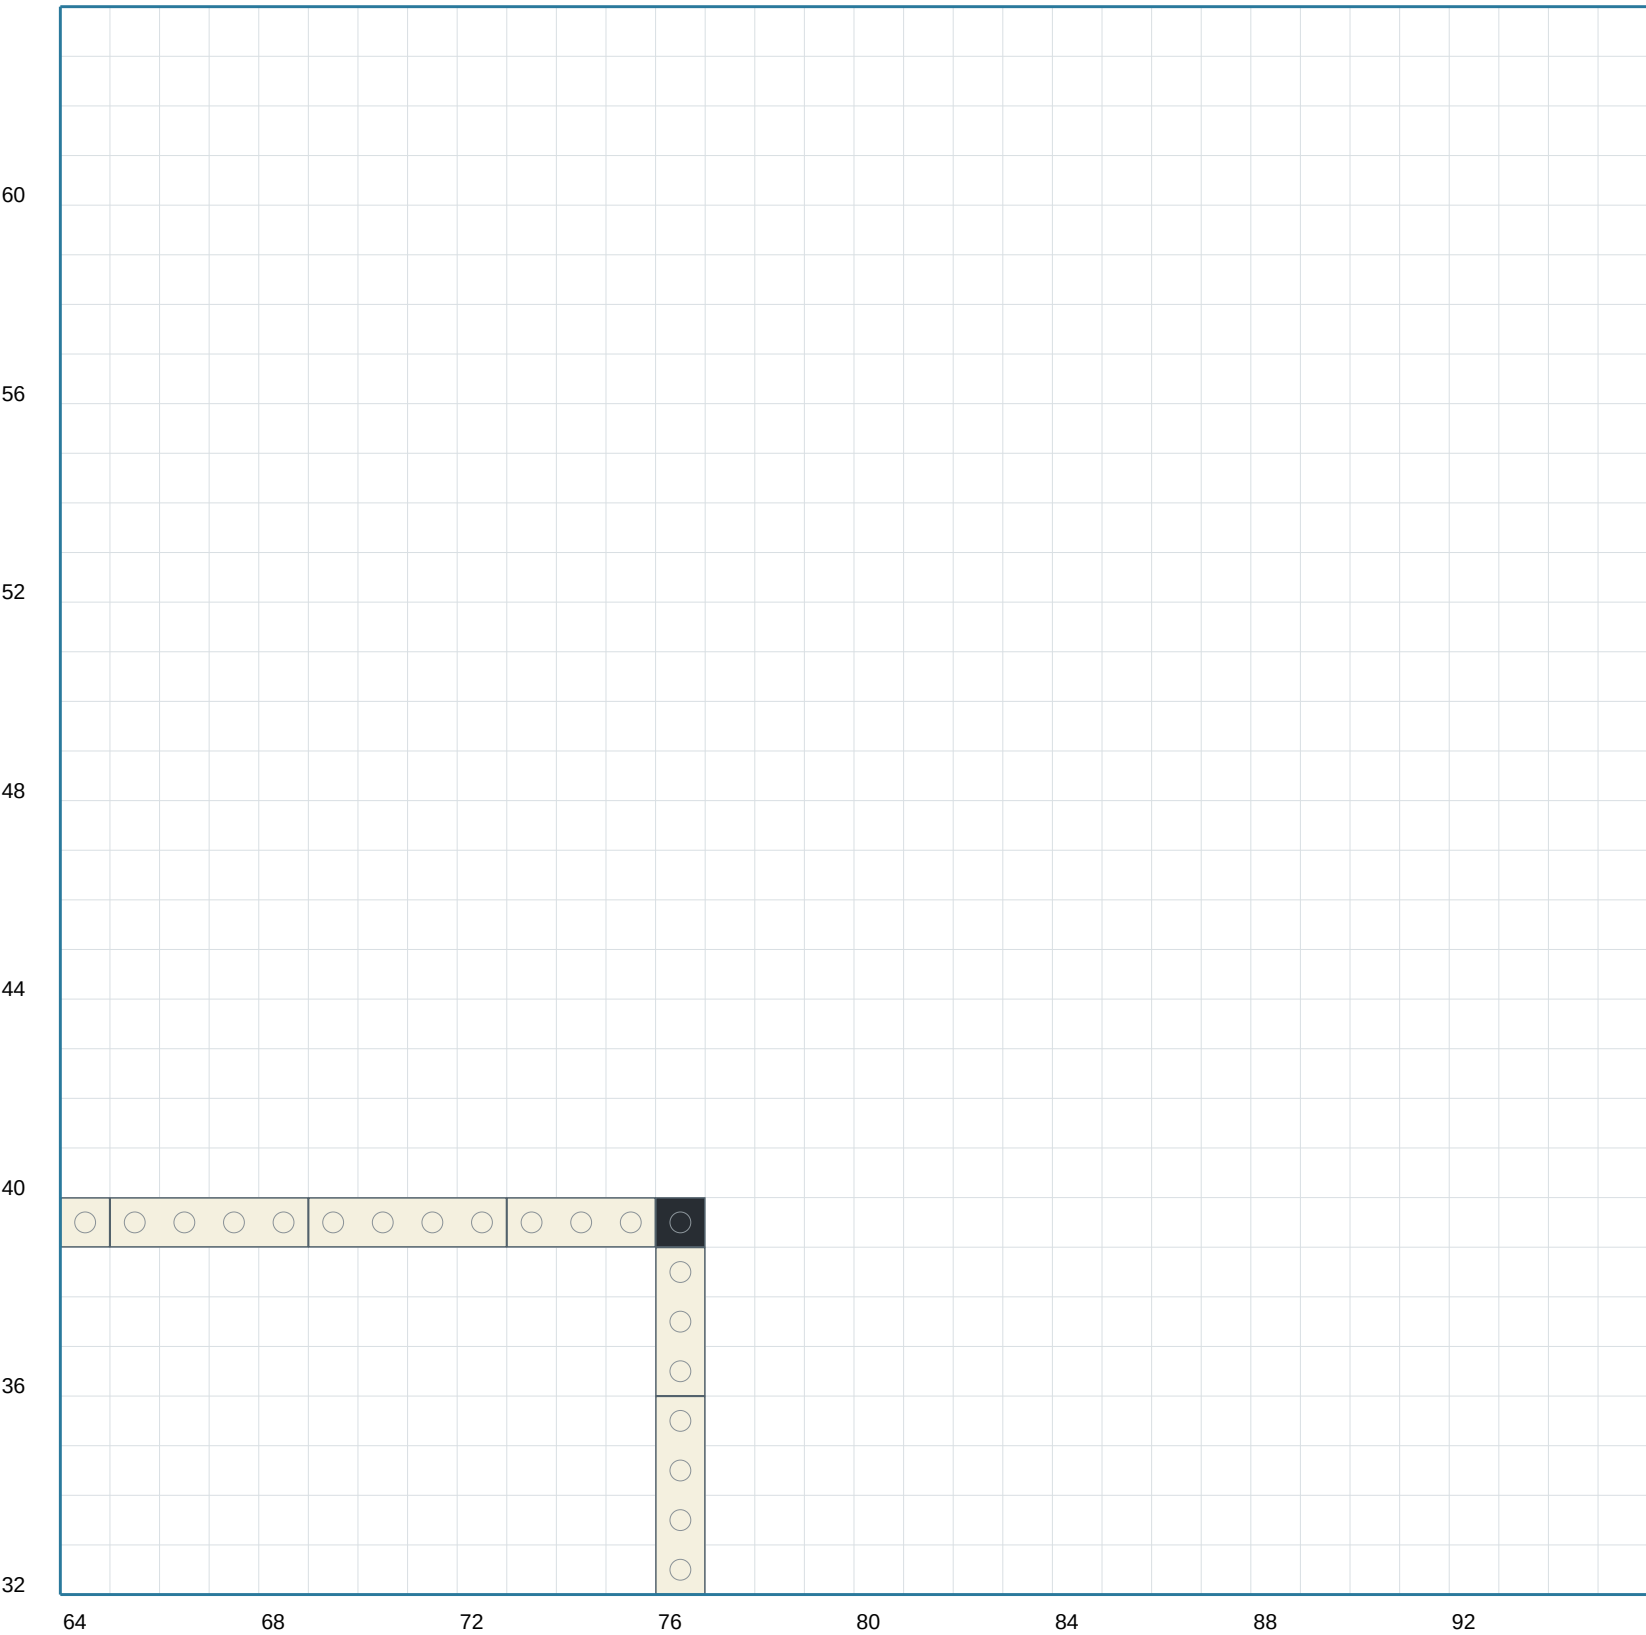

Bricks starting on this baseplate:

- 1 Brick 1 x 1 Black
- 17 Brick 1 x 4 Black
- 1 Brick 1 x 4 White
- 2 Brick 1 x 3 Black

If a placement is unclear, brick_placements.csv gives its exact X, Y, width, depth, color and course.

Course 3 - baseplate F

X 64 to 95 | Y 32 to 63 | north is up

- Walls / lintels
- Glazing representation
- Counters / tables
- Seats / equipment

Each brick has its own outline; the small circles are studs. A brick crossing a blue baseplate edge is one complete brick, not two pieces.

The same boundary brick is shown clipped on the adjacent page. Place it only once. Keep baseplates touching on the supporting board.

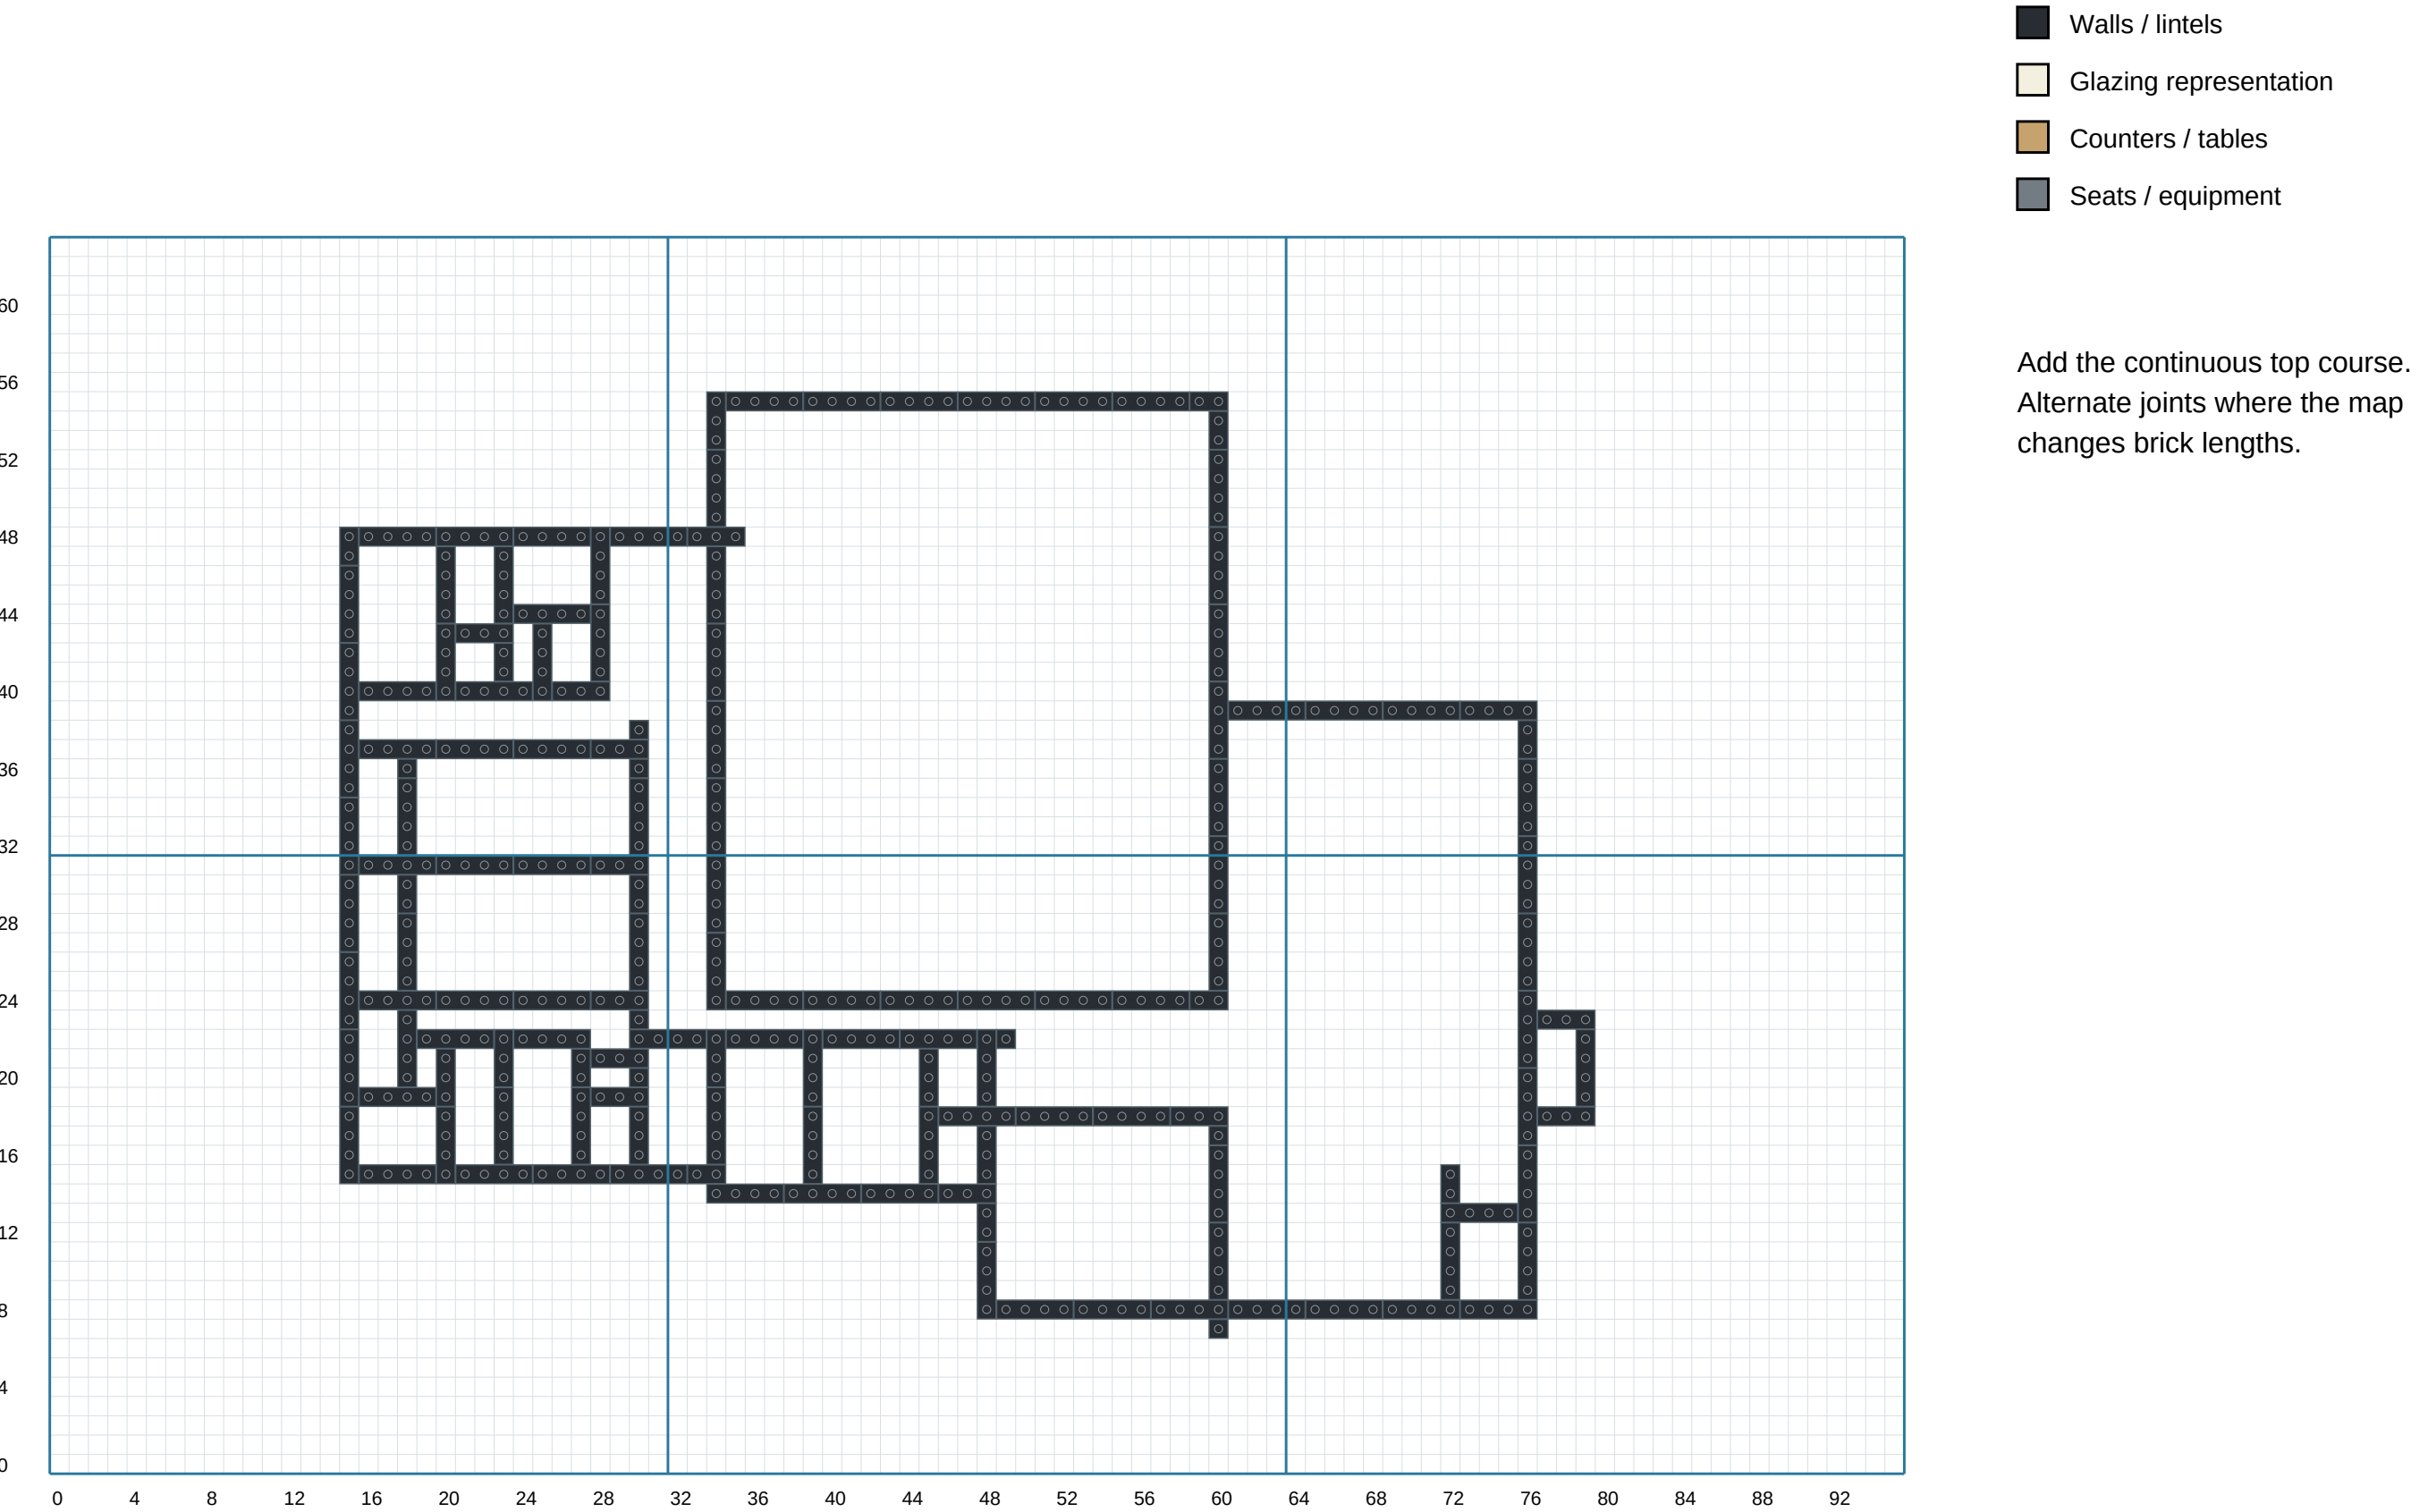

Bricks starting on this baseplate:

- 1 Brick 1 x 1 Black
- 3 Brick 1 x 4 White
- 2 Brick 1 x 3 White

If a placement is unclear, brick_placements.csv gives its exact X, Y, width, depth, color and course.

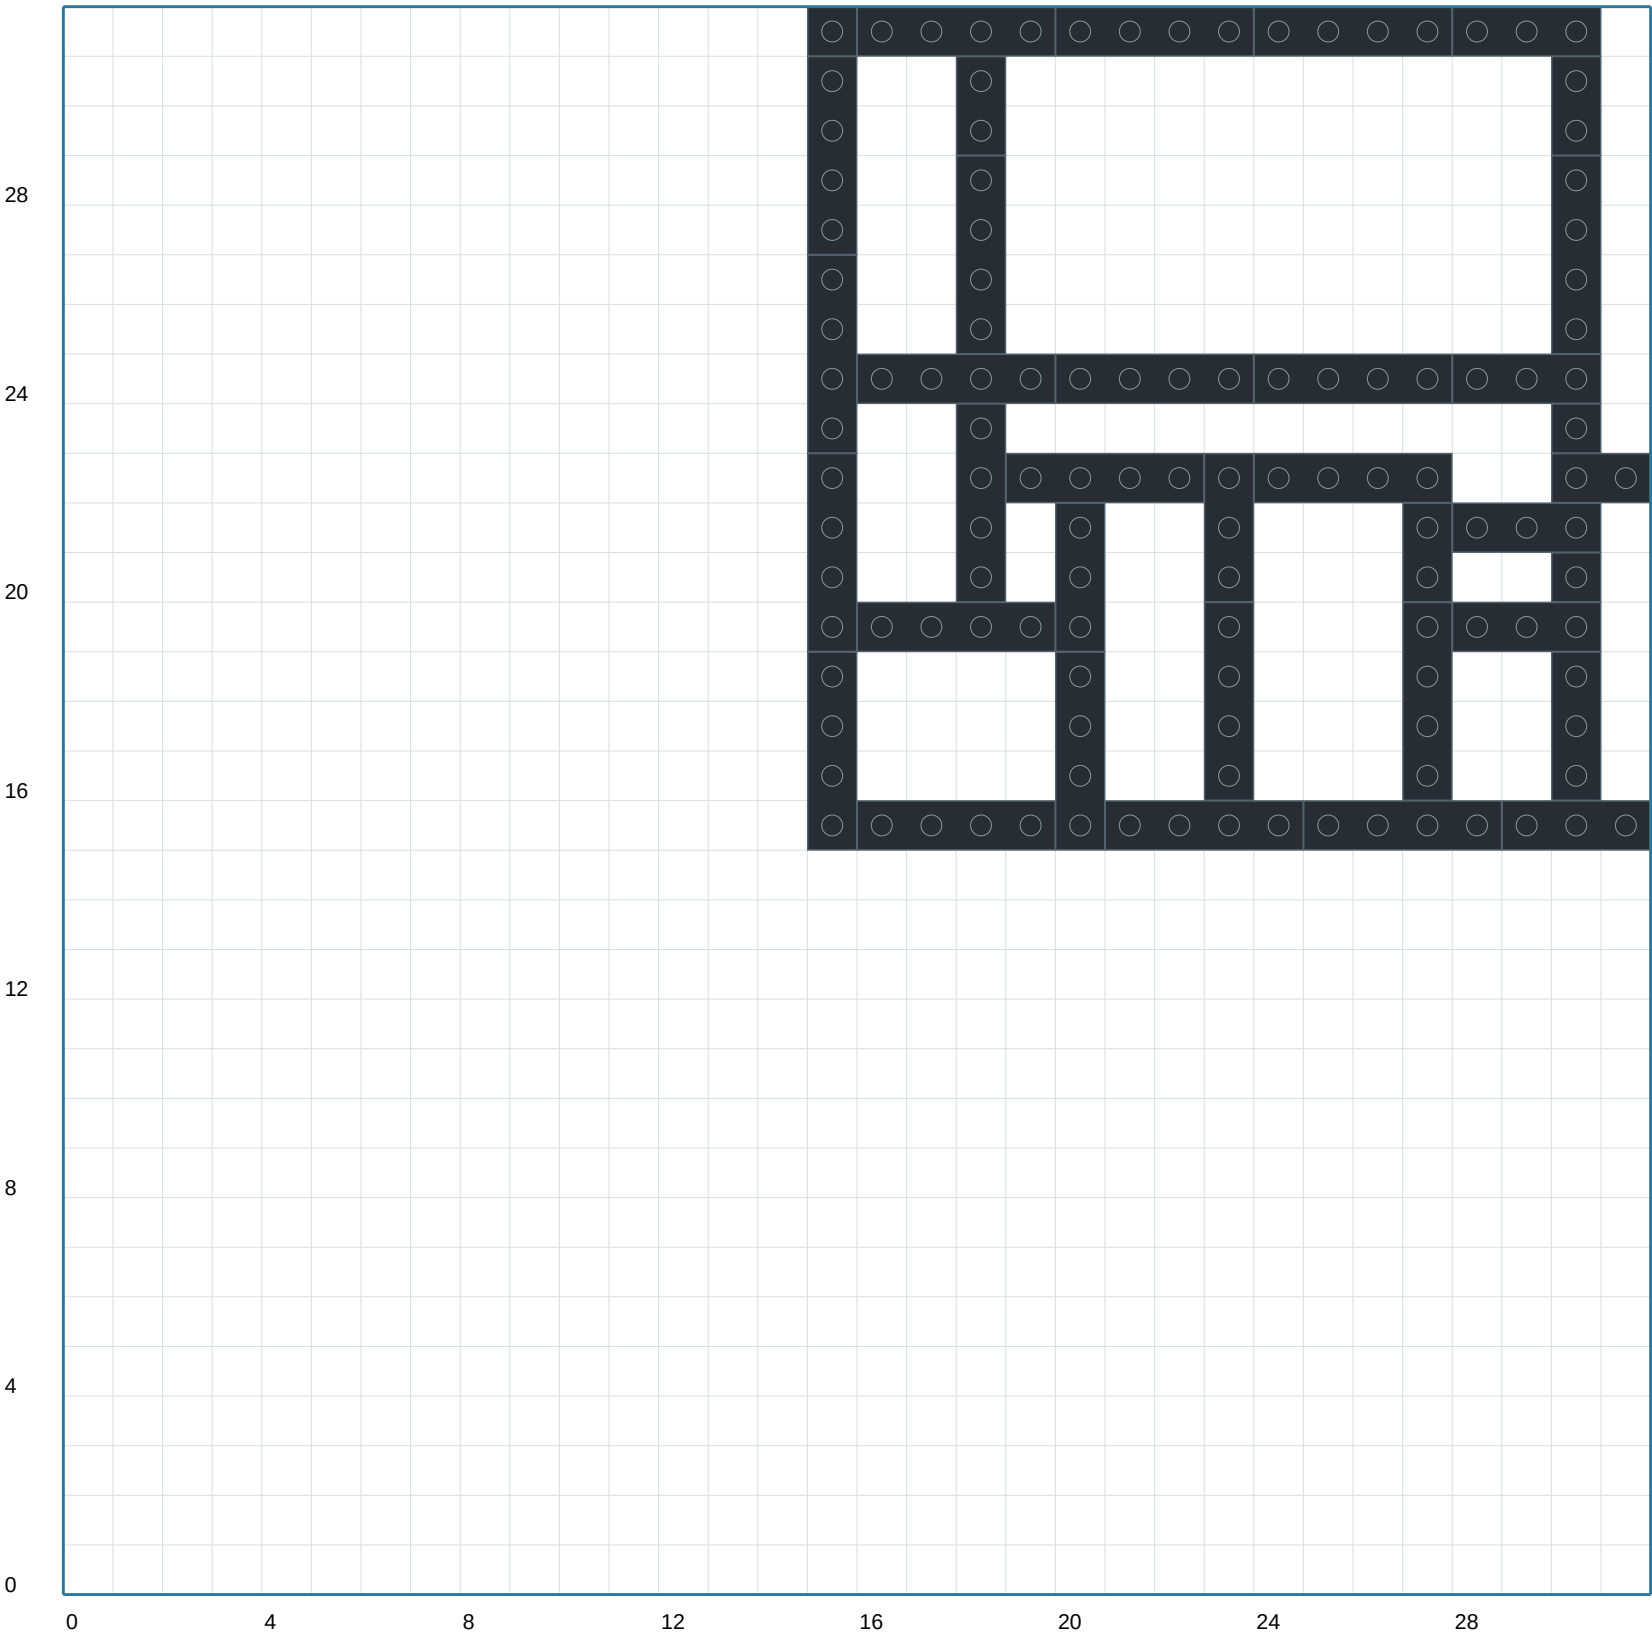

Wall course 4 - overview

149 bricks in this wall course | build across all baseplates before proceeding

Course 4 - baseplate A

X 0 to 31 | Y 0 to 31 | north is up

- Walls / lintels
- Glazing representation
- Counters / tables
- Seats / equipment

Each brick has its own outline; the small circles are studs. A brick crossing a blue baseplate edge is one complete brick, not two pieces.

The same boundary brick is shown clipped on the adjacent page. Place it only once. Keep baseplates touching on the supporting board.

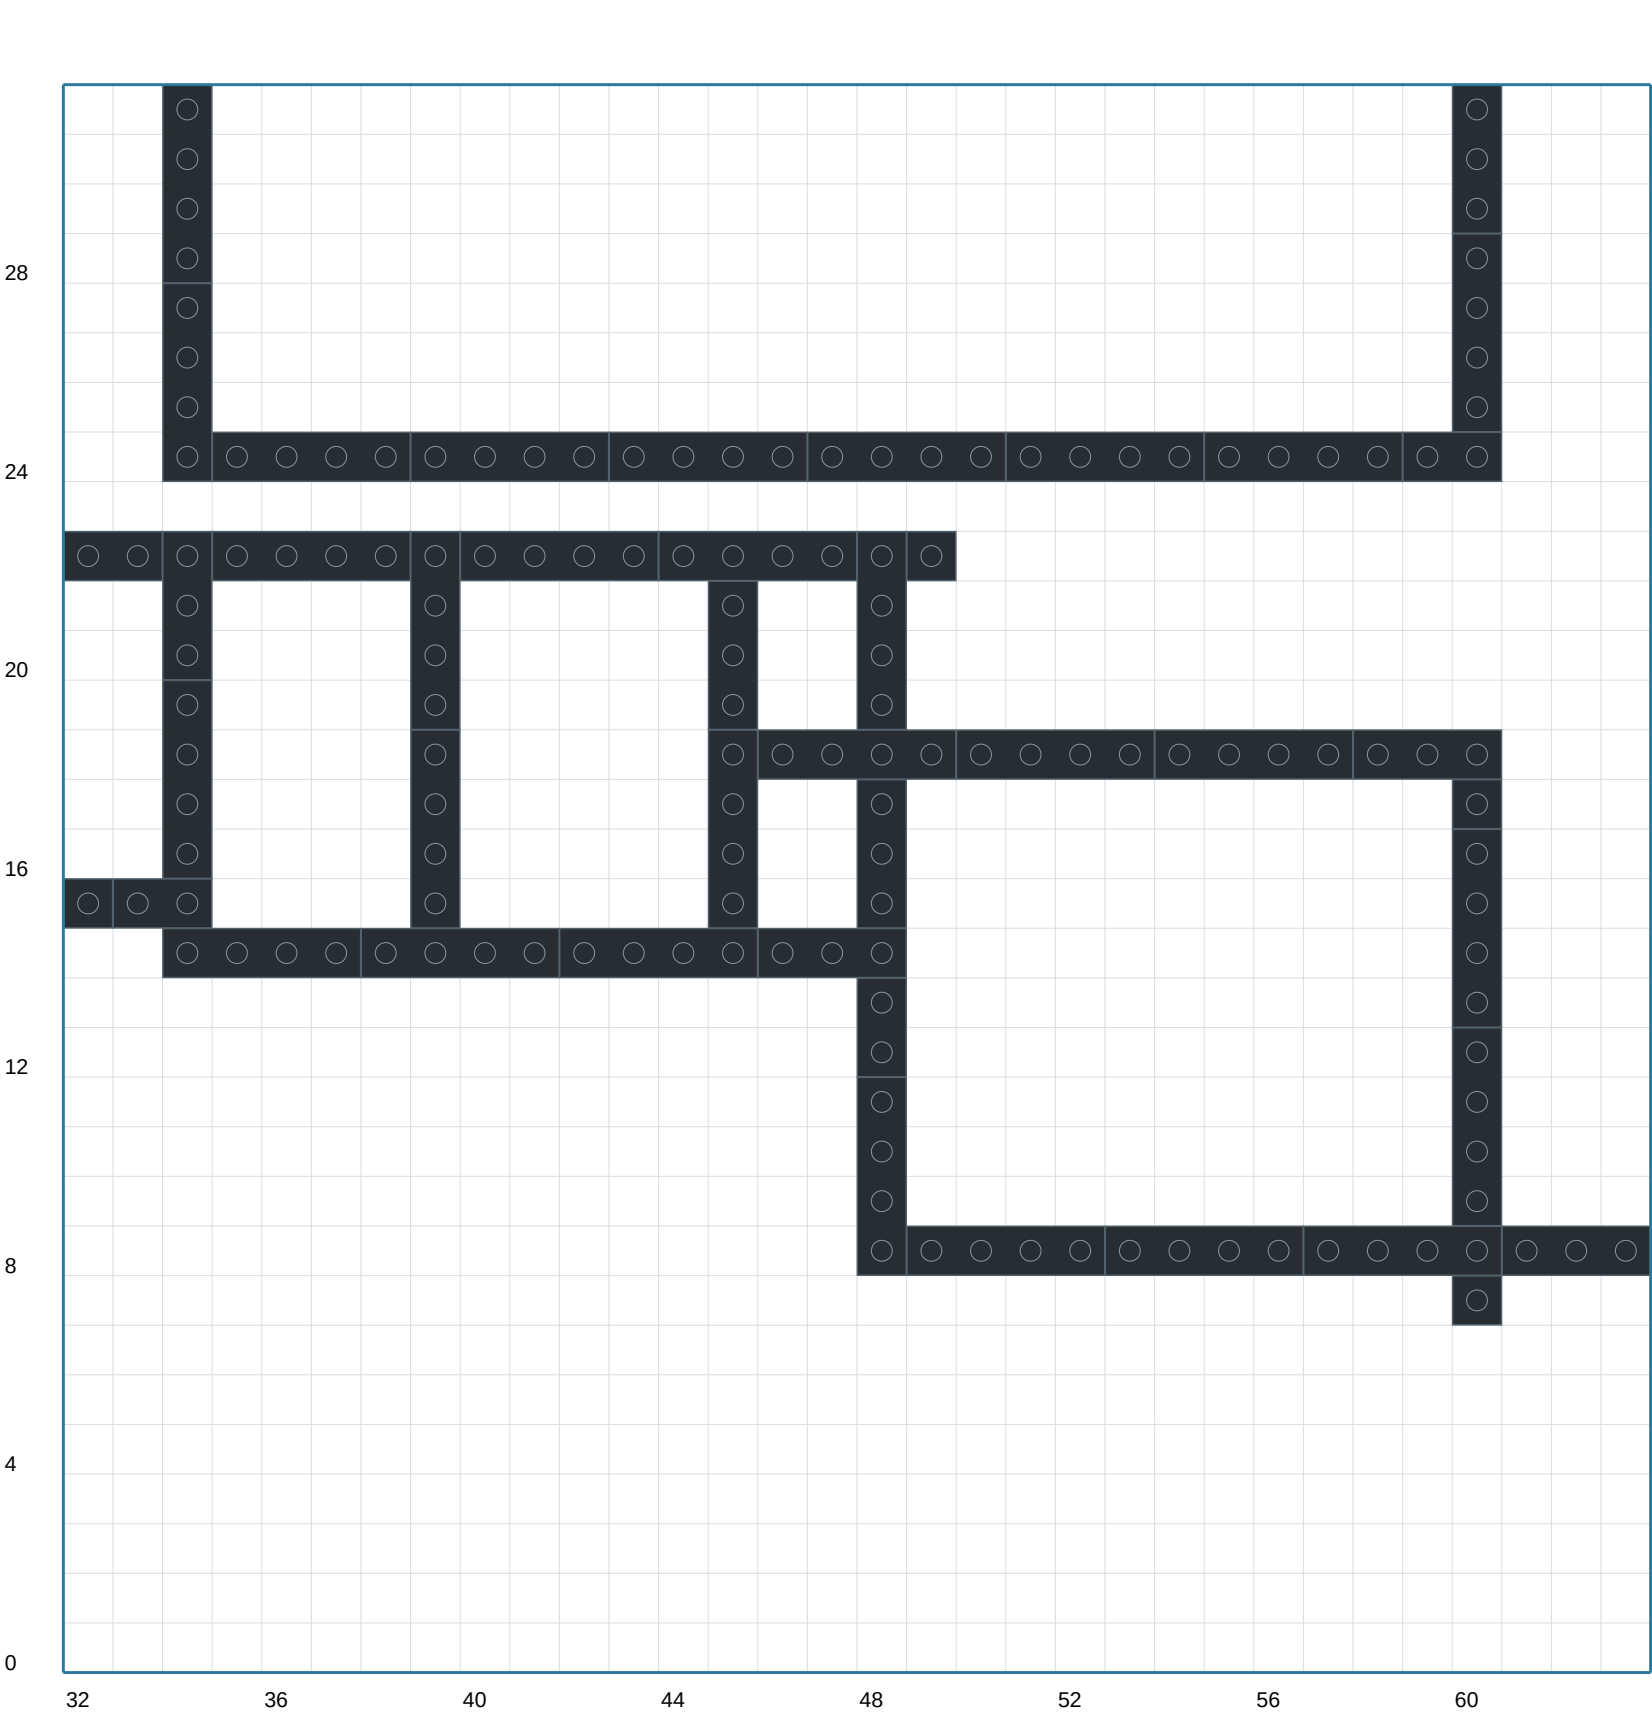

Bricks starting on this baseplate:

- 3 Brick 1 x 2 Black
- 2 Brick 1 x 1 Black
- 25 Brick 1 x 4 Black
- 7 Brick 1 x 3 Black

If a placement is unclear, brick_placements.csv gives its exact X, Y, width, depth, color and course.

Course 4 - baseplate B

X 32 to 63 | Y 0 to 31 | north is up

- Walls / lintels
- Glazing representation
- Counters / tables
- Seats / equipment

Each brick has its own outline; the small circles are studs. A brick crossing a blue baseplate edge is one complete brick, not two pieces.

The same boundary brick is shown clipped on the adjacent page. Place it only once. Keep baseplates touching on the supporting board.

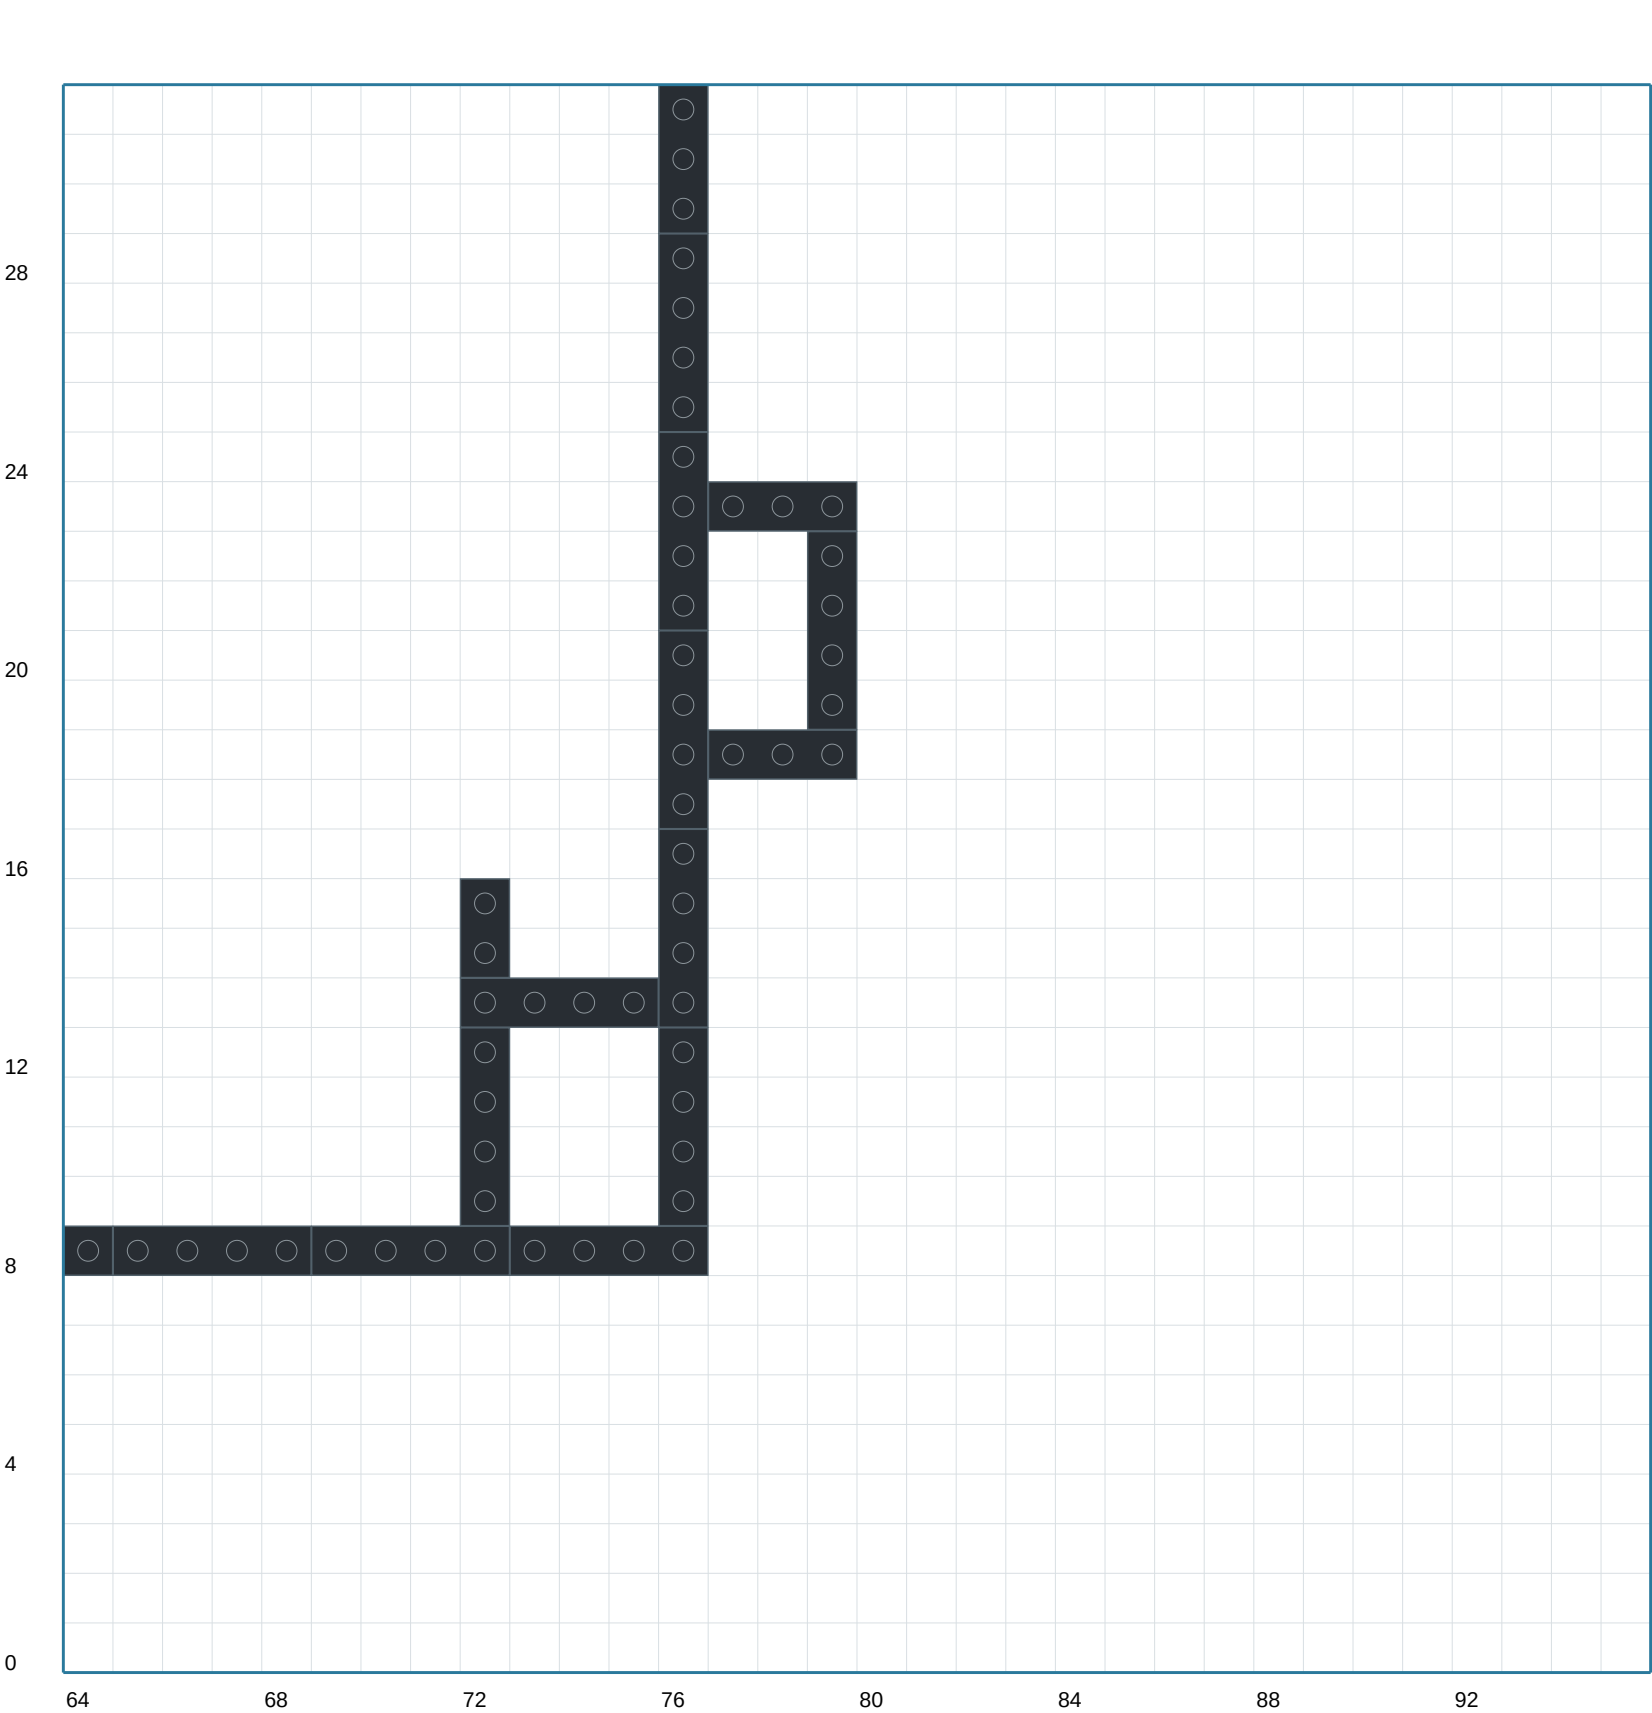

Bricks starting on this baseplate:

- 3 Brick 1 x 2 Black
- 3 Brick 1 x 1 Black
- 31 Brick 1 x 4 Black
- 5 Brick 1 x 3 Black

If a placement is unclear, brick_placements.csv gives its exact X, Y, width, depth, color and course.

Course 4 - baseplate C

X 64 to 95 | Y 0 to 31 | north is up

- Walls / lintels
- Glazing representation
- Counters / tables
- Seats / equipment

Each brick has its own outline; the small circles are studs. A brick crossing a blue baseplate edge is one complete brick, not two pieces.

The same boundary brick is shown clipped on the adjacent page. Place it only once. Keep baseplates touching on the supporting board.

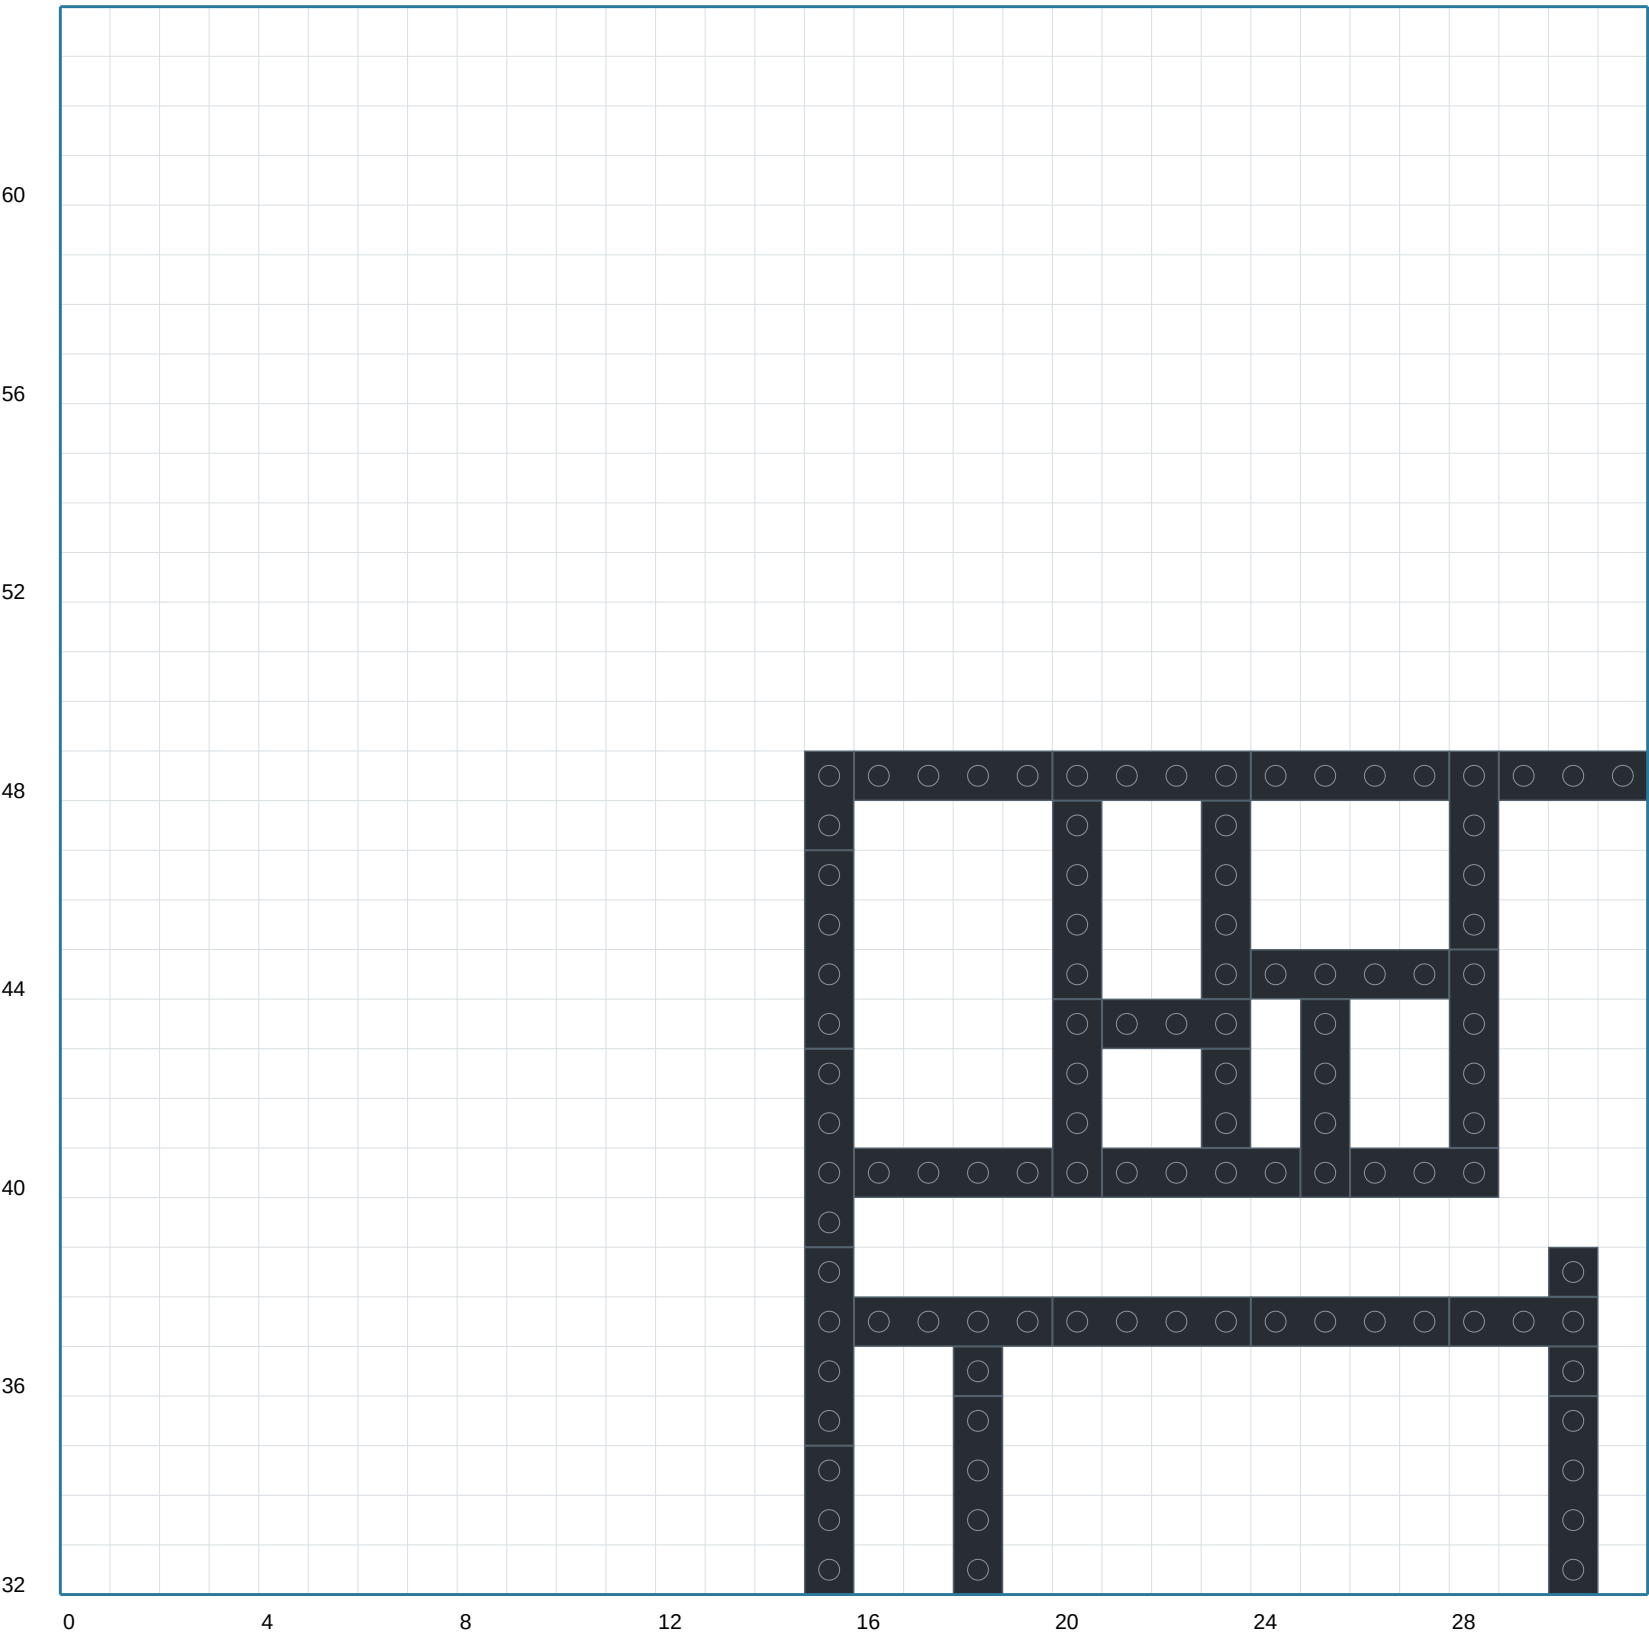

Bricks starting on this baseplate:

- 1 Brick 1 x 2 Black
- 12 Brick 1 x 4 Black
- 2 Brick 1 x 3 Black

If a placement is unclear, brick_placements.csv gives its exact X, Y, width, depth, color and course.

Course 4 - baseplate D

X 0 to 31 | Y 32 to 63 | north is up

- Walls / lintels
- Glazing representation
- Counters / tables
- Seats / equipment

Each brick has its own outline; the small circles are studs. A brick crossing a blue baseplate edge is one complete brick, not two pieces.

The same boundary brick is shown clipped on the adjacent page. Place it only once. Keep baseplates touching on the supporting board.

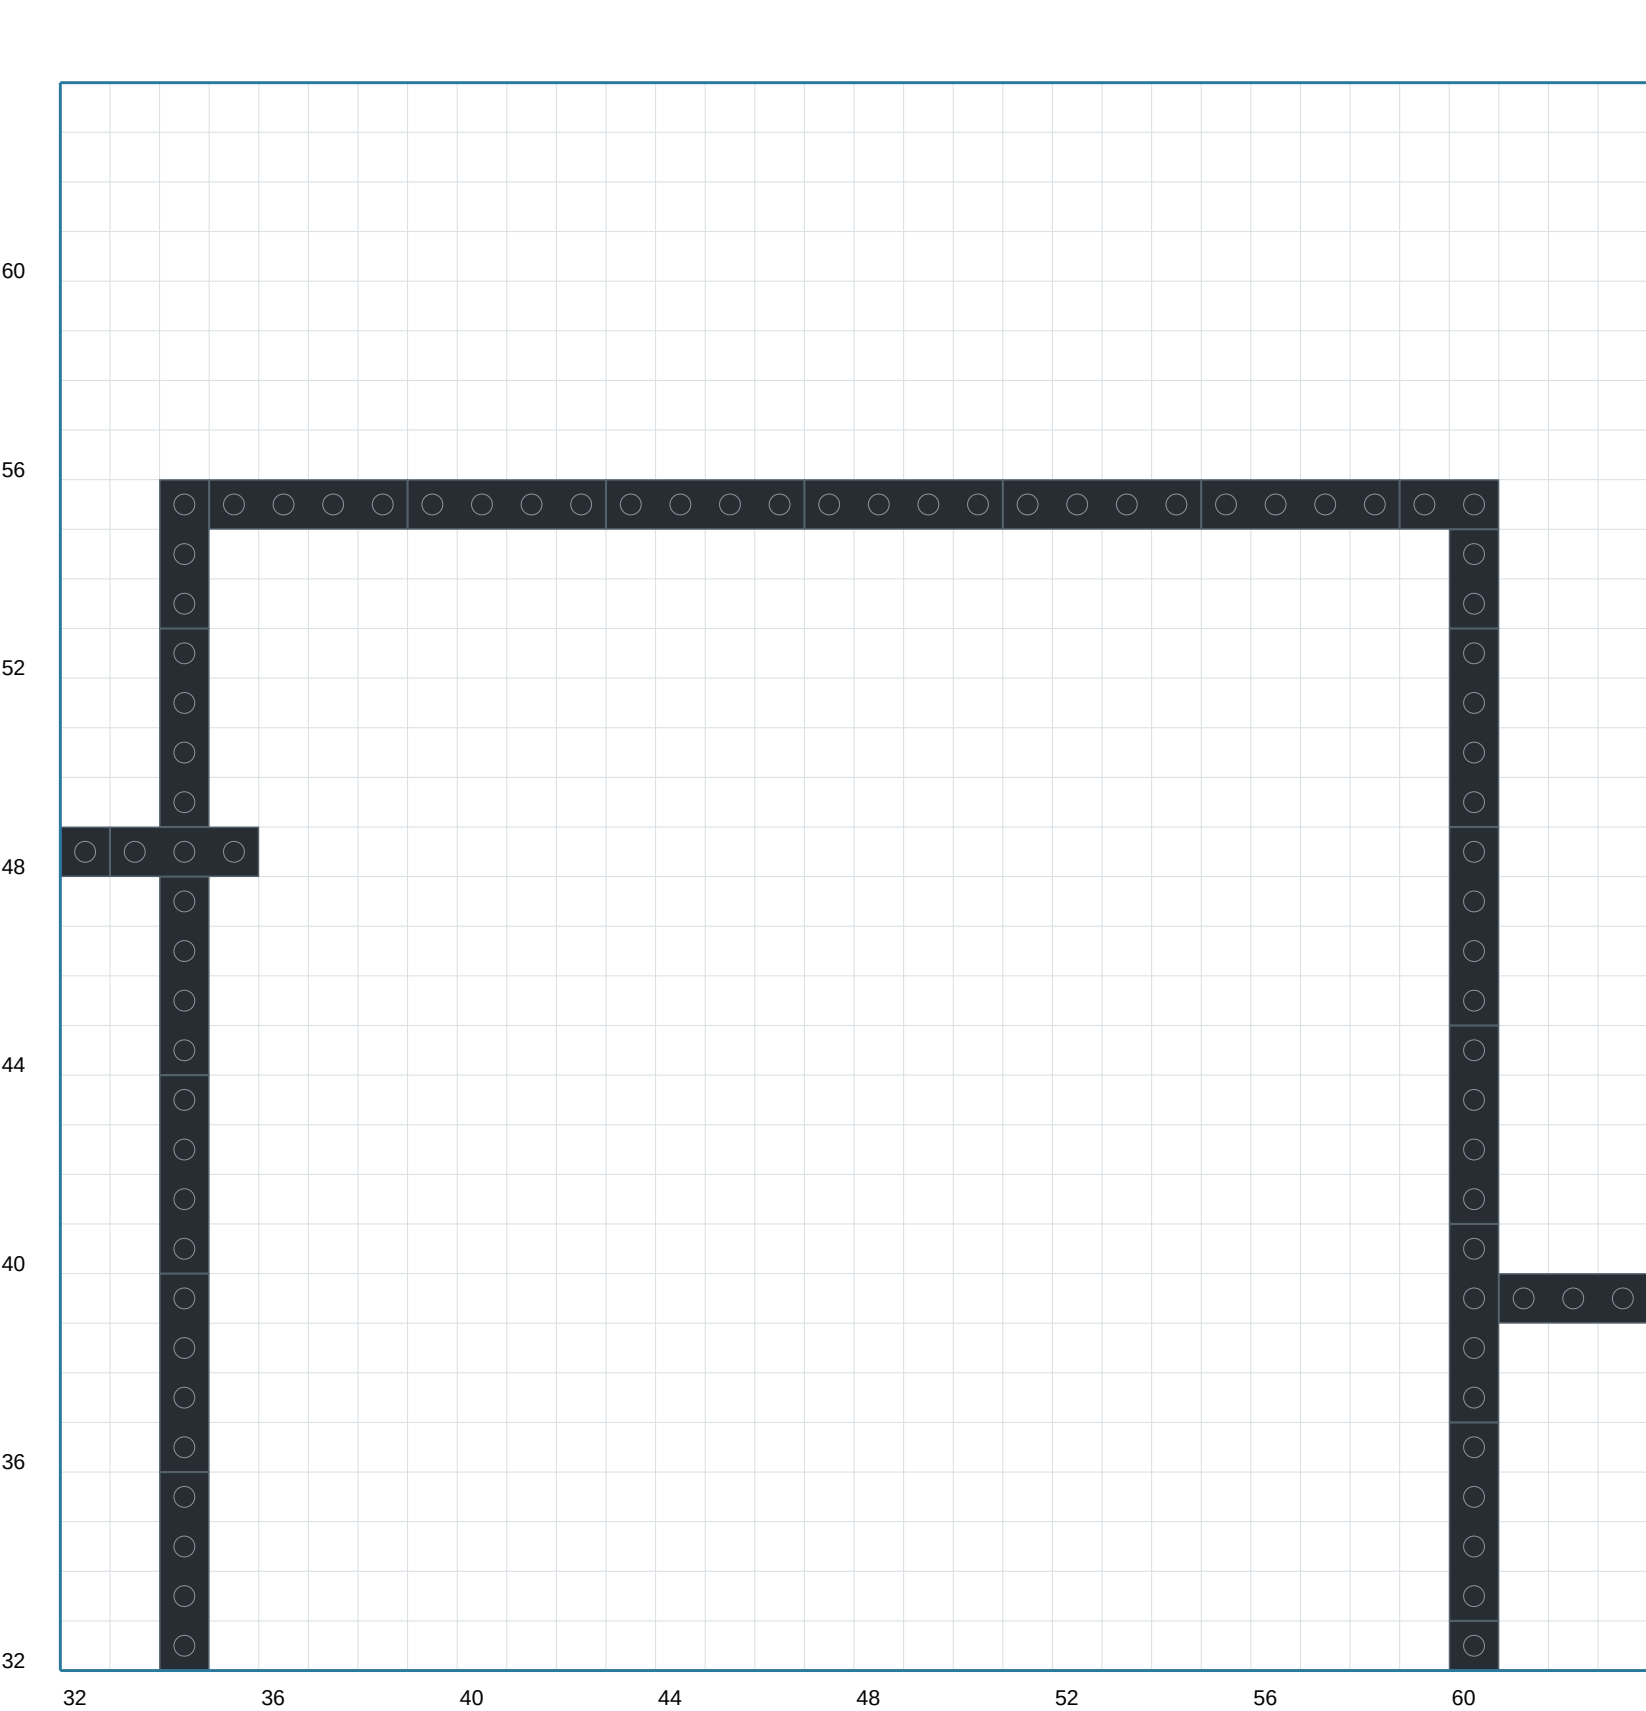

Bricks starting on this baseplate:

- 2 Brick 1 x 2 Black
- 3 Brick 1 x 1 Black
- 21 Brick 1 x 4 Black
- 3 Brick 1 x 3 Black

If a placement is unclear, brick_placements.csv gives its exact X, Y, width, depth, color and course.

Course 4 - baseplate E

X 32 to 63 | Y 32 to 63 | north is up

- Walls / lintels
- Glazing representation
- Counters / tables
- Seats / equipment

Each brick has its own outline; the small circles are studs. A brick crossing a blue baseplate edge is one complete brick, not two pieces.

The same boundary brick is shown clipped on the adjacent page. Place it only once. Keep baseplates touching on the supporting board.

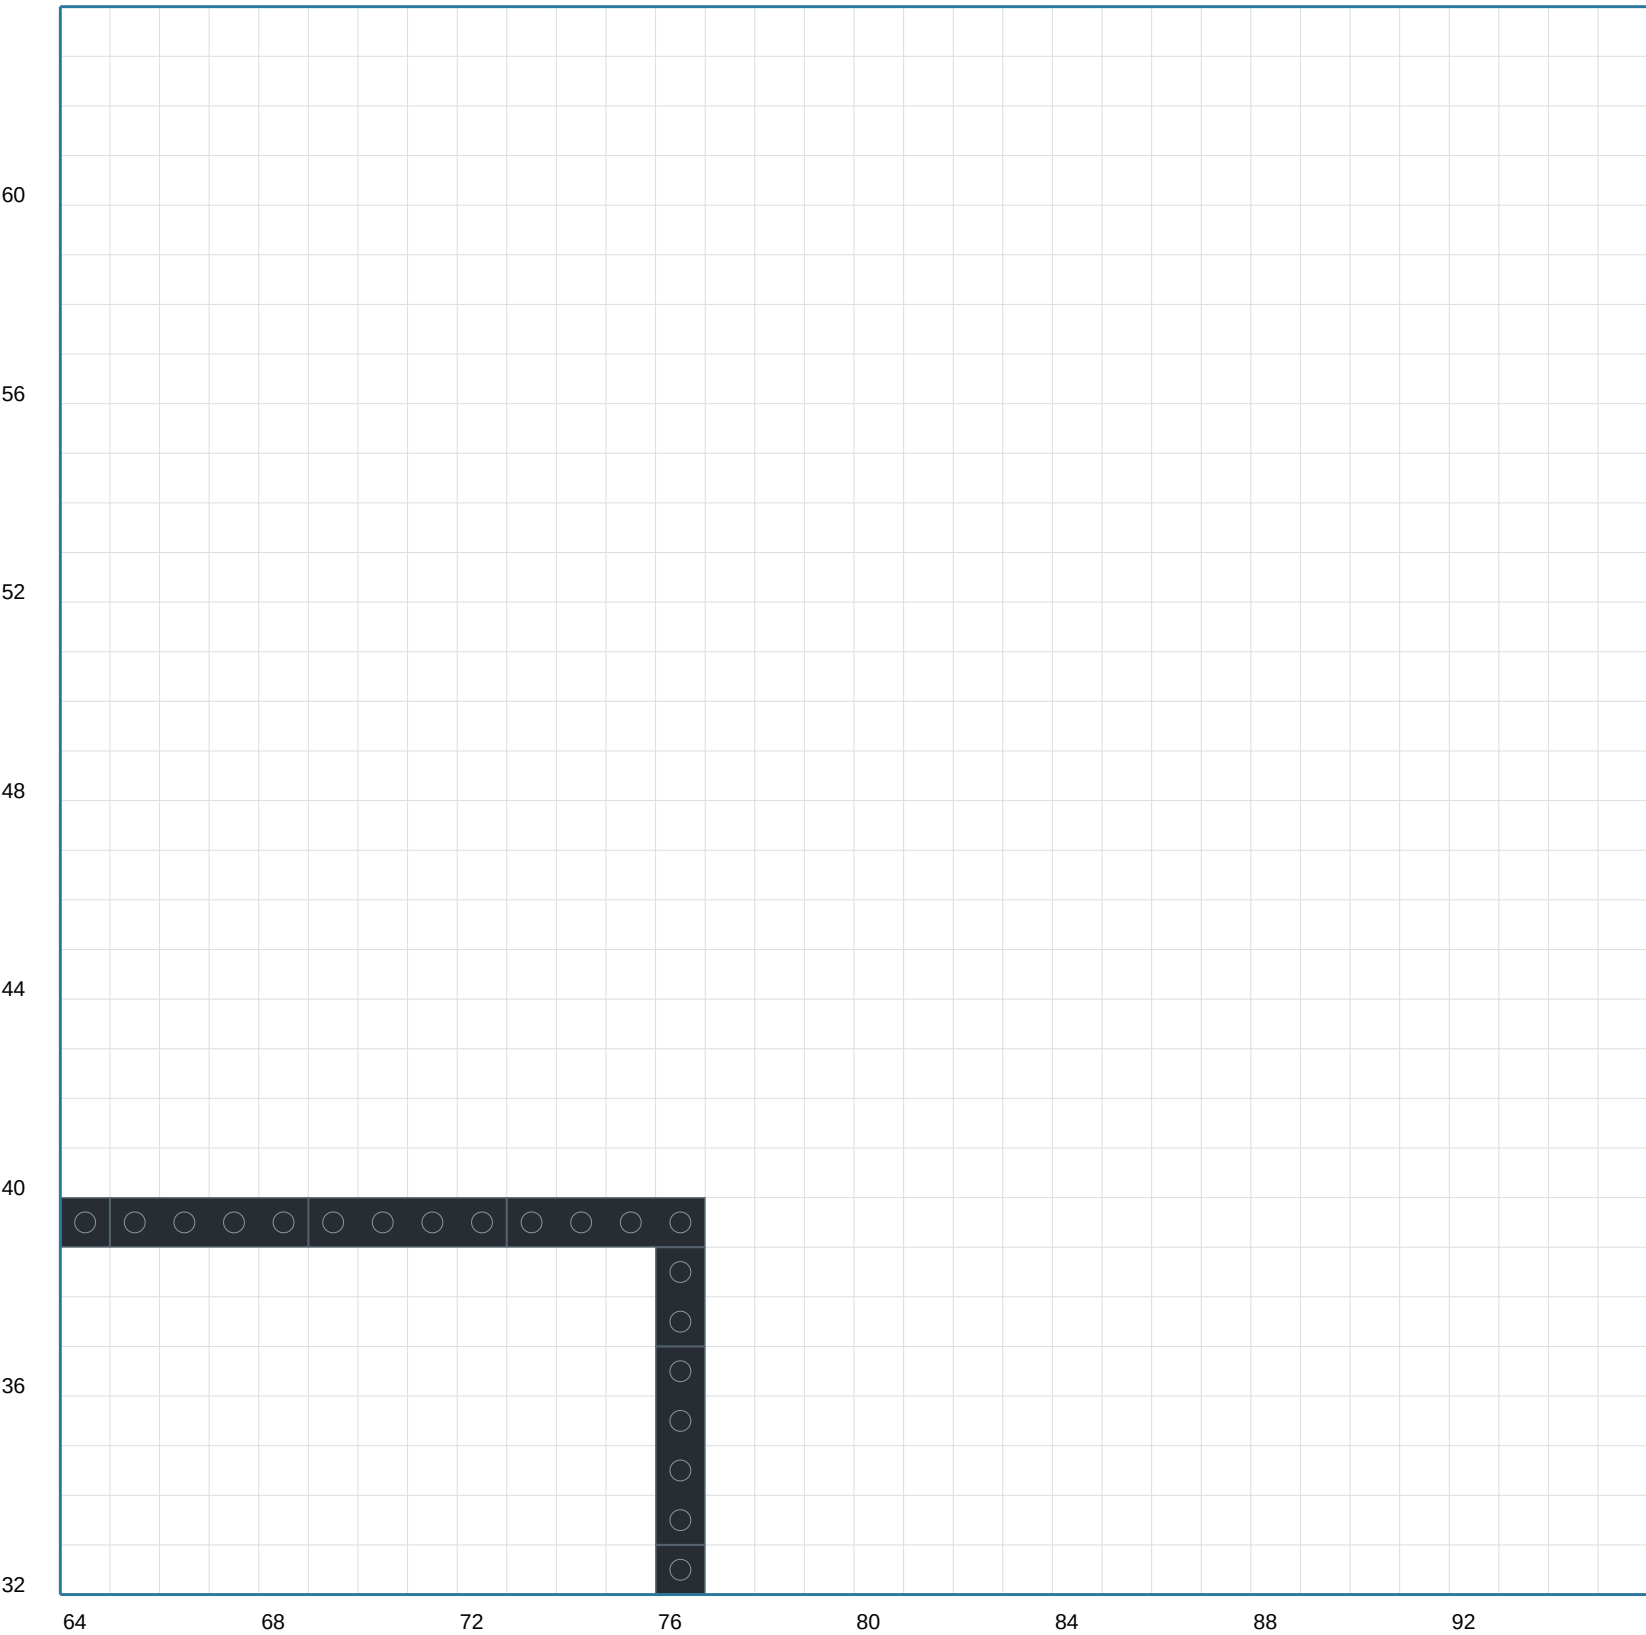

Bricks starting on this baseplate:

- 2 Brick 1 x 2 Black
- 17 Brick 1 x 4 Black
- 2 Brick 1 x 3 Black

If a placement is unclear, brick_placements.csv gives its exact X, Y, width, depth, color and course.

Course 4 - baseplate F

X 64 to 95 | Y 32 to 63 | north is up

- Walls / lintels
- Glazing representation
- Counters / tables
- Seats / equipment

Each brick has its own outline; the small circles are studs. A brick crossing a blue baseplate edge is one complete brick, not two pieces.

The same boundary brick is shown clipped on the adjacent page. Place it only once. Keep baseplates touching on the supporting board.

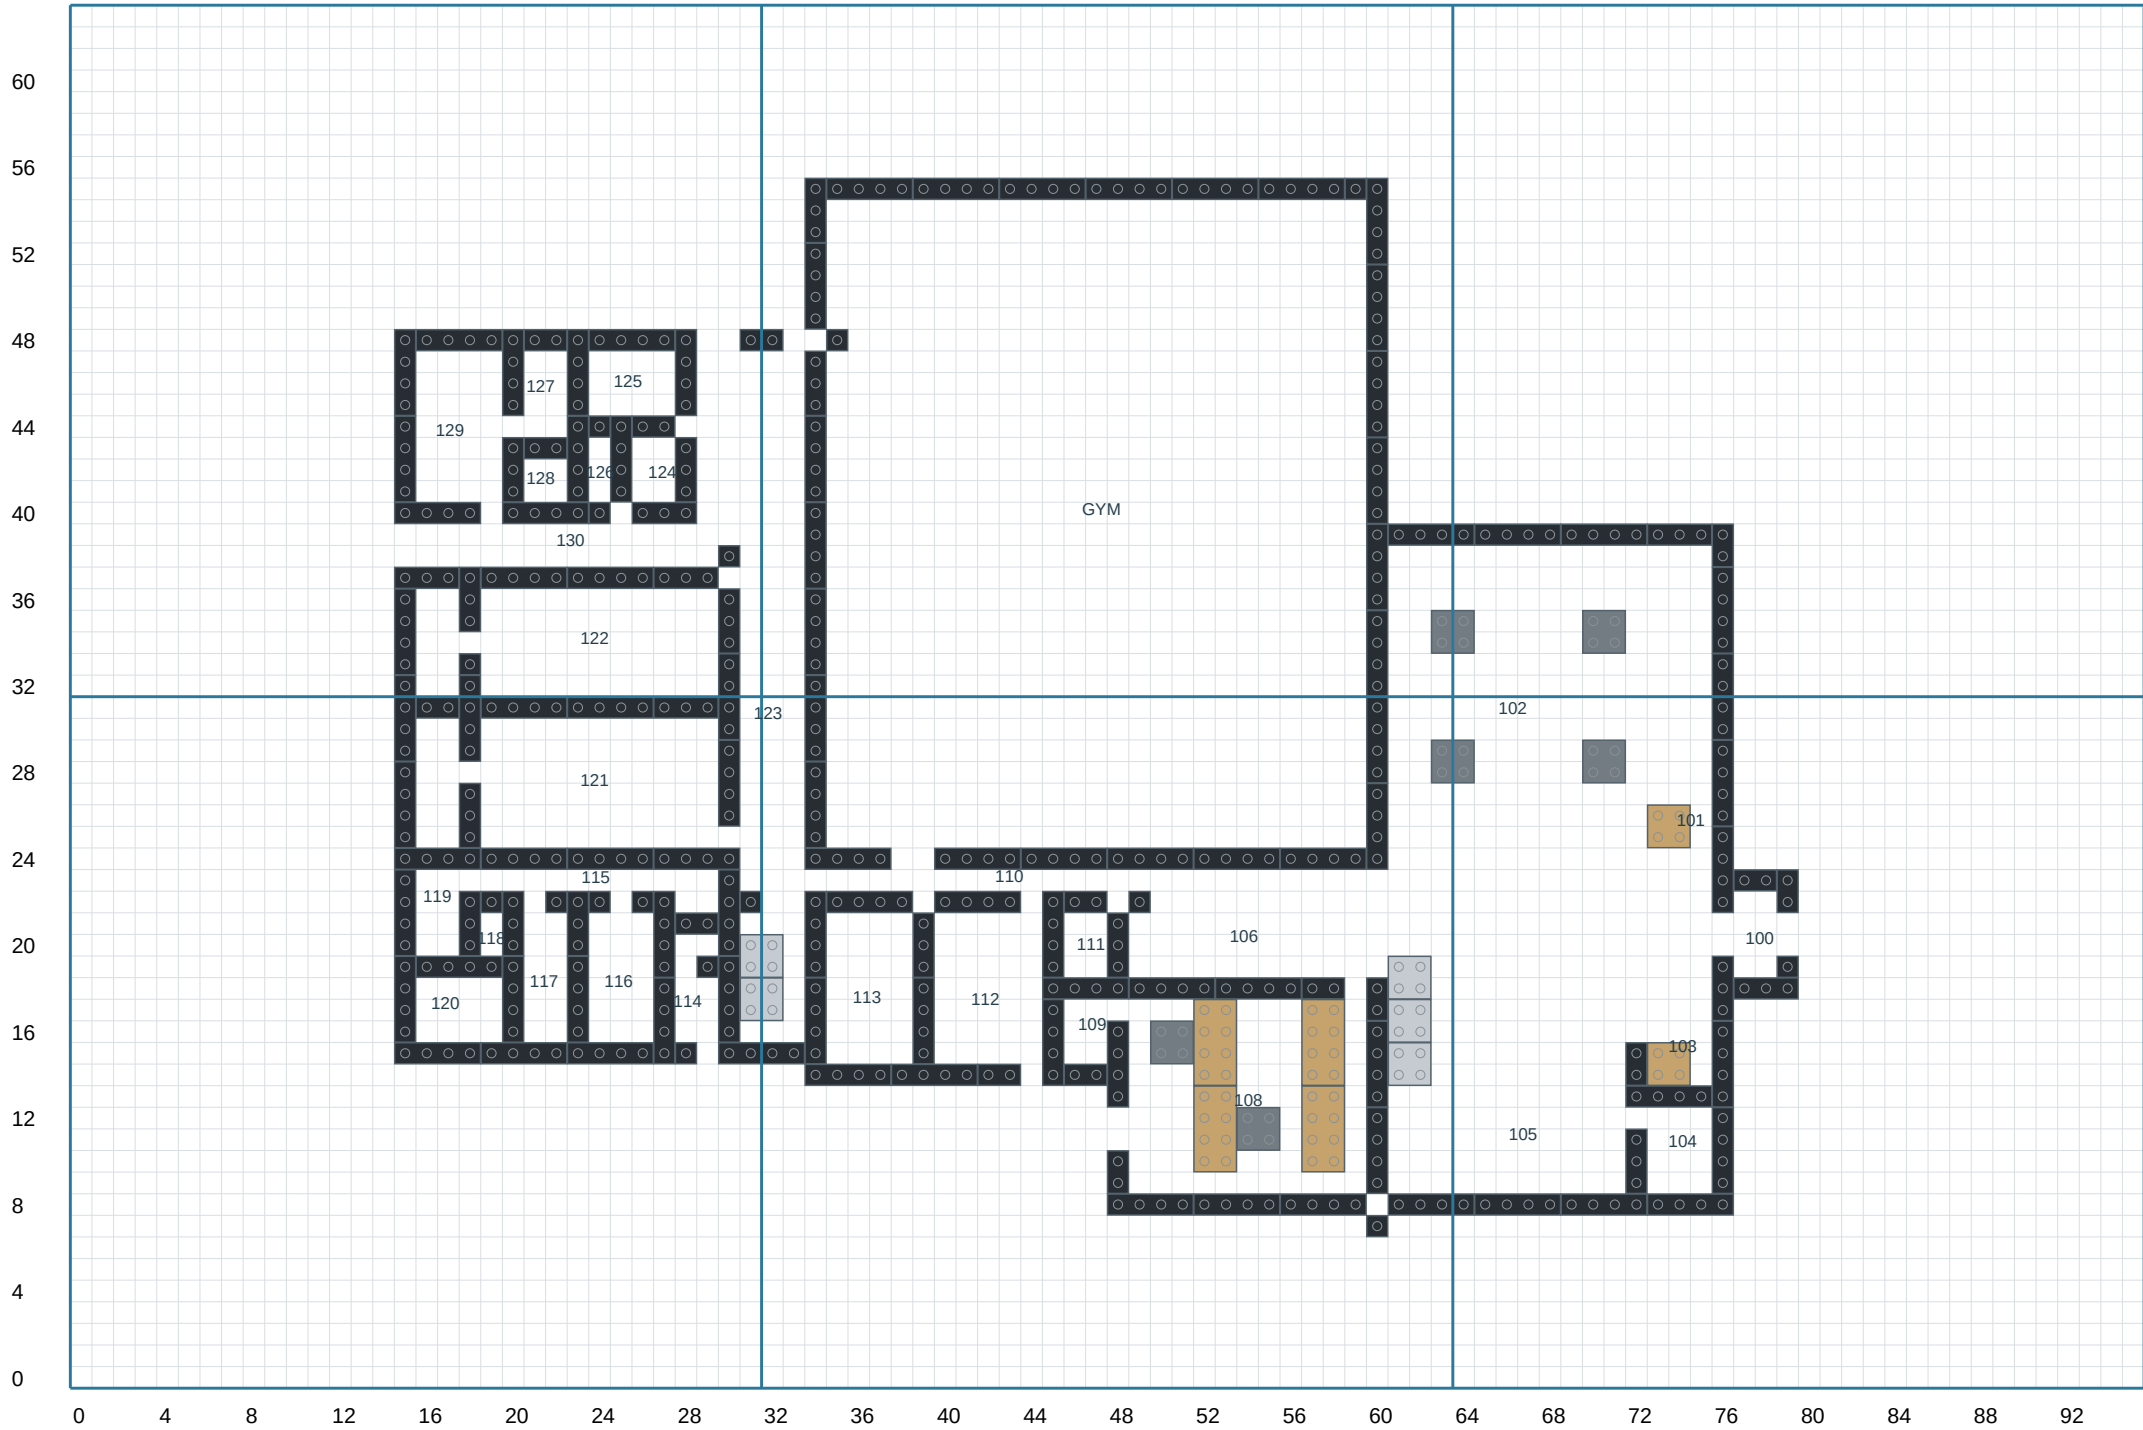

Bricks starting on this baseplate:

- 1 Brick 1 x 2 Black
- 4 Brick 1 x 4 Black

If a placement is unclear, brick_placements.csv gives its exact X, Y, width, depth, color and course.

(61,16) 2 x 2

(61,18) 2 x 2

Interior construction details

Exact repeated footprints are listed in brick_placements.csv

Tables and counters

Tan 2 x 4 bricks represent the lab work surfaces. Tan 2 x 2 bricks represent the cafe counter and reception. They are one brick high and attach directly to the baseplates.

Equipment and seating

Dark gray 2 x 2 blocks are one brick high for commons seats. Stack two at each equipment station. These are schematic markers rather than miniature replicas of individual machines.

Two stair cores

Each core has three adjacent 2 x 2 footprints. Stack one, two and three bricks respectively along the indicated direction. Every block is supported from the baseplate. These are symbolic ground-floor stairs; no upper floor is included.

Display and handling

The open-top model exposes the rooms and circulation. Keep all baseplates on a supporting board when moving it. If you want a fully bonded base, design a separate plate foundation before construction; it is not included in the listed parts.

Accuracy, validation and source notes

Digital assembly checked; no physical LEGO build has been tested

Plan source: Architectural Plans King School Campus Center, ground-floor sheet A-101; the current structural model supplies wall runs and room positions. The iLab reference is 250825 Innovation Lab REV Design.

The plan is rounded to a 1 metre-per-stud grid, approximately 1:125 horizontally. Walls are one stud thick. Four brick courses are 38.4 mm high, deliberately kept low for a readable cutaway. Doors are one or two studs wide and two courses high.

Some closely spaced doors and very small architectural offsets cannot be represented independently on this grid. 29 openings are retained. The building is not a measured replica of individual wall thicknesses, steps or furniture.

Validation checked every brick footprint for same-course overlap and attachment to studs below. Door lintels are single pieces supported at both ends. The bill of materials and coordinate CSV are generated from the same placements as the LDraw file.

Standard part IDs and coordinate units were checked against the official LDraw library and format specification. The editable LDraw file needs your installed standard parts library; the supplied Blender preview is a schematic visualization.
